WATER RIGHT LICENSE

WATER RIGHT NO. 98-07486

Priority: May 26, 1983

Maximum Diversion Rate:
Maximum Diversion Volume:¹

0.02 CFS
0.6 AF

This is to certify, that ANNE REMALEY
PO BOX 1138

BONNERS FERRY ID 83805 has complied with the terms and conditions
of the permit, issued pursuant to Application for Permit dated March 28, 1983; and
has submitted Proof of Beneficial Use on August 8, 1988. An examination indicates
that the works have a diversion capacity of .040 cfs of water from a **GROUNDWATER**
source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
DOMESTIC	01/01 to 12/31	0.02 CFS	0.6 AF

LOCATION OF POINT(S) OF DIVERSION: SENE, Sec. 23, Township 60N, Range 01W
BOUNDARY County

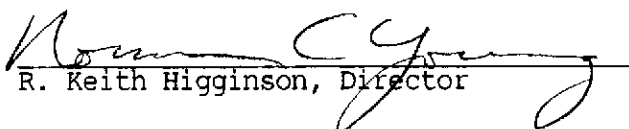

PLACE OF USE: DOMESTIC
TWN RGE SEC

60N 01W 23 SENE

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Domestic use is for 1 home.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code.
Witness the seal and signature of the Director, affixed at Boise, this 1st
day of NOVEMBER, 1991.

R. Keith Higginson, Director

BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE STATE OF IDAHO

IN THE MATTER OF PERMIT NO. 98-7486 IN THE)
NAME OF ANNE REMALEY) ORDER OF REINSTATEMENT
_____)

WHEREAS, the Department issued the above-captioned permit with the condition that proof of construction of works and application of water to beneficial use (proof of beneficial use) be submitted on or before May 1, 1988; and,

WHEREAS, the Department notified the permit holder by certified mail that proof was due and instructed the permit holder of the steps to be taken to submit the proof of beneficial use; and,

WHEREAS, the Department notified the permit holder that the permit lapsed for failure of the permit holder to submit the proof of beneficial use; and,

WHEREAS, Section 42-218a of the Idaho Code provides that a permit may be reinstated upon a showing of reasonable cause within sixty days of the date of the notice of lapsing; and,

WHEREAS, the permit holder has provided a reasonable showing why the permit should be reinstated by submitting proof of beneficial use on August 8, 1988;

IT IS, THEREFORE, HEREBY ORDERED that Permit No. 98-7486 be REINSTATED and the priority advanced to May 26, 1983.

Dated this 13th day of October, 1988.

APPROVED

To appropriate the public waters of the State of Idaho

1. Name of applicant ANNE REMALEY Phone 267-5637

Post office address BOX 1138 BONNERS FERRY ID 83805

2. Source of water supply GROUND WATER which is a tributary of _____

3. Location of point of diversion is SE $\frac{1}{4}$ of NE $\frac{1}{4}$ of Section 23 Township 60N

Range 1W B.M. BOUNDARY County, additional points of diversion if any: _____

4. Water will be used for the following purposes:

Amount .02 for DOMESTIC purposes from 1/1 to 12/31 (both dates inclusive)
(cfs or acre-feet per annum)

Amount .04 for STOCKWATER purposes from 1/1 to 12/31 (both dates inclusive)
(cfs or acre-feet per annum)

Amount .06 for IRRIGATION purposes from 3/31 to 11/1 (both dates inclusive)
(cfs or acre-feet per annum)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)

5. Total quantity to be appropriated:

a. .12 cubic feet per second and/or b. _____ acre-feet per annum.

6. Proposed diverting works:

a. Description of ditches, flumes, pumps, headgates, etc. PUMP, PIPE, WELL

b. Height of storage dam _____ feet, active reservoir capacity _____ acre-feet; total reservoir capacity _____ acre-feet, materials used in storage dam: _____

Period of year when water will be diverted to storage _____ to _____ inclusive.
(Month/Day) (Month/Day)

c. Proposed well diameter is 48 inches; proposed depth of well is 20 feet.

7. Time required for the completion of the works and application of the water to the proposed beneficial use is 5 years (minimum 1 year — maximum 5 years).

8. Description of proposed uses:

a. If water is not for irrigation:

(1) Give the place of use of water: SE $\frac{1}{4}$ of NE $\frac{1}{4}$ of Section 23 Township 60N

Range 1W B.M.

(2) Amount of power to be generated: _____ horsepower under _____ feet of head.

(3) List number of each kind of livestock to be watered 100 ASSORTED

(4) Name of municipality to be served _____, or number of families to be supplied with domestic water 1.

(5) If water is to be used for other purposes describe: _____

RECORDED

b. If water is for irrigation, indicate acreage in each subdivision in the tabulation below:

[illegible]

Total number of acres to be irrigated **3**

c. Describe any other water rights used for the same purposes as described above.

9. a. Who owns the property at the point of diversion APPLICANT

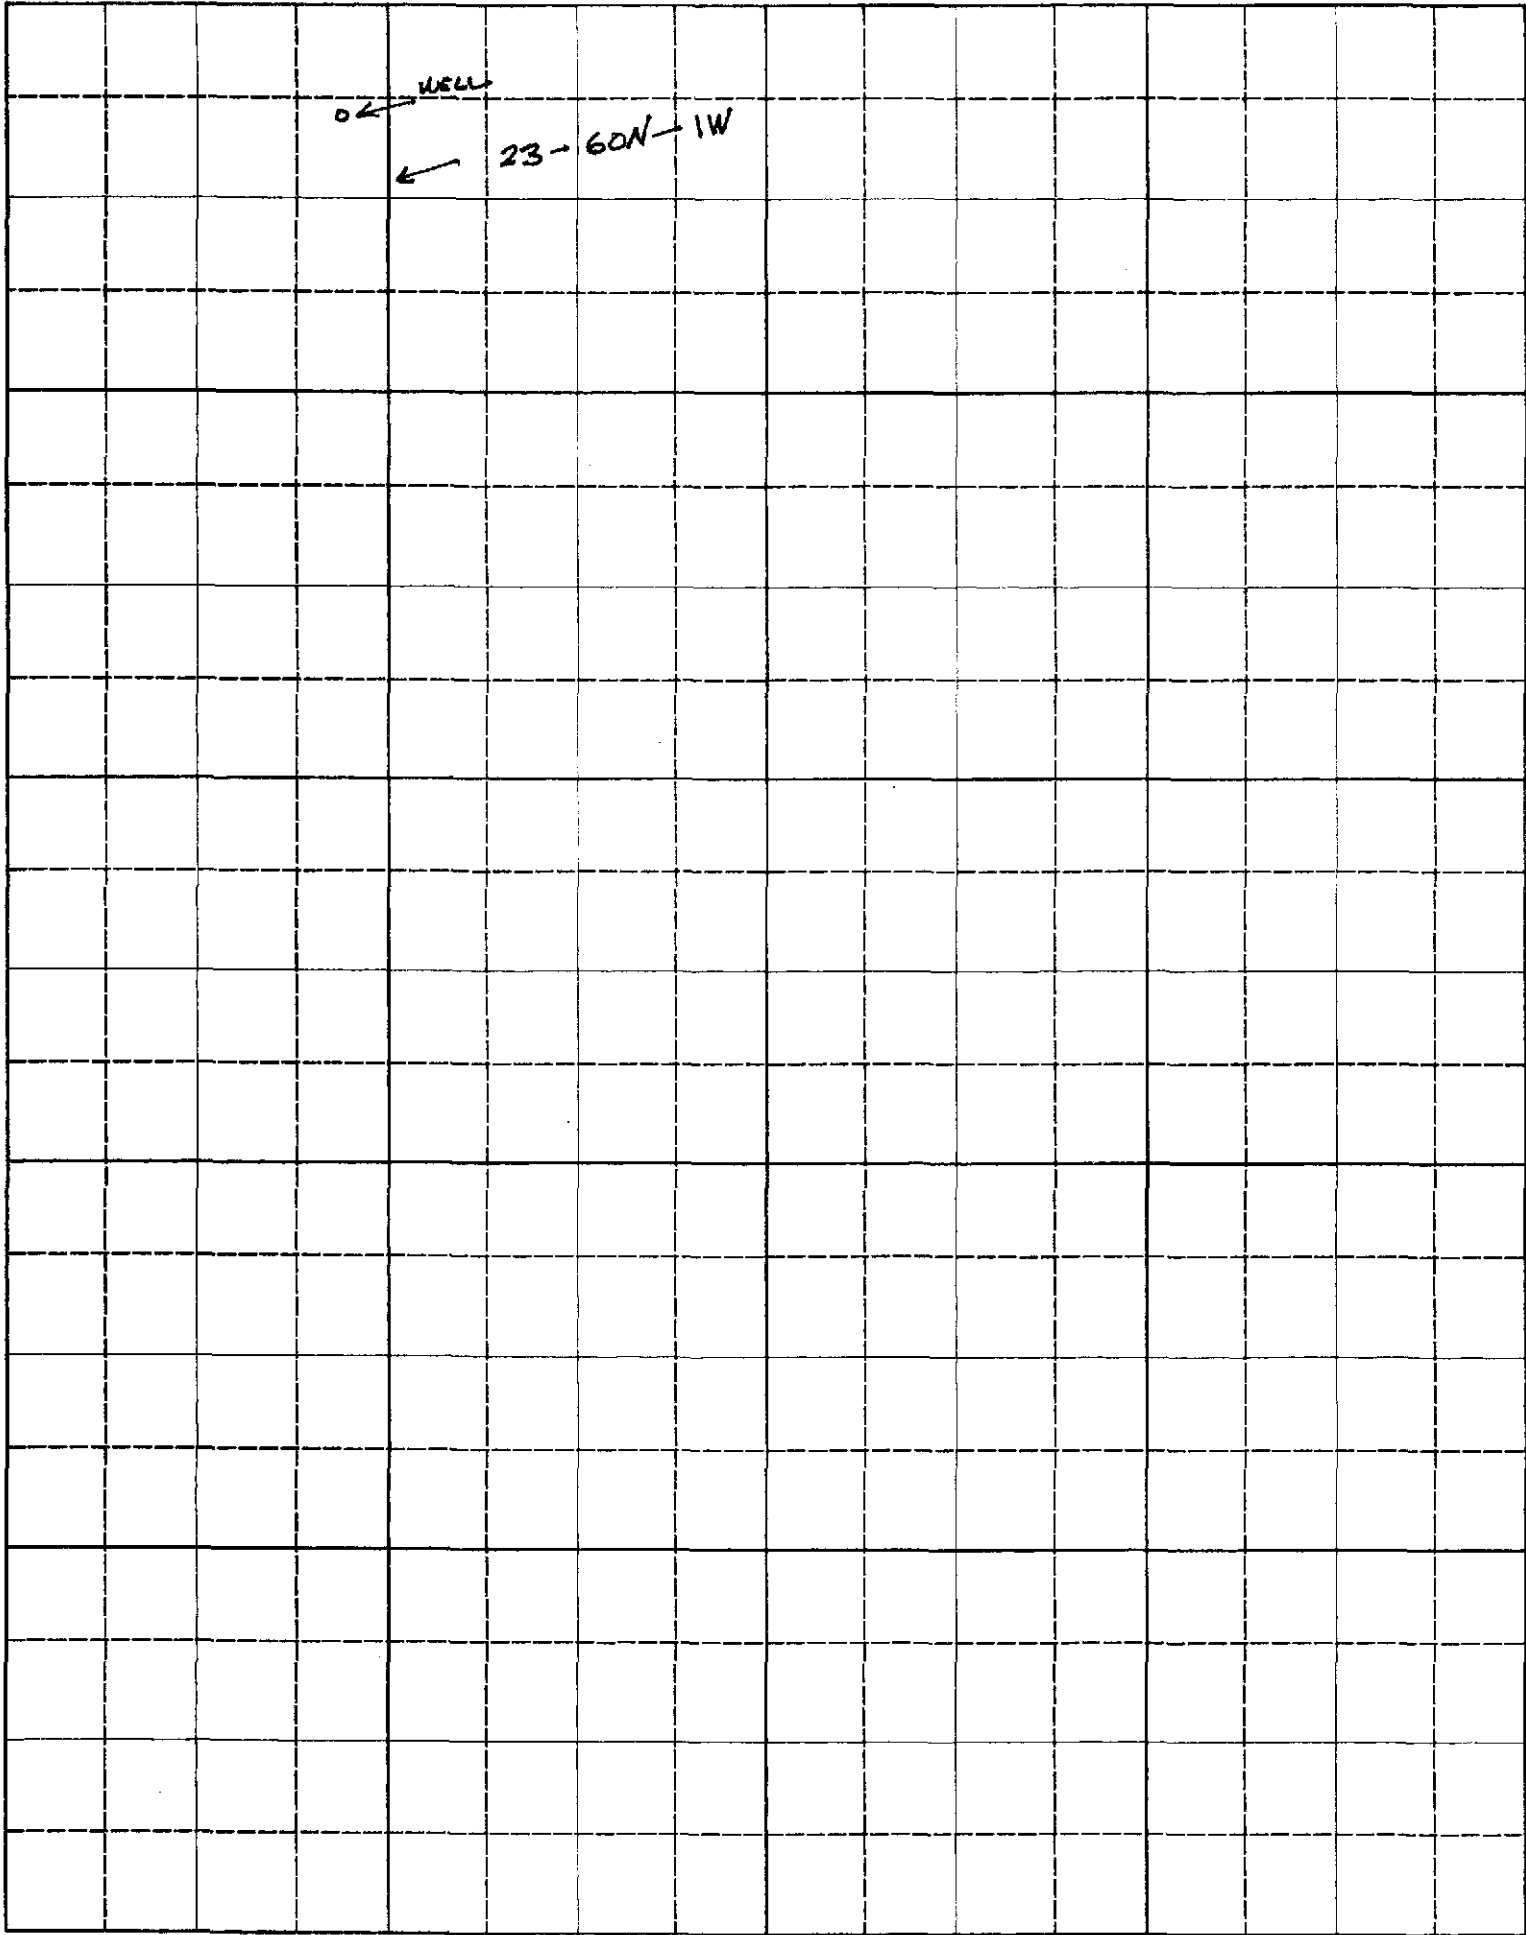

b. Who owns the land to be irrigated or place of use **APPLICANT**

c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 98-7486, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

- a. SUBJECT TO ALL PRIOR WATER RIGHTS.
- b. Proof of construction of works and application of water to beneficial use shall be submitted on or before May 1, 1988.
- c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.
- d. Other: Permit holder shall commence the excavation or construction of diverting works within one year of the date this permit is issued and shall proceed diligently until the project is complete.

Witness my hand this 16th day of May, 1983.

RE: WATER RIGHT NO. 98-07486

Dear Water Right Holder(s):

Enclosed herewith is a copy of the Water Right License issued on the above referenced permit.

We have a letter from you in the file concerning ownership of the property. Unfortunately, I found this letter after the license was signed. However, a license is considered real property and is appurtenant to the land. Therefore, we do not necessarily try to keep up with the chain of ownership once a license is issued.

If you have any questions, let me know.

Sincerely,

SHARLA CURTIS
Water Resource Agent

COEUR D'ALENE, ID. 83814

Dear Sirs:

Since application for water rights was made by Anne Lemaley, the property involved is now owned by Carrick Lemaley. For this reason we would ask that the water rights on this property be in the name Carrick L. Lemaley.

Thank you,
Carrick L. Lemaley

Re: 98-7486

Dear Permitholder:

We acknowledge receipt of your statement of completion of water development use for the above-referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We do not know at this time when he will be able to conduct the examination; however, the examiner will try to contact you at the time he makes the examination so that you may show him the system. If you will not be available to show the system, please provide this office with the name and address of someone who will be able to do so. Your permit will remain valid until the examination is made.

If you have any questions concerning the field examination, please contact this office. Please be sure to use the above-referenced permit number in all future correspondence concerning this examination.

Sincerely,

/s/
TOM D. KING
Senior Water Resource Agent

MEMORANDUM

To: File 98-7486
From: L. Glen Saxton *LS*
RE: REINSTATEMENT
Date: October 07, 1988

The timely submittal of proof in connection with the above referenced permit was slowed down by correspondence in connection with the proof submittal procedure. More specifically, The May 7, 1988 letter of inquiry sent by the permit holder was received on March 11, 1988 and was responded to on March 21, 1988 (10 day turn around).

A second letter of inquiry from the permit holder was received on July 22, 1988 and was responded to on July 27, 1988 (5 day turn around). Once the permit holder received sufficient information, the proof was timely filed.

The lapse notice was sent on May 26, 1988. The proof was received on August 8, 1988. Considering the 15-day turn around described above, the proof should be considered as being filed within the required 60-day period after the lapse notice was sent. i.e.

Lapse notice sent: May 26, 1988	146th day
	+ 60
	+ 15
	221st day

The 221st day of the year is August 9, 1988. The required proof was submitted on August 8, 1988.

The permit should be reinstated with an advance in priority of approximately 59 days.

Mr. L. Glen Saxon
Chief, Operations Bureau
State of Idaho
Department of Water Resources
State Mailhouse
Boise, Id. 83720

Dear Mr. Saxon:

Thank you very much for the information regarding water rights. When I first began a diversion project, it was my intent to irrigate a three acre field and/or possibly raise livestock for commercial purposes. However, the water flow from my well is so poor that this has proved to be impossible. (The estimate of .12 cfs was made by the person issuing permits who had never been on my property.) Therefore, I am claiming water rights to cover domestic use only.

Thanks again for all the information. Your letter greatly clarified the whole situation for me and was much appreciated.

Sincerely,

Anne Remaley

RE: PERMIT 98-7486

Dear Ms. Remaley:

The department has received your letter dated July 15 which states you did not receive a response to your prior letter of inquiry dated March 7, 1988 and seeks information on how to file the required proof. Enclosed is a copy of the department correspondence sent to you on March 21, 1988 in response to your previous letter. It is possible the letter was lost in the mail or for whatever reason did not reach you.

In summary to the questions you have asked:

1. The postcard you submitted in March 1984, was a Commencement of Works card, not the required Proof of Beneficial Use (proof). Enclosed is a photo copy of the card you previously submitted.

2. Subsequent to the issuance of your permit, the legislature amended certain water right statutes which require a license examination fee to be submitted with the proof of beneficial use. As an alternative to submitting the license examination fee to the department, you can submit only the proof and then hire a non-department certified water right examiner to conduct the examination for you. You then would have to pay that examiner the fee he charges you. Most people choose to submit the license examination fee with the proof to the department who will then conduct the examination with no additional examination fee charges. Enclosed is a current list of non-department certified water right examiners in case you choose to have the exam conducted by a non-department examiner.

3. A license examination fee is not required to be submitted with the proof if the use is for single family domestic and/or stockwater use or the total rate of diversion is 0.04 cfs or less. Your permit includes domestic use, stockwater use and irrigation use (3 acres) with a total rate of diversion of 0.12 cfs. Therefore you are not exempt from the license examination filing fee unless you have developed only a domestic and/or stockwater use or the total rate of flow for all the uses developed is 0.04 cfs or less. The license examination fee based on a rate of flow of 0.12 cfs is \$50. This is a one time fee only.

Anne Remaley

-2-

July 27, 1988

4. Domestic use includes the irrigation of up to 1/2 acre in connection with a household. Irrigation which is not in connection with a household or is in excess of 1/2 acre should be described as an irrigation use.

5. 0.02 cfs = 9 gallons per minute. This is about the amount a garden hose will flow. The rate of flow can be checked a number of ways including the time to fill a container of a known size such as a 5 gallon bucket.

Since the permit has lapsed for failure to timely submit the proof of beneficial use and can only be reinstated upon a showing of reasonable cause, I suggest you submit the required proof of beneficial use and license examination fee (if applicable) to the department as quickly as possible. Also enclosed is another proof of beneficial use form.

If you have questions, please feel free to call my direct number which is 334-7955.

Sincerely,

L. GLEN SAXTON
Chief, Operations Bureau

State of Idaho
Department of Water Resources
Statehouse
Boise, Idaho 83720

RECEIVED
JUL 22 1988

To Whom It May Concern:

Department of Water Resources

On 3/25/83 I applied for water rights on my property. According to the "Instructions for Proof of Beneficial Use" document I received proof of beneficial use was to be provided by:

- a) mailing a blue card to your office (sent 3/26/84)
- b) a subsequent field exam by the Department of Water Resources

Nothing in this document stated that I was responsible for contacting a field inspector. In fact, the document states that, "In order for a permit holder to fulfill the conditions of the permit and obtain a water license, he must submit the Statement of Beneficial Use postcard on or before the date set forth in this permit." (May 1, 1988) "After the Department has completed an examination of your Statement of Beneficial Use, a field examiner will personally inspect your water delivery system to determine the extent of beneficial use."

Since I submitted the postcard on 3/26/84, I felt that I had fulfilled my obligations for transferring the permit to a license, according to the above statement.

This week I received a letter from your Department stating that I must fill out a second Proof of Beneficial Use form and accompany this paper with a licensing fee or contact a certified water right examiner to inspect my water system.

I find these directions to be contradictory to those I received with my permit in May of 1983. The above statement simply says: fill out the postcard, we will inspect your water system, and you will be licensed if you have complied with the terms of the permit.

* QUESTION: Am I misinterpreting the directions I received in May, 1983? If so, please explain.

In addition, I find the new directive to be obscure. For example, where does a person who lives in Bonners Ferry, Idaho go to find a water inspector? There are none listed in the phone book under city, county, state governments. Your first letter indicated that it had to be someone from the Department of Water Resources; the second one implies that it can be any "certified examiner."

*QUESTION: Does the inspector need to be from the Department; if so, it would be helpful for you to provide us with a list of names, addresses and phone numbers of persons we may contact, since none are listed in the phone book.

MICROFILMED

DEC 27 1988

I also have interpreted the new directions received this week as follows:

If a person uses their water system for domestic and livestock purposes only, they do not need to pay a fee nor do they need to have an inspector examine their water system in order to qualify for a license.

QUESTION: Is this interpretation correct?

If a person has a volume flow of only .02 cfs, they do not pay a fee or need to contact an inspector no matter what their water useages are, in order to qualify for a license.

QUESTION: Is this correct?

QUESTION: Please provide a definition of what constitutes irrigation. Is watering a family garden irrigation? Is there a specific amount of land which must be watered in order to classify said watering as irrigation?

I would appreciate an answer to my inquiries as soon as possible so that I may comply with the procedures for receiving a water use license. Thank you for your assistance.

Sincerely,

Anne L. Remaley
Box 1138

LAPSE NOTICE

RE: Permit No. 98-7486

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218a, Idaho Code, the above referenced water permit has lapsed. This office did not receive either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time. You were provided the proper forms in our proof due notice to you dated February 28, 1988.

Your permit cannot be reinstated unless you submit proof of beneficial use or submit an extension of time request showing reasonable cause for delay. Either the completed proof of beneficial use submittal (including the examination fee or a completed field examination report) or the extension request form together with the \$15 fee must be received by this Department within sixty days of the date of mailing of this lapse notice.

A proof of beneficial use form and a request for extension of time form are again enclosed for your use. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a governmental agency or by litigation which might bring title to the water in question.

Sincerely,

L. GLEN SAXTON
Chief, Operations Bureau

March 21, 1988

Anne Remaley
P. O. Box 1138
Bonners Ferry, ID 83805

Dear Ms. Remaley:

Re: Permit No. 98-7486

This office acknowledges receipt of your letter requesting an explanation concerning your permit and our processing procedures. I did some research and have some answers for you.

First, let me explain that at the time an application for permit is received, it is assumed that this is a proposed project to divert water, whether the project be a simple domestic use or a complex multi-use project. Second, when the application is approved, it is considered a permit. It is at this point that the permit holder has the "okay" to construct the project. Also at this point, there may be second conditions added to the permit. If you will note the last page of your permit, you will see under Action of the Director several limitations and conditions.

Note that 1.b. requests that proof be submitted on or before May 1, 1988 and 1.d. states that the permit holder must commence the excavation or construction of diverting works within one year of the issuance of this permit. The blue card, a commencement of works postcard, you submitted in March of 1984, fulfilled this second requirement. The first condition requires still remains to be fulfilled. That is why you received the notice since we are required by law to allow sixty notice that proof is due.

At the time the department sent you your approved permit, the format for submitting proof of beneficial use form was a postcard. No longer. The department has since modified the form several times.

In addition to the new form for submitting proof, the 1986 legislature authorized the department to charge a fee for conducting field examinations reports. The fee charged is based on actual or estimated rate of diversion. The other option to paying the fee is to hire a

MICROFILMED

DEC 27 1988

certified water right examiner. These examiners are appointed by the state upon requests by qualified applicants. Enclosed is a copy of the list of certified examiners. Note, however, that this is a year to year process and each person must again ask for renewal. Soon, the term will expire and the list may become invalid.

In answer to your question concerning no fee for domestic and stockwater and what constitutes irrigation. The law states that domestic use from either a well or surface water, is one single family household with up to one-half acre of irrigation and household stockwater where daily use does not exceed 13,000 gallons. Irrigation is the diversion and use of water on more than one-half acre.

For a diversion of water up to 0.04 cfs for any use, the department does not charge a fee. This would include any irrigation provided the total diversion rate does not exceed 0.04 cfs. A field examination is necessary for licensing purposes. This "no fee" charge is only for field exams completed by department personnel. If you should decide to hire a certified water right examiner (non-department personnel), then he is able to charge.

For your information, 0.04 cfs equals about 18 gallons per minute. The fee for acre feet amounts refer to water rights which include storage.

Hopefully, from this explanation, you tell see that the proof submittal is necessary for the next step in the application/permit/licensing of this water right. Be sure to submit the proof and fee or the proof and field report conducted by a certified water right examiner by May 1, 1988 to keep this permit in good standing.

If you have any more questions, please feel free to contact me.

Sincerely,

RITA I. FLECK
Secretary/Records Manager

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

INSTRUCTIONS FOR PROOF OF BENEFICIAL USE

HOW TO MAKE PROOF:

In order for a permit holder to fulfill the conditions of the permit and obtain a water license, he must submit the Statement of Beneficial Use postcard on or before the date set forth in his permit. Each permit holder will be notified sixty (60) days prior to the date set for such proof. In order for the proof to be valid, it must be received by the Department on or before that date. It is very important that you complete the postcard completely and accurately. The information that you provide will enable the Department to make a field examination which is necessary before the license can be issued. The information you enter on the card should be an indication of the actual development of your project. This development must also correspond to that described by the permit. If it does not and changes in your project have been made, you should apply to amend your permit to include the actual development. Application for Amendment forms are available from the Department of Water Resources upon request.

WHAT TO DO IN CASE YOU HAVE NOT FULLY APPLIED THE WATER TO BENEFICIAL USE:

If you have not been able to complete the water use project described in your permit within the time allowed, due to reasons beyond your control, you may apply to the Department for an extension of time. In order for an application for extension of time to be considered without loss of priority, it must be filed prior to the date on which proof of beneficial use is due. Each application for extension of time is considered on its own merits.

WHAT TO DO IF YOU FAIL TO MAKE PROOF OF BENEFICIAL USE ON TIME:

If you have applied the water to beneficial use, but do not submit the statement of beneficial use on or before the date set for such proof the permit will lapse. You may petition the Department within sixty (60) days from the date that a notice of lapsing is sent to you to reinstate your permit. In order for the Department to reinstate a permit, you must show reasonable cause why such permit should be reinstated. Submission of an acceptable Statement of Beneficial Use postcard within sixty (60) days will be considered by the Department as cause for reinstatement. The priority of all reinstated permits will be advanced in time a number of days equal to the number of days that such showing is subsequent to the date set for proof. After sixty (60) days, there is normally no way in which the Department can reinstate a permit.

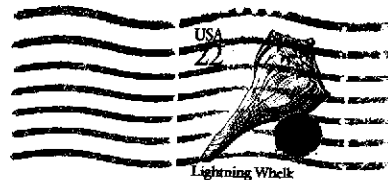

ISSUANCE OF LICENSE:

X After the Department has completed an examination of your Statement of Beneficial Use, a field examiner will personally inspect your water delivery system to determine the extent of beneficial use. If you have complied with the terms of the permit, the Department will issue a water license. The license becomes prima facie evidence of a water right. The license will include the rate of diversion measured, the total annual volume of water which may be diverted, the period of the year during which the water may be used, the nature of use to which the water has been applied, the priority established, the location of the point of diversion, the place of use, and any conditions of the water right.

PROOF DUE NOTICE

RE: Permit No. 98-7486

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before May 1, 1988. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a completed field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this Department on or before the above described proof due date, or the permit will no longer be of any force nor effect.

Sincerely,

RITA FLECK
Secretary/Records Manager

DEAR PERMIT HOLDER:

ENCLOSED IS A COPY OF YOUR APPROVED APPLICATION FOR PERMIT. WE DIRECT YOUR ATTENTION TO THE CONDITIONS OF APPROVAL ON THE FOURTH PAGE.

THE 1982 IDAHO LEGISLATURE ADDED A REQUIREMENT THAT AS A PERMIT HOLDER YOU MUST COMMENCE THE EXCAVATION OR CONSTRUCTION OF DIVERTING WORKS WITHIN ONE YEAR OF THE DATE THE PERMIT WAS ISSUED, AND YOU MUST PROCEED DILIGENTLY UNTIL THE PROJECT IS COMPLETED. THE ENCLOSED BLUE CARD MUST BE COMPLETED AND RETURNED TO THIS OFFICE AS SOON AS YOU COMMENCE CONSTRUCTION, NO LATER THAN ONE YEAR FROM THE DATE THE PERMIT WAS APPROVED.

WE HAVE ENCLOSED INSTRUCTIONS ENTITLED "MAKING PROOF OF BENEFICIAL USE". PLEASE READ THE INSTRUCTIONS CAREFULLY SINCE YOU MUST TAKE FURTHER ACTION TO DEVELOP THIS PERMIT INTO A LICENSE.

SINCERELY,

DAVID R. TUTHILL, JR., P.E.
SUPERVISOR, WATER ALLOCATION SECTION
