TO: File 98-7447
FROM: Sharla
DATE: September 6, 1990
RE: License Issuance

When reviewing the incoming amendment application prior to the printing of a final license, I discovered several discrepancies in the field report.

The report lists the point of diversion as the SW $\frac{1}{4}$ NE $\frac{1}{4}$, S35 and the place of use as the NE $\frac{1}{4}$ SW $\frac{1}{4}$, S35. The attached map depicts the point of diversion within the NE $\frac{1}{4}$ NE $\frac{1}{4}$ and the place of use within the SW $\frac{1}{4}$ NE $\frac{1}{4}$, S35.

The examiner states on the back of the field report that this permit has the same point of diversion as Right 98-7446 (SW $\frac{1}{4}$ NE $\frac{1}{4}$, S35). Therefore, the license will be issued with this description for the point of diversion and place of use.

Dear Mrs. LoPorto:

We recently corresponded with Sam LoPorto concerning an amendment of the above referenced permit. Mr. LoPorto supplied us with a copy of a previously approved amendment for the permit and felt that further amendment was not necessary.

Please be advised that the amendment approved in 1983 located the point of diversion within the NE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 35, T65N, R2E. However, when our field examiner conducted the inspection of your water delivery system, he found the actual point of diversion located within the SW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 35. It is for this reason we are requesting an amendment.

Enclosed is another amendment form for your use in this matter, in case the first one was misplaced. Please sign the amendment and return with the \$20.00 filing fee within 30 days. If we do not receive the amendment within that period, we will commence proceedings to void the permit.

If you have any questions, please feel free to contact us.

Dear Mr. LoPorto:

We have received your note explaining the reason why you believe an amendment and fee should not be required prior to license issuance on the above referenced permit. You also submitted a copy of the receipt showing that an amendment had been previously submitted.

The original of the amendment approved back in 1983 was evidently sent to you by accident and we failed to maintain a copy for our records. Therefore, we would appreciate it if you could send us a copy of that amendment for our files. Upon receipt of the amendment copy, we will be able to determine if another amendment is in fact required.

Thank you for your help in this matter and we apologize for any inconvenience this may have caused.

Dear Ms. :

We acknowledge receipt of your statement of completion of water development use for the above-referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We do not know at this time when he will be able to conduct the examination; however, the examiner will try to contact you at the time he makes the examination so that you may show him the system. If you will not be available to show the system, please provide this office with the name and address of someone who will be able to do so. Your permit will remain valid until the examination is made.

If you have any questions concerning the field examination, please contact this office. Please be sure to use the above-referenced permit number in all future correspondence concerning this examination.

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218a, Idaho Code, the above referenced water permit has lapsed. This office did not receive either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time. Either the completed proof of beneficial use submittal (including the examination fee or a completed field examination report) or the extension request form together with the \$15 fee must be received by this Department within sixty days of the date of mailing of this lapse notice.

A proof of beneficial use form and a request for extension of time form are again enclosed for your use.
