Dear Mr. and Mrs. Rose:

A field examination was done on your system and submitted to our State Office.

You do not have to do anything else. A license will be issued to you for the water right by the State Office. The backlog for licenses is about 2,000 so it may take up to 1 1/2 years before you receive the license.

We are applying for an amendment of a permit. We wish to change the nature of use from irrigation to recreation [for wildlife use, birdwatching, ice skating, personal study, canoeing, ...].

In August 1979 a shallow well - 17' - was put in which drew water from the same water as fed this marsh. In June 1982 we put in an earthen dam at the overflow area of the marsh whose purpose was to increase the amount of water stored in the marsh. We used the well's water for household use, stockwater, and $\frac{1}{2}$ acre of irrigation until June 1984 at which point the water level was so low we could no longer pump at greater than $\frac{1}{2}$ gal./min. In Aug. 1985 we cannot pump at all and the marsh's water level is extremely low. It is impossible for us to use this stored water for irrigation purposes. However, we value the water in the marsh and wish it to always remain there, hence, maintaining our application for water rights.

Sincerely, Jan M. Rose

Dear Mr. King,

Thanks for helping us out with our application for change of use. I hope my letter of explanation is all right. Let me know if you need ~~any~~ further explanation.

One question: on the back of application should I have completed the map? As there is no more point of diversion I felt it was not necessary. On our original application it is filled in. If necessary on this one, could you do it please as you must have the original application or a copy? Thanks.

Would you please send us an application for a water rights permit (for our new well as we do irrigate about 3 acres from it)? Thank you.

I'm glad you stopped by that day to check out Paragon Ranch's water permit as it helped us too!

Sincerely,

Jan Rose
