H. REMARKS AND OVERLAP REVIEW ANALYSIS

There is no diversion from Mission Creek. There is a well that provides water for domestic & livestock use. There is no well log or water right permit in our files for a well at this site, though I did see it. Mr. Downing still plans on diverting water for irrigation, but even when/if diversion is in place, the well will continue to provide water for domestic and stockwater, according to conversation with Mr. Downing.

RE: Permit to Appropriate Water No. 98-07595

NOTICE OF PENDING ORDER VOIDING PERMIT

Dear Permit Holder(s):

On November 18, 1983 the Department of Water Resources approved Application for Permit No. 98-07595 which authorized diversion of Mission Creek for domestic, irrigation, and stockwater purposes in the SW $\frac{1}{4}$ SE $\frac{1}{4}$, S18, T64N, R1E, B.M., Boundary County.

A field inspection conducted by a representative of our Department revealed that you have not developed a diversion system using the source of water described by your permit.

The purpose of this letter is to request that you relinquish your permit or explain why the Department should not void the permit. Enclosed is a relinquishment form that should be signed and returned to this office, unless you have some explanation that would prevent the Department from voiding your permit.

If you fail to respond to this notice within thirty (30) days of the date of mailing of this letter, the Department will act to void your permit. The permit will be voided on the grounds that you failed to divert and beneficially use the water that you were permitted to develop.

If you have any questions in regard to this matter, please feel free to contact our office.

Respectfully,

GARY SPACKMAN, Manager
Water Right Permits Section

Dear Mr. Downing:

Dear Permitholder:

We acknowledge receipt of your statement of completion of water development use for the above-referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We do not know at this time when he will be able to conduct the examination; however, the examiner will try to contact you prior to the time the examination is made so that you may demonstrate the system. If you will not be available to show the system, please provide this office with the name and address of someone who will be able to do so. Your permit will remain valid until the examination is made.

If you have any questions concerning the field examination, please contact this office. Please be sure to use the above-referenced permit number in all future correspondence concerning this examination.

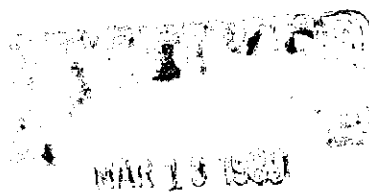

Enclosed is a copy of an order relating to your permit.

Dear Mr. and Mrs. Downing:

Re: Permit No. 98-7595

The department received the proof of beneficial use form submitted to this office on December 1, 1988. Before the department accepts the proof of beneficial use more information is needed.

The first question I have concerns the source of water. Note the enclosed permit. The permit was issued for the diversion from Mission Creek. The proof indicates that the source is a well near Mission Creek. What is the source of water? *A well set in Mission Creek to act as*

reservoir
If the source is Mission Creek, besides the domestic and stockwater use, is there are any irrigation use? If so, how many acres? *40 A*

Third, if the source of the water is Mission Creek, what is the rate of diversion? *GRAVITY flow 4" pipe*

Please provide me with this information within thirty days.

If you have any questions concerning this matter, please feel free to contact me.

LAPSE NOTICE

RE: PERMIT NO. 98-07595

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced water permit has lapsed. This office did not receive either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time. You were provided the proper form in our proof due notice to you dated August 31, 1988.

Your permit cannot be reinstated unless you submit proof of beneficial use or submit an extension of time request showing reasonable cause for delay. Either the completed proof of beneficial use submittal (including the examination fee or a completed field examination report) or the extension request form together with the \$15 fee must be received by this department within sixty days of the date of mailing of this lapse notice or the permit will no longer be of any force or effect.

A proof of beneficial use form and a request for extension of time form are again enclosed for your use. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a governmental agency or by litigation which might bring title to the water in question.

PROOF DUE NOTICE

RE: PERMIT NO. 98-07595

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before November 1, 1988. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.
