RE: PERMIT NO. 98-07598

Dear Water Right Holder:

Enclosed herewith is a copy of the Water Right License issued on the above referenced permit. The field examination was made June 19, 1990 by a representative of the Department. The field report clearly shows that the development that occurred exceeded the authorized permit.

Your permit and subsequent license authorizes the storage of 3.0 Acre Feet per Annum (AFA). The actual size of the pond confirmed by the examiner is 5.17 Acres at an average depth of 4 feet or a capacity of 20.7 AFA. 17.7 AFA is not authorized under the existing right.

A search of the database reveals that no other right has been filed to cover this additional appropriation. A new application should be filed to appropriate the additional 17.7 AFA and accurately reflect this development. An application and instructions have been enclosed for your convenience.

Sincerely,

SHARLA CURTIS

RE: PERMIT NO. 98-07598

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before November 1, 1989. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck
