PROOF DUE NOTICE

RE: Permit No. 98-7437

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before December 1, 1987. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a completed field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this Department on or before the above described proof due date, or the permit will no longer be of any force nor effect.

Sincerely,

RITA FLECK
Secretary/Records Manager

Dear Mr. Paulson:

We are returning your Check No. 92-310 in the amount of \$45.00 and your two applications for Permit. Some of the necessary information was not included originally so I have taken the liberty of including that information on the two applications.

On the application for the pond, I have added under Item No. 4, 1.2 AF for Storage for Stock, Fire Protection and Irrigation. Under Item No. 5a, I have added 0.20 cfs Total and under No. 5b, 1.2 AF. Under Item No. 8c, I have added the application for groundwater as other rights.

On the application for groundwater, I have added under Item No. 3, "Two points" to cover both wells. Under Item No. 4, I have changed the domestic rate from gpm to cfs, and separated the irrigation from the stockwater. In Item No. 5a, I have totaled the rates of diversion. In Item No. 6a, I have included a vague description of the diverting works. In Item No. 8a4, I have listed one house. In Item No. 8c, I have listed the application for the surface water impoundment. On the groundwater application, I have attached a new second sheet with Item No. 11. This sheet must be signed, since this Department cannot accept a mimeographed signature.

Please check both applications carefully, sign the groundwater application and return them to this Department with a \$60.00 Filing fee.

If you have any questions, please contact me at this office.
