PLACE OF USE: STOCKWATER, same as IRRIGATION use

PLACE OF USE: DOMESTIC, same as IRRIGATION use

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount that can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.

Re: 98-7541

Dear Mr. Dawson:

Dear Permitholder:

We acknowledge receipt of your statement of completion of water development use for the above-referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We do not know at this time when he will be able to conduct the examination; however, the examiner will try to contact you prior to the time the examination is made so that you may demonstrate the system. If you will not be available to show the system, please provide this office with the name and address of someone who will be able to do so. Your permit will remain valid until the examination is made.

If you have any questions concerning the field examination, please contact this office. Please be sure to use the above-referenced permit number in all future correspondence concerning this examination.

Sincerely,

/s/

RE: Permit No. 98-7541

Dear Mr. Dawson:

Enclosed is your Proof of Beneficial Use form received in this office on June 8, 1988 requesting water use at a rate of 30 acre-feet. Please note on the enclosed copy of your application for permit, the maximum amount of water use approved is 0.20 cfs or 90 gpm. In compliance with the statutes, a water right license could not be issued for a rate greater than the permit approval.

Your proof of beneficial use form has been amended by showing 0.20 cfs as the maximum rate of diversion for the permit. A license examination fee is not required to be submitted with the proof if the use is for a single family domestic and/or stockwater use or the total rate of diversion is 0.04 cfs or less. Your permit includes domestic use, stockwater use and irrigation use (45 acres) with a total rate of diversion of 0.20 cfs. Therefore, you are not exempt from the license examination filing fee unless you have developed only a domestic and/or stockwater use or the total rate of flow for all the uses developed is 0.04 cfs or less. The license examination fee based on a rate of flow of 0.20 cfs is \$50.

Upon receipt of your amended proof of beneficial use form and required fee, the department will continue processing the proof by notifying the regional office that a field inspection is needed.

If you have any questions concerning this matter, feel free to contact this office.

Sincerely,

RITA I. FLECK

RE: Permit No. 98-7541

Dear Mr. and Mrs. Dawson:

Enclosed is a request for extension of time form and instruction sheet. Please note a \$15 fee is required to file a request for an extension.

If you plan to develop the irrigation use (45 acres) within 1-3 years, you may wish to file for an extension. If not, you may remit your proof of beneficial use for domestic and stockwater use only. There would be no examination fee for domestic and stockwater use.

Please submit either the request for extension of time and \$15 fee or your proof amended to show domestic and stockwater use only.

If you have any more questions concerning this matter, feel free to contact this office.

Sincerely,

RITA I. FLECK

PROOF DUE NOTICE

RE: Permit No. 98-7541

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before August 1, 1988. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a completed field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this Department on or before the above described proof due date, or the permit will no longer be of any force nor effect.

Sincerely,

RITA FLECK
Secretary/Records Manager

Dear Mr. and Mrs. Dawson:

I have reviewed your Application for Permit and Claim to a Water Right and I notice a discrepancy in the map of the application. You have listed the point of diversion (P/D) in Item No. 3 as being within the NENE, Sec. 32, but the map shows the NENW, Sec. 22. You have not indicated the place of use on the map on either the Application or the Claim.

I am returning your Check No. 92-310 in the amount of \$60.00, your Application for Permit and Claim to a Water Right to allow you to clarify these difficulties. If you have any questions, please contact me at this office.
