Dear Mr. and Mrs. Newcombe:

Re: Permit No. 98-7559

LAPSE NOTICE

The department received your correspondence advising that you no longer own the property to which the above referenced permit is applicable. Since a permit is personal property until it is assigned or until the water right process is completed, the permit is considered by the department to be your property.

Enclosed is an assignment form which when completed and filed with the department will convey the permit to the new owner who then can file the appropriate proof of beneficial use to complete the water right development process. Also enclosed are a proof of beneficial use form, a request for extension of time form and instructions which you hopefully will forward to the new owner.

You are hereby notified that under the provisions of 42-218a, Idaho Code the permit lapsed for failure to timely submit the proof of beneficial use and that within 60 days will be of no further force nor effect. The permit can be reinstated within the 60 day period upon a showing of reasonable cause. Reasonable cause is receipt of the completed assignment form, completed proof form and license examination fee by the department within the next 60 days or an acceptable request for extension of time and fee.

If you have any questions, please feel free to contact this office or our office in Coeur d'Alene (765-4639).

Sincerely,

L. GLEN SAXTON
Chief, Operations Bureau

PROOF DUE NOTICE

RE: Permit No. 98-7559

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before August 1, 1988. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a completed field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this Department on or before the above described proof due date, or the permit will no longer be of any force nor effect.

Sincerely,
