CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Two points of diversion located within the SWSE, S6, T62N, R2E.

IN THE MATTER OF PERMIT NO. 98-7436 IN THE
NAME OF KEITH J. AND JOANN C. BARNHART

ORDER OF REINSTATEMENT

WHEREAS, the Department issued the above-captioned permit with the condition that proof of construction of works and application of water to beneficial use (proof of beneficial use) be submitted on or before December 1, 1987; and,

WHEREAS, the Department notified the permit holders by certified mail that proof was due and instructed the permit holders as to the steps to be taken to make said proof; and,

WHEREAS, the permit lapsed for failure of the permit holders to submit proof of beneficial use; and,

WHEREAS, on December 21, 1987, the permit holders assigned all right, title, and interest in Permit No. 98-7436 to Keith J. & JoAnn C. Barnhart; and,

WHEREAS, Section 42-218a of the Idaho Code provides that a permit may be reinstated upon a showing of reasonable cause; and,

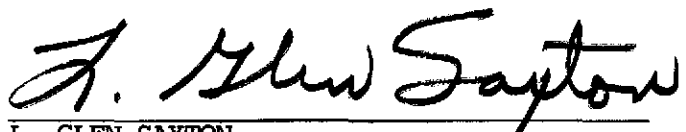

WHEREAS, the permit holders have provided a reasonable showing as to why said permit should be reinstated by submitting proof of beneficial use on December 21, 1987;

IT IS, THEREFORE, HEREBY ORDERED that Permit No. 98-7436 be REINSTATED and the priority advanced to November 2, 1982.

Dear Permit Holder:

We acknowledge receipt of your statement submitted as proof of beneficial use for the above referenced permit.

Before a Water Right License can be issued, a field examination must be made by a representative of this department.

A field examiner will contact you to arrange to examine your system.

If you have any questions regarding the field examination, please contact this office by phone or in person.

Dear Mr. and Mrs. Barnhart:

Re: Permit Nos. 98-7436 and 98-7437

This office acknowledges receipt of the assignment conveying the above referenced permits to you. The assignment has entered into the department's records. Enclosed is a copy of the permits for your records.

This office also acknowledges receipt of the proof of beneficial use form submitted for each permit. Enclosed is a copy of each of the orders reinstating the permit.

The next step is for a department representative to conduct a field inspection to determine the extent of use and make a recommendation for a water right license. I cannot tell just when this examination will be conducted, but the field examiner will try to contact prior to scheduling the inspection.

If you have any questions concerning this matter, please feel free to contact this office.

PROOF DUE NOTICE

RE: Permit No. 98-7436

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before December 1, 1987. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a completed field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this Department on or before the above described proof due date, or the permit will no longer be of any force nor effect.

Sincerely,

RITA FLECK

Dear Mr. Paulson:

We are returning your Check No. 92-310 in the amount of \$45.00 and your two applications for Permit. Some of the necessary information was not included originally so I have taken the liberty of including that information on the two applications.

On the application for the pond, I have added under Item No. 4, 1.2 AF for Storage for Stock, Fire Protection and Irrigation. Under Item No. 5a, I have added 0.20 cfs Total and under No. 5b, 1.2 AF. Under Item No. 8c, I have added the application for groundwater as other rights.

On the application for groundwater, I have added under Item No. 3, "Two points" to cover both wells. Under Item No. 4, I have changed the domestic rate from gpm to cfs, and separated the irrigation from the stockwater. In Item No. 5a, I have totaled the rates of diversion. In Item No. 6a, I have included a vague description of the diverting works. In Item No. 8a4, I have listed one house. In Item No. 8c, I have listed the application for the surface water impoundment. On the groundwater application, I have attached a new second sheet with Item No. 11. This sheet must be signed, since this Department cannot accept a mimeographed signature.

Please check both applications carefully, sign the groundwater application and return them to this Department with a \$60.00 Filing fee.

If you have any questions, please contact me at this office.
