WATER RIGHT NO. 98-07333

Priority: May 8, 1980

Maximum Diversion Rate:
Maximum Diversion Volume:¹

0.02 CFS
1.2 AF

This is to certify, that CHUCK EASTON
CINDY CARVER

P.O. BOX 833

MOYLE SPRINGS, ID 83845

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated May 8, 1980; and has submitted Proof of Beneficial Use on July 1, 1985. An examination indicates that the works have a diversion capacity of .020 cfs of water from:

UNNAMED STREAM

tributary to SINKS

source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
DOMESTIC	01/01 to 12/31	0.02 CFS	1.2 AF

LOCATION OF POINT(S) OF DIVERSION:

SENE, Sec. 14, Township 63N, Range 01E
BOUNDARY County

PLACE OF USE: DOMESTIC & stock/wildlife

TWN RGE SEC

63N 01E 14

SENE

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Domestic use is for 1 home.

Incomplete forms will be returned.

Department of Water Resources

1. Water Right No(s): 98-07333

Adjudication Claim No(s): _____

2. The following **REQUIRED** information must be submitted with this form:

A. A copy of the most recent **DEED, TITLE POLICY, CONTRACT OF SALE** or other legal document indicating your ownership of the property and water rights or claims in question, **WITH ATTACHED LEGAL DESCRIPTION.**

AND

B. **PLAT OF PROPERTY** or **SURVEY MAP** showing the location of the place of use of the water right(s) or claim(s).
(These are usually attached to your deed or on file with the county.)

OR

C. If your water right or adjudication claim is for ten or more acres of irrigation, you must submit a USDA Farm Service Agency **AERIAL PHOTO** with the irrigated acres outlined and point(s) of diversion clearly marked. The **AERIAL PHOTO** should be submitted in place of the **PLAT OF PROPERTY** or **SURVEY MAP**.

3. Name and Address of Former
Owner/Claimant _____

4. New Owner/Claimant(s) _____

New Mailing Address _____

City, State and ZIP Code _____

New Telephone Number _____

5. Date you acquired the property _____

6. Did you acquire all of the former owner's property? If you did, skip this item and go to item 7. If you acquired only a portion of the former owner's property, IDWR may need to split the water right(s) or adjudication claim(s). Describe in detail your portion of each water right or adjudication claim in the spaces in the box below **only if the water right(s) or claim(s) need to be split between owners.** If necessary, attach additional pages. If a water right or adjudication claim is being split and you are not sure how to identify your portion of the original right or claim, please contact the nearest IDWR office for assistance.

Number of acres you irrigate with this water right _____ Number and type of stock _____

Diversion rate in CFS _____ Number of homes you acquired _____ Other uses _____

7. Signature of New Owner(s)
or Claimant(s) _____

Corporations or other organizations must submit a list of directors and/or officers demonstrating authority to sign form.

8. For Snake River Basin Adjudication Claims: Please attach a Notice of Appearance completed by your attorney, if you wish IDWR to correspond with him or her for all matters related to your claims.

JAN 31 2001

INSTRUCTIONS

This form has been prepared to assist new owners of property to comply with the requirements of Sections 42-248 and 42-1409(6), Idaho Code. Section 42-248 requires certain property holders to notify the Department of Water Resources (IDWR) of any change in mailing address or ownership of all or part of a water right record on file with IDWR. Section 42-1409(6) provides that new property owners must notify IDWR of any change in ownership of a water right during an adjudication of water rights. Required claims may be filed by a new owner.

Separate brochures are available from IDWR describing the adjudication of water rights and the requirement to notify IDWR of changes in ownership. Please contact your nearest IDWR office, or call 1-800-451-4129, if you would like more information or need help completing this form. Please attach additional sheets to the form if you require additional space to describe or explain any of the items on the form.

1. If there are water rights associated with the property, the seller should be able to provide you with the water right or adjudication claim number(s). Please enter these number(s) at **Item 1**. If you or the seller believes there are water rights for the property but the numbers are unknown, you may wish to contact IDWR for assistance in identifying the water rights for the property in question. If claims for the rights are required, and have not been filed, IDWR will so advise you.
2. The information described at **Item 2** is required, since IDWR cannot process the requested change without documentation of ownership. The preferred types of documentation are shown; contact IDWR if you have difficulty obtaining this information. Do not obtain a new survey for purposes of this form before contacting IDWR.
3. Please provide the name and address of the former owner of the water right and/or adjudication claim at **Item 3**.
4. The name, mailing address, and telephone number of the new owner(s) is entered at **Item 4**. Please indicate the relationship between multiple owners by using the connector 'and', 'or', or 'and/or'. If an 'and' is used, all parties must sign this form. If an 'and/or' or 'or' is used, all parties may sign. However, only one of the named parties is required to sign.
5. At **Item 5**, please provide the date the property in question was acquired. This may be the date of "closing" in the case of a real estate transaction or the date of court order for other types of ownership changes.
6. You may be purchasing only a portion of the total water right held by the seller. This means the water right held by the seller may be "split" to provide your share of the right in question. Be sure to include a description of the portion of the water right you have purchased at **Item 6**.

Please provide as much detail as possible concerning your portion of the water right: include the number of homes you acquired, number of acres irrigated with your portion of the right, if it is more than 1/2 acre, type and number of stock if your portion of the right includes stockwater, etc. In the absence of information to the contrary, IDWR will assume the intent is to split the rights *proportionately*.

7. The new owner(s) must sign the form in the space(s) provided at **Item 7**. Corporations and other organizations must submit a list of directors or officers demonstrating the authority of the director or officer to sign the form.
8. There is no filing fee. When complete, you should retain a copy and return the original of the form to the IDWR office nearest you:

RE: Change of Ownership for Water Right 98-07333

Dear Water Right Holder(s):

The department acknowledges receipt of correspondence changing ownership of the above referenced water right to you. The department has modified its records to reflect the change in ownership and has enclosed a computer-generated report for your records.

Please note that as of July 1, 1996, water right owners are required to report any change of water right ownership and any change of mailing address of the owner of a water right to the department. Notice of the change must be provided to the department within 120 days of the change. Change reporting forms are available from any office of the department.

Please feel free to contact the department if you have questions.

Sincerely,

for 
Jeff Peppersack, Manager
Water Right Permits Section

WATER RIGHT NO. 98-07333

Priority: May 8, 1980

Maximum Diversion Rate:
Maximum Diversion Volume: 1

0.02 CFS
1.2 AF

This is to certify, that CHUCK EASTON
CINDY CARVER

P.O. BOX 833

MOYIE SPRINGS, ID 83845

has complied with the terms and conditions
of the permit, issued pursuant to application for Permit dated May 8, 1980; and
has submitted Proof of Beneficial Use on July 1, 1985. An examination indicates
that the works have a diversion capacity of 1.20 cfs of water from:

UNNAMED STREAM

tributary to SINKS

source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
DOMESTIC	01/01 to 12/31	0.02 CFS	1.2 AF

LOCATION OF POINT(S) OF DIVERSION:

SENE, Sec. 14, Township 63N, Range 01E
BOUNDARY County

PLACE OF USE: DOMESTIC & stock/wildlife

TOWN AND SEC

63N 01E 14

SENE

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water authorized by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be increased to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modification to or variance from this license must be made within the limits of Section 40-22, Idaho Code, or the applicable Idaho law.
5. Domestic use is for 1 acre.

FROM:ROXANNE MCCARTHY

RE: CHANGES TO FIELD EXAMINER'S RECOMMENDATIONS

DATE: 31-JAN-1990

=====

The Permit for this right was much larger in scale than the eventual development. Under the circumstances detailed in the field exam it would seem unnecessary to issue a license with a seperate livestock component. This use is adequately covered under the domestic use.

CERTIFIED MAIL

EXAMINATION FEE NOTICE

Dear Permit Holder:

Department records show that proof of beneficial use has been submitted for the above-referenced permit, but that a field examination has not yet been conducted to determine the extent of beneficial use of the water for licensing purposes.

House Bill 671 (effective April 4, 1986) enacted by the 1986 Idaho Legislature requires the payment of a fee before this department can conduct the field examination needed to issue a license confirming use of water under the permit. This letter is notification that the license examination fee is due within sixty (60) days of the date of this letter. The examination fee information sheet (enclosed) must be returned with the fee.

As an alternative to submitting the fee, the department will accept a field examination report completed by a certified water right examiner from the private sector. If you choose to have the examination done by a certified water right examiner, you need not submit the license examination fee to the department, but you must within sixty (60) days of the date of this letter return to the department, the examination fee information sheet showing appropriate information together with a statement from the certified examiner to verify that you have retained a certified examiner to conduct the field examination. If you choose this alternative, a completed field examination report must be submitted within one year of the date of this letter. You cannot later change your decision to use this alternative and submit the fee needed for the department to conduct the field examination, but you may change to another certified examiner.

Certified water right examiners are licensed engineers, geologists, or land surveyors certified by the department to conduct water right examinations. The procedure for certifying examiners results from the recently enacted HB 671 and is being developed at this time. A listing

of certified water right examiners will be available from this department when examiners have been certified.

If your permitted use, in fact, has already been examined by the department and you have not asked to have the examination repeated, the fee requirement is not applicable to your permit. If you believe this is the case, please contact the department.

The license examination fee is to be based on the amount of water you indicate you have developed, as listed in item 6 on the examination fee information sheet. The amount of water on which the examination fee is based can be less than the permitted amount, if less water has been diverted and beneficially used. The licensed amount of water, however, will not exceed the amount you claim on the examination fee information sheet. The enclosed license examination fee schedule shows a listing of applicable fees.

FAILURE TO SUBMIT WITHIN THE SIXTY (60) DAY PERIOD, THE FEE OR THE STATEMENT THAT A CERTIFIED EXAMINER HAS BEEN RETAINED TO MAKE THE FIELD EXAMINATION, WILL BE CAUSE TO ADVANCE THE PRIORITY OF THE PERMIT ONE DAY FOR EACH DAY THAT THE FEE SUBMITTAL IS LATE.

FAILURE TO SUBMIT THE FEE OR THE COMPLETED FIELD EXAMINATION REPORT WITHIN A YEAR WILL BE CAUSE TO CONSIDER THE PROOF OF BENEFICIAL USE TO BE INCOMPLETE AND TO LAPSE THE PERMIT.

The attached examination fee information sheet and the fee may be submitted to the following department offices.

Dear Mr. Easton and Ms. Carver:

Re: Permit No. 98-7333

This office acknowledges receipt of the assignment conveying the above referenced permit to you. The assignment has been recorded in the department's records and a copy of the permit is enclosed for your record.

The department also acknowledges receipt of the proof of beneficial use form. Enclosed is a copy of the order which reinstates the permit.

Before a license can be issued, a field examination of the system to determine extent of use must be completed by a representative from our regional office. I cannot tell you just when this examination will be done, but our examiner will try to contact to set a convenient time.

If you have any questions concerning your permit, please feel free to contact this or our regional office.

Sincerely,

RITA I. FLECK
Secretary/Records Manager

Dear Mr. Higgins:

Re: Permit No. 98-7333

LAPSE NOTICE

You are hereby notified that under the provisions of Section 42-218a of the Idaho Code, Permit No. 98-7333 has lapsed. This office did not receive either an acceptable notice that you have completed the project (proof of beneficial use) by the date required on your permit or an acceptable request for an extension of time. You were provided the proper forms in our proof due notice to you dated March 31, 1985.

Your permit cannot be reinstated unless you submit the statement of beneficial use postcard or submit an extension of time request showing reasonable cause for delay. Either the completed postcard or the extension request must be received by this office within sixty days of the date of this lapse notice or the permit will no longer be of any force or effect.

A statement of beneficial use postcard and a request for extension of time form are again enclosed for your use. Please note that a fee of \$15.00 must accompany an extension of time request and that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a government agency or by litigation.

PROOF DUE NOTICE

MARCH 31, 1985

DEAR PERMIT HOLDER:

ONE OF THE CONDITIONS OF APPROVAL OF YOUR WATER PERMIT NO. 98-7333 WAS THAT PROOF OF THE EXTENT OF YOUR BENEFICIAL USE MUST BE SUBMITTED TO THIS OFFICE ON OR BEFORE JUNE 01, 1985. (SEE LAST PAGE OF YOUR APPROVED PERMIT OR YOUR LAST APPROVED EXTENSION REQUEST). ENCLOSED IS A FORM WHICH MAY BE USED TO SUBMIT THE REQUIRED PROOF.

IF YOU HAVE NOT FULLY COMPLETED YOUR PROJECT, AND YOU OR A PREVIOUS OWNER OF THIS PERMIT HAVE NOT RECEIVED A PRIOR EXTENSION OF TIME, YOU MAY REQUEST AN EXTENSION OF TIME IF THE DELAY IS FOR REASONABLE CAUSE AS PROVIDED IN SECTION 42-204, IDAHO CODE. IF YOU HAVE BEEN PREVENTED FROM PROCEEDING BY A GOVERNMENTAL AGENCY OR BY LITIGATION, MORE THAN ONE EXTENSION OF TIME CAN BE GRANTED. AN EXTENSION OF TIME REQUEST FORM IS ENCLOSED FOR YOUR CONVENIENCE.

EITHER THE BENEFICIAL USE FORM OR A REQUEST FOR AN EXTENSION OF TIME MUST BE RECEIVED BY THIS DEPARTMENT ON OR BEFORE THE ABOVE DESCRIBED PROOF DUE DATE. IF NEITHER IS RECEIVED, THE DEPARTMENT WILL SEND YOU A LAPSE NOTICE. WITHIN SIXTY (60) DAYS OF THE MAILING OF THE LAPSE NOTICE, THE PERMIT WILL NO LONGER BE OF ANY FORCE NOR EFFECT.

SINCERELY,

RITA FLECK
SECRETARY/RECORDS MANAGER

Re: Application for Permit

Doug Higgins
Star Rt. 1
Bonners Ferry, Id

Dear Mr Higgins,

I have taken the liberty of preparing a new Application for purposes of clarity. Please review it carefully, if it accurately reflects your intended use of the water, please sign it and return it to this office.

If you have any questions, please contact this office prior to May 17, 1980.

Yours Truly

Tom D. King
Sr. Water Resource Agent

enc: Application for Permit

MICROFILMED

DEAR MR. King,

I recieved your letter on April 15. Sorry I didn't quite get the form right.

Concerning item #2.

The source of water is a spring that starts on my East property line, which is also the highest area, Then it runs Appox. 300' to the west, and Then flows back underground. I assumed this would be called ground water.

In order to have a gravity flow system the impoundment for irrigation would be close to the East line. Which from there it would have sufficient drop to provide gravity-flow.

From the impoundment I would have 50' drop to the south and 50' to 100' drop to the West.

At $\frac{1}{2}$ ^{PSI} ~~POUND~~ per foot drop, it would give me 25 To 50 PSI depending on the area being irrigated.

MICROFILMED

This impoundment will back water to within 20' of the spring source.

At the source I will have 1500 gallon storage underground. From there it is 100' drop to the house site. Which should provide 50 psi at the house.

#4

The storage will be an in stream storage. The impoundment for irrigation will be located in the section of the spring that is above ground.

I plan to have 7.5 A.F. for irrigation storage. And an additional 7.5 A.F. for stock water and wildlife storage.

The irrigation would be from 3-15 to 11-15

The stock water would be from 1-1 To 12-31

The second impoundment will be 100' drop and 700' to the west of the impoundment for irrigation. The second impoundment is to be fed from overflow from the 1st impoundment.

MICROFILMED

Item #6

The height of the dams will be kept under 10'.

If I read your letter correctly, dams under 10' in height do not need to file an application to construct a small dam.

If you need any additional information please contact me at 1-800-323-~~1760~~¹⁷⁶⁴.

When calling that phone number tell the party that answers you would like to get a hold of contractor Doug Higgins. They will then take your name & phone #.

I'll return the call within 3 to 4 days.

This is the best way to contact me.

I normally don't receive mail from April thru Sept.

Thanks

Doug Higgins

REPROFILMED

April 11, 1980

Mr. Doug Higgins
Star Route 1
Bonners Ferry, Idaho 83805

Dear Mr. Higgins:

Enclosed is your Receipt No. 16922 in the amount of \$20.00 for the filing fee of your Application for Permit. Before this office can process your application further, there are some items in need of clarification and some further information is necessary. I am returning a copy of your application, a Dam Safety pamphlet and a Small Dam Application form to allow you to make the clarifications and provide the necessary additional information.

In Item No. 2, you have stated that the source is groundwater. Since groundwater is that water which is underground, a gravity-flow system could not divert the water, unless the well is an artesian well.

In Item No. 4, if the storage is not instream storage, you must indicate the c.f.s. of diversion to storage. You must also indicate the amount of storage for stockwater and irrigation, separately. It is also unusual in this area for the irrigation season to be year around. It is usually from March 15 to November 15.

In Item No. 6.b., you indicate a dam or two to be built at approximately 100 feet in height. If the dams are to be 10 feet or more in height, you must complete the small dam application and submit it to this office, before the application for permit can be approved.

Your rapid response to this matter will be greatly appreciated. If the Department has not received word from you by May 8, 1980, the application may be disapproved.

Sincerely,

TOM D. KING
Senior Water Resource Agent
