1. Measurement Calculations

a) Field Measurement Calculations (Include theoretical capacities and system capacity)

$$\frac{8.8 \times 1.5_{hp} \times 0.8_{eff}}{(2.31 \times 25) + 10} = 0.155 \approx 0.16 \text{ cfs}$$

$$1.5 \text{ ac.} \times 0.03 = 0.045 \approx 0.05 \text{ cfs.}$$

b) Volume Calculations for Irrigation:

$$\begin{aligned} V_{I.R.} &= (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = \underline{1.5 \times 3.0 = 4.5 \text{ AF}} \\ V_{D.R.} &= [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = \underline{15.2} \\ V &= \text{Smaller of } V_{I.R.} \text{ and } V_{D.R.} = \underline{\hspace{2cm}} \end{aligned}$$

CERTIFIED MAIL

EXAMINATION FEE NOTICE

Dear Permit Holder:

Department records show that proof of beneficial use has been submitted for the above-referenced permit, but that a field examination has not yet been conducted to determine the extent of beneficial use of the water for licensing purposes.

House Bill 671 (effective April 4, 1986) enacted by the 1986 Idaho Legislature requires the payment of a fee before this department can conduct the field examination needed to issue a license confirming use of water under the permit. This letter is notification that the license examination fee is due within sixty (60) days of the date of this letter. The examination fee information sheet (enclosed) must be returned with the fee.

As an alternative to submitting the fee, the department will accept a field examination report completed by a certified water right examiner from the private sector. If you choose to have the examination done by a certified water right examiner, you need not submit the license examination fee to the department, but you must within sixty (60) days of the date of this letter return to the department, the examination fee information sheet showing appropriate information together with a statement from the certified examiner to verify that you have retained a certified examiner to conduct the field examination. If you choose this alternative, a completed field examination report must be submitted within one year of the date of this letter. You cannot later change your decision to use this alternative and submit the fee needed for the department to conduct the field examination, but you may change to another certified examiner.

Certified water right examiners are licensed engineers, geologists, or land surveyors certified by the department to conduct water right examinations. The procedure for certifying examiners results from the recently enacted HB 671 and is being developed at this time. A listing

of certified water right examiners will be available from this department when examiners have been certified.

If your permitted use, in fact, has already been examined by the department and you have not asked to have the examination repeated, the fee requirement is not applicable to your permit. If you believe this is the case, please contact the department.

The license examination fee is to be based on the amount of water you indicate you have developed, as listed in item 6 on the examination fee information sheet. The amount of water on which the examination fee is based can be less than the permitted amount, if less water has been diverted and beneficially used. The licensed amount of water, however, will not exceed the amount you claim on the examination fee information sheet. The enclosed license examination fee schedule shows a listing of applicable fees.

FAILURE TO SUBMIT WITHIN THE SIXTY (60) DAY PERIOD, THE FEE OR THE STATEMENT THAT A CERTIFIED EXAMINER HAS BEEN RETAINED TO MAKE THE FIELD EXAMINATION, WILL BE CAUSE TO ADVANCE THE PRIORITY OF THE PERMIT ONE DAY FOR EACH DAY THAT THE FEE SUBMITTAL IS LATE.

FAILURE TO SUBMIT THE FEE OR THE COMPLETED FIELD EXAMINATION REPORT WITHIN A YEAR WILL BE CAUSE TO CONSIDER THE PROOF OF BENEFICIAL USE TO BE INCOMPLETE AND TO LAPSE THE PERMIT.

The attached examination fee information sheet and the fee may be submitted to the following department offices.

Dear Mr. Bunyard:

We are in receipt of your letter of June 28 and your proof of commencement of works postcard. At this time your permit is in good standing with our Department. Late submittal of your commencement of works statement did not jeopardize your right to use water under this permit.

In your letter you stated that you are almost ready to submit proof of beneficial use of water. Enclosed you will find a proof of beneficial use form. We have enclosed this form for your convenience only, in case you wish to submit proof of beneficial use prior to November 1, 1988.

If you have any further questions regarding your water right, please do not hesitate to contact our office.

Dear Mr. Tuthill,

RE: Permit #98-7589

When I received my papers approving the development of my permit into a license, I overlooked the blue card, which is enclosed.

I focused at that time on the deadline for completion of the project, which is 1988. Due to my error I did not submit the blue card within the one year period.

However, I started developing my water system the first summer following the issuance of the permit, and I am now nearly ready to submit proof of beneficial use.

The question is, have I jeopardized my water rights by failing to submit the blue card on time? Is there something I must do now to re-activate my permit?

My system is a small operation, simply to water the grass around our cabin, and to maintain some water in a small pond.

Please let me know what I should do at this point.

The address I have given is the mailing address we maintain during the summer months when we are on the property.

Hoping to hear from you soon,

Sincerely,

Dear Mr. King,

Thank you for returning my application with instructions.

I called the Coeur d'Alene office and talked to a very helpful young man. He advised me as to how the application should be filled out after I described our purposes.

I have enclosed the original application stamped "June 24, 1983", as a reference. The new application (or revised application) does not include the well. The young man I talked with said it was not required to file for well water.

We are on the property now, until Aug. 22. Please send correspondence to:
