C Mr. Ward R. Tift
THE TIFFT AGENCY
211 Cedar Street
Sandpoint, Idaho 83864

Dear Mr. Tift:

O We have placed a copy of your assignment in our files. However, the assignment is not officially recorded. We do not have a method by which to record an assignment of an existing water license. In order to adequately assure that the party transferring has proper title to a water right, we would need something in the form of a title insurance or an abstract of title in connection with the water right. We have, therefore, not established policies for recording changes of ownerships in a license. The copy will remain on record, not officially recorded, for whatever purpose it may serve. Whoever holds title to the real property covered under the water license controls the water right.

P We would note that one point differs between the assignment and the water license as issued. Your assignment refers to 0.20 c.f.s. and the water license is issued for 0.16 c.f.s.

Y If we can assist you further, please contact us.

Very truly yours,

Donald W. McEldowney

As of this date we have mailed the Notice to the Sandpoint News Bulletin
with instructions to publish it once a week for four consecutive weeks prior to
the date set for final proof and then mail the affidavit of publication and
statement of costs to you.

It is important that the enclosed depositions be executed by you and two disin-
terested witnesses who are familiar with the terms of the permit and the work
done thereunder, at the place, on the date, and at the time and before the Notary,
as advertised. It is very important and necessary that each question be answered
in detail.

In returning the depositions to this office, be sure that all copies have been
signed, the Notary's seal has been placed on each and that all depositions, (holder
and two witnesses) are being returned. Also be sure to enclose the Affidavit of
Publication.

Very truly yours,

GEO. N. CARTER

Dear Mr. Schatz:

Returned herewith is Form 6, Proof of Completion of Works, with attached check for \$5.00 which you remitted to this office, also enclosed are Forms 10 and 11, with instructions.

You made the proof April 25, 1957 and the Certificate was mailed to you August 9, 1957. You probably want to make the proof of beneficial use of the water in order to obtain the Water License. That proof is not due until August 8, 1963, however you can make the proof at any prior time.

Very truly yours,

INSTRUCTIONS

PROOF OF COMPLETION OF WORKS

Mr. V.E. Schatz
Route # 1
Athol, Idaho

Boise, Idaho

Dear Sir:-

Under the terms of your permit No. 22941 you are required to complete your diversion works on or before August 8, 1957. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

MARK R. KULP

Re: Permit No. 22941

Dear Mr. Schatz:

We have your letter of February 20, 1957, which states you are prepared to make proof of completion of works and beneficial use on the permit number above.

Proof of Completion of Works are to be made on Form 6 (enclosed) and returned to this department with the fee of \$5.00 required in connection therewith.

Proof of Beneficial Use requires publication once a week for four consecutive weeks in a county newspaper. This notice, Form 10 enclosed, should be made in duplicate, setting the time and place and naming the notary public before whom the proof is to be made. The proof may be made at Athol or at any place that will be convenient for you and your two witnesses. The time for proof must be set far enough ahead to allow for the four weeks publication.

Both copies of Form 10 together with Form 11, also enclosed, which is authorization for us to have the notice published, at your expense, in the designated county newspaper, are to be returned to this department.

We shall then send a copy of the Notice to the newspaper with instructions in regard to publishing and will send to you the forms of depositions to be executed by you and two disinterested witnesses in making the proof.

May we say that your beneficial use proof, according to the terms of your permit, is not due until August 8, 1963. Therefore, it will not be to your best interest to make said beneficial use proof at this time if you do not have all of your land under irrigation. However, if you do have all the land as designated in your permit under irrigation at this time, the beneficial use proof can be made at once.

Very truly yours,

MARK R. KULP

Dear Mr. Schatz:

In reply to your letter of April 2, we enclose a form of application for permit to appropriate the public waters of the State of Idaho together with a pamphlet giving regulations and instructions in regard to filing same.

Your letter speaks of filing on a pond. If this is a small pond not exceeding 5 acres in surface area at high water mark and is located entirely upon your own land, it will not be necessary to file an application.

Otherwise, under remarks, please give the ownership of the land on which the pond is located.
