ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 98-7511, and said application is hereby APPROVED

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or before

November 1, 19 88.

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

d. Other: Permit holder shall commence the excavation or construction of diverting works within one year of the date this permit is issued and shall proceed diligently until the project is complete.
Use of water under this permit is subject to all prior water rights.

The rate of diversion for irrigation under this permit shall not exceed 0.50 cfs.
Witness my hand this 10 day of November, 1983.

2 ponds on Bane Creek, which are also spring fed, provide a total of 15.2 acre feet of storage for both irrigation and stockwater. There is no diversion from storage for stockwater; the animals drink directly from the pond. Irrigation water is pumped from pond #1 with a 5 hp pump through a 3 inch mainline to a 3 inch lateral with 9, #30 (5/32" x 3/32") impact sprinklers. Water is released from pond #2 by opening the control valve on pond #2. (see photo). Neither pond has

a real "Dam". The water level is about the same as surrounding ground, and ponds are mostly just excavated holes. Both ponds are spring fed by springs that are submerged when the pond is full and therefore the exact location of these springs is difficult to determine. The 5-acre tract referred to in item C-5 reflects the location where the water exits the ponds and flows down stream.

Re: 98-7511

Dear Mr. Wedel:

Dear Permitholder:

We acknowledge receipt of your statement of completion of water development use for the above-referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We do not know at this time when he will be able to conduct the examination; however, the examiner will try to contact you prior to the time the examination is made so that you may demonstrate the system. If you will not be available to show the system, please provide this office with the name and address of someone who will be able to do so. Your permit will remain valid until the examination is made.

If you have any questions concerning the field examination, please contact this office. Please be sure to use the above-referenced permit number in all future correspondence concerning this examination.

Sincerely,

/s/

Re: Permit No. 98-7511

Dear Mr. Wedel:

Returned is your check no. 249 (92-310/1231) in the amount of \$50 received in this office November 28, 1988. Your proof of beneficial use is enclosed which states the total rate for which proof is submitted as 0.50 cfs and/or 16 acre-feet.

Please note the enclosed instruction sheet which lists the license examination fee, which is based on the maximum rate of flow of 0.50 cfs, as \$100.

Please remit the licensing examination fee and proof of beneficial use as soon as possible, since an acceptable proof was due November 1, 1988.

If you have any questions concerning this matter, feel free to contact this office.

Sincerely,

LAPSE NOTICE

RE: PERMIT NO. 98-07511

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced water permit has lapsed. This office did not receive either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time. You were provided the proper form in our proof due notice to you dated August 31, 1988.

Your permit cannot be reinstated unless you submit proof of beneficial use or submit an extension of time request showing reasonable cause for delay. Either the completed proof of beneficial use submittal (including the examination fee or a completed field examination report) or the extension request form together with the \$15 fee must be received by this department within sixty days of the date of mailing of this lapse notice or the permit will no longer be of any force or effect.

A proof of beneficial use form and a request for extension of time form are again enclosed for your use. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a governmental agency or by litigation which might bring title to the water in question.

PROOF DUE NOTICE

RE: PERMIT NO. 98-07511

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before November 1, 1988. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

Star Rt. 3, Box 60
Bonners Ferry, ID 83805

Dear Mr. Wedel:

Enclosed is a copy of your approved Application for Permit. We direct your attention to the conditions of approval on the fourth page.

The 1982 Idaho Legislature added a requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The enclosed blue card must be completed and returned to this office as soon as you commence construction, no later than one year from the date the permit was approved.

We have enclosed instructions entitled "Making Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a license.

RE: 98-7511

Dear Mr. Wedel:

Enclosed is a copy of a protest filed against the approval of a permit pursuant to the above-referenced application. The Department suggests you contact the protestants directly in an effort to determine the nature of the protest and attempt to resolve the protest.

If you do not advise us within twenty (20) days that the protest has been resolved, the matter will be scheduled for conference and/or hearing. At such a conference and/or hearing, the following are the principle items the Department can consider in either approving or denying the application for permit (Section 42-203, IDAHO CODE):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?
5. Will the proposed use conflict with the local public interest?

You will be notified at a later date of the time and place of the conference and/or hearing. If we can be of any assistance, please contact us.

Sincerely,

ROBERT G. HAYNES, P.E.

RE: 98-7511

Dear Mr. Plato:

Your protest against the approval of the above-referenced application has been received and a copy has been sent to the applicant. The Department suggests that you contact the applicant directly in an effort to determine what is proposed by the application and to attempt to resolve the protest.

If you do not advise us within twenty (20) days that the protest has been resolved, the matter will be scheduled for conference and/or hearings. At such a conference and/or hearings, the following are the principle items the Department can consider in either approving or denying the application for permit (Section 42-203, IDAHO CODE):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purpose intended?
3. Is the application made in good faith or for delay or speculation?
4. Has the applicant sufficient financial resources with which to complete the project?
5. Will the proposed use conflict with the local public interest?

You will be notified at a later date of the time and place of the conference and/or hearings. If we can be of any assistance, please contact us.

Sincerely,

ROBERT G. HAYNES, P.E.
Regional Supervisor

Dear Mr. Dunn:

Subject: Water right application #98-7511, Harold Wedel

We hereby file a protest against the granting of water right #98-7511.

We presently have an approved and existing water right on Bane Creek. This water is used for irrigating our nursery where water is a critical factor.

We protest the granting of this water right because Bane Creek doesn't have the capacity to run 2.60 CFS as requested in the above application. If granted, it would eliminate our source of irrigation water, and hence, our nursery.

Sincerely,

Leland Plato
