WATER RIGHT NO. 98-07325

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Domestic use is for 318 homes.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code. Witness the seal and signature of the Director, affixed at Boise, this 14th day of MARCH, 1990.

License of Water Right No. 98-7206 Priority July 8, 1977 Amount .67 cfs

THIS IS TO CERTIFY, that PARKER WATER & SEWER ASSOCIATION
of Moyie Springs, Idaho, has complied with the terms and conditions of Permit
No. 98-7206 issued pursuant to Application for Permit dated July 8, 1977,
and has submitted proof to the Department of Water Resources on September 15, 1978,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of .67 cfs of water from Moyie River,
tributary to KOOTENAI RIVER, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume

CERTIFIED MAIL

EXAMINATION FEE NOTICE

Dear Permit Holder:

Department records show that proof of beneficial use has been submitted for the above-referenced permit, but that a field examination has not yet been conducted to determine the extent of beneficial use of the water for licensing purposes.

House Bill 671 (effective April 4, 1986) enacted by the 1986 Idaho Legislature requires the payment of a fee before this department can conduct the field examination needed to issue a license confirming use of water under the permit. This letter is notification that the license examination fee is due within sixty (60) days of the date of this letter. The examination fee information sheet (enclosed) must be returned with the fee.

As an alternative to submitting the fee, the department will accept a field examination report completed by a certified water right examiner from the private sector. If you choose to have the examination done by a certified water right examiner, you need not submit the license examination fee to the department, but you must within sixty (60) days of the date of this letter return to the department, the examination fee information sheet showing appropriate information together with a statement from the certified examiner to verify that you have retained a certified examiner to conduct the field examination. If you choose this alternative, a completed field examination report must be submitted within one year of the date of this letter. You cannot later change your decision to use this alternative and submit the fee needed for the department to conduct the field examination, but you may change to another certified examiner.

Certified water right examiners are licensed engineers, geologists, or land surveyors certified by the department to conduct water right examinations. The procedure for certifying examiners results from the recently enacted HB 671 and is being developed at this time. A listing

of certified water right examiners will be available from this department when examiners have been certified.

If your permitted use, in fact, has already been examined by the department and you have not asked to have the examination repeated, the fee requirement is not applicable to your permit. If you believe this is the case, please contact the department.

The license examination fee is to be based on the amount of water you indicate you have developed, as listed in item 6 on the examination fee information sheet. The amount of water on which the examination fee is based can be less than the permitted amount, if less water has been diverted and beneficially used. The licensed amount of water, however, will not exceed the amount you claim on the examination fee information sheet. The enclosed license examination fee schedule shows a listing of applicable fees.

FAILURE TO SUBMIT WITHIN THE SIXTY (60) DAY PERIOD, THE FEE OR THE STATEMENT THAT A CERTIFIED EXAMINER HAS BEEN RETAINED TO MAKE THE FIELD EXAMINATION, WILL BE CAUSE TO ADVANCE THE PRIORITY OF THE PERMIT ONE DAY FOR EACH DAY THAT THE FEE SUBMITTAL IS LATE.

FAILURE TO SUBMIT THE FEE OR THE COMPLETED FIELD EXAMINATION REPORT WITHIN A YEAR WILL BE CAUSE TO CONSIDER THE PROOF OF BENEFICIAL USE TO BE INCOMPLETE AND TO LAPSE THE PERMIT.

The attached examination fee information sheet and the fee may be submitted to the following department offices.

RE: Permit No. 98-7325

Three Mile Water Dist.
Attn: Ruth Ann Wilson
Box 906
Bonners Ferry, ID 83805

Dear Ms. Wilson:

Thank you for your response of 10/18/85 in reference to the above referenced permit.

Your explanation of using wells to extract Moyie River water clarifies the intention for developing a water use under the permit. The fact that you are using wells to pump water which can be considered to be Moyie River water is very unique in that water pumped from a well is usually considered to be groundwater.

In light of past correspondence on this matter and the somewhat confusing recommendations made on our part, the Department will void the application for amendment of permit received in this office on June 21, 1985. A refund of the \$20.00 filing fee for the amendment application will be mailed under separate cover.

The remaining action required on this permit is for the Department to schedule a field examination of the water use developed under the permit. You will be contacted by an employee of this Department sometime in the future.

If you have any remaining questions on this matter, please let us know.

Sincerely,

JIM JOHNSON
Water Rights Supervisor

MEMORANDUM

TO: File 98-7325

FROM: Jim Johnson *W*

DATE: November 25, 1985

RE: Source of Water Under This Permit

The purpose of this memo is to document the file with a summary of action taken on this file in reference to the source of water used.

On about 5/31/85, Ms. Ruth Wilson called this Dept. in reference to what action should be taken on the permit as a result of a well driller drilling a well deeper.

Because the source under the permit had listed Moyie River, Kay Walker advised the permit holder that an amendment changing the source was necessary. (See 5/31/85 correspondence)

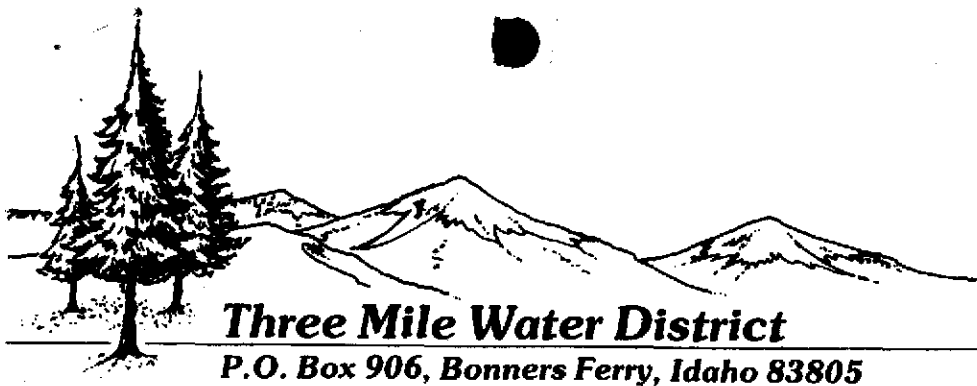

On 6/21/85 the permit holder responded by returning an application for amendment. A subsequent review of Section 42-211, Idaho Code, found that the section contained no provisions for amending the source on a permit; therefore, the Dept. corresponded with the permit holder informing them that the source could not be changed and offered an alternative. (See 9/26/85 correspondence)

The permit holder responded by providing additional information concerning the characteristics of the source of water they had developed.

It appears that due to the location of the well site to the Moyie River, the water being diverted can be considered as Moyie River rather than groundwater as previously thought. Therefore, a refund of the filing fee for the application for amendment received 6/21/85 is being made. (See 12/02/85 correspondence)

Re: Permit #98-7325

Att: L. Glen Saxton

Please see attached letter for reference. The Board of Directors have instructed I request an explanation for attitional monies due. In the first place the District had a permit, #98-7325. This was issued for removal of water via under river wells at the Moyie River. Due to flooding of silt the wells were extended straight down rather than out into the river bed. The well drillers suggested a change to the water permit maybe necessary; so the application for amendment was completed.

Now it appears nothing should have been amended. Why, then does the District owe \$45.00?

The Idaho Dept of Health and Welfare does not recognize the new source as a different source. As far as they are concerned the source of water is still the Moyie River, not a well.

Please help us get some clarification on our permit #98-7325.

Sincerely,
Three Mile Water District

Three Mile Water District
Box 906
Bonners Ferry, ID 83805

Gentlemen:

We are in receipt of the Application for Amendment of Permit No. 98-7325 requesting a change in source of water from the Moyie River to groundwater.

In reviewing this file, I noted that this amendment was requested by this office. It appears that the Department improperly advised you since the Idaho Code, Section 42-211, which provides for amendments allows changes to the place, period and nature of the intended use. The proper document to file if the source is to be changed is an Application for Permit.

The Department will apply the \$20.00 amendment fee which you submitted toward the required application for permit fee. For your convenience, please find enclosed a partially completed application for permit form. The form should be reviewed for accuracy, signed and returned with the difference in filing fee of \$45.00.

In order to clear the Department's records of Permit 98-7325 which shows the Moyie River as the source, please also sign and return the enclosed relinquishment form.

We apologize for any inconvenience this may have caused you in this matter. If you have any questions, please feel free to contact this office or our Northern Regional Office located at 4055 Government Way, Coeur d'Alene, phone 765-4639.

NOTICE OF APPLICATION FOR AMENDMENT OF A PERMIT

NOTICE IS HEREBY GIVEN that Three Mile Water District has filed with the Department of Water Resources on June 21, 1985, Application for Amendment of Permit No. 98-7325 changing the source of water.

The source of water on the original permit was the Moyie River, tributary to the Kootenai River.

The applicant now wishes to amend said Permit No. 98-7325 to show the source of water as groundwater.

Any protest to the proposed amendment may be filed with the Idaho Department of Water Resources, 4055 Government Way, Coeur d'Alene, Id. 83814, on or before July 22, 1985.

Dear Ms. Wilson:

Pursuant to our telephone conversation this morning, enclosed you will find a copy of the above referenced permit and a copy of an amendment of the permit which was approved in May of 1980. Please be advised that this permit was issued for the use of water from the Moyie River. If you are using water from wells, as stated in our telephone conversation, you need to file the enclosed application for amendment form to change the source from "Moyie River" to "groundwater". We have completed part of the form for your convenience.

Please review the amendment application carefully, and, if all is in order, sign the form on the back where indicated and submit it to our Northern Regional Office at this address: Idaho Dept. of Water Resources
4055 Government Way

Coeur d'Alene, ID 83814 (Phone: 765-4639)

Please be advised that a \$20.00 filing fee must accompany the form to cover the cost of advertisement.

If you have any questions in regard to this matter, please contact either our office or our Northern Regional Office at the above address.

Sincerely,
