PROOF DUE NOTICE

RE: Permit No. 98-7530

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before August 1, 1988. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a completed field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this Department on or before the above described proof due date, or the permit will no longer be of any force nor effect.

Sincerely,

RITA FLECK
Secretary/Records Manager

RE: Permit No. 98-7530

Dear Mr. Knutson,

We are in receipt of your letter dated July 27, 1984, in which you requested a time extension for the commencement of excavation or construction of diverting works with respect to the project identified by the above-referenced permit. According to the condition of approval on your permit, construction was required to start no later than July 15, 1984, one year after the date of approval of the permit.

Section 42-204, Idaho Code, provides the requirement for commencing construction within one year, unless the permit holder is prevented from proceeding due to reasons beyond his control. The documentation that you have provided describes the reasons for your delay in construction. Therefore, at this time the permit will remain in a valid status. However, please be advised that you must continue to proceed diligently toward development of your water system in order to maintain the permit in a valid status.

Please keep this office advised of further progress with respect to your water system, primarily with respect to when you actually begin construction of the diverting works. If you have questions about this matter, please feel free to contact this office or our Northern Regional office in Coeur d'Alene.

Sincerely,

DAVID R. TUTHILL, JR., P.E.

Re: Request for Time extension for Proof of Beneficial
use for Permit Application # 98-7530

To whom it may concern:

The Date we are required to show Proof of Beneficial
use by is Aug 1, 1984. Due to reasons beyond
our control, we can't begin construction before that date.

last year the creek ran all year. On this premise
we planed our water system described in our application.
This year the creek dried up mid-July. We must
redesign our water system to draw up water from
below the surface. This requires additional planing + research,
Time + money. Before the creek dried up we used the
water but the system was completely manuel. it
consisted of one old pickup + many old ~~machines~~

OCT 17 1988

we live on this Property (SW 1/4 SE 1/4 Sect 15 Twn 6B N
R 1E) we will work diligently to develop this water resource
(over)

we are dependant on it + dislike hauling water. However
we can't show beneficial use (in the form of a
water system) before our date of Aug 1. 1984

Sincerely

Kristofer Kye Knutson
