INSTRUCTIONS

This form has been prepared to assist new owners of property to comply with the requirements of Sections 42-248 and 42-1409(6), Idaho Code. Section 42-248 requires certain property holders to notify the Department of Water Resources (IDWR) of any change in mailing address or ownership of all or part of a water right record on file with IDWR. Section 42-1409(6) provides that new property owners must notify IDWR of any change in ownership of a water right during an adjudication of water rights. Required claims may be filed by a new owner.

Separate brochures are available from IDWR describing the adjudication of water rights and the requirement to notify IDWR of changes in ownership. Please contact your nearest IDWR office, or call 1-800-451-4129, if you would like more information or need help completing this form. Please attach additional sheets to the form if you require additional space to describe or explain any of the items on the form.

1. If there are water rights associated with the property, the seller should be able to provide you with the water right or adjudication claim number(s). Please enter these number(s) at **Item 1**. If you or the seller believes there are water rights for the property but the numbers are unknown, you may wish to contact IDWR for assistance in identifying the water rights for the property in question. If claims for the rights are required, and have not been filed, IDWR will so advise you.
2. The information described at **Item 2** is required, since IDWR cannot process the requested change without documentation of ownership. The preferred types of documentation are shown; contact IDWR if you have difficulty obtaining this information. Do not obtain a new survey for purposes of this form before contacting IDWR.
3. Please provide the name and address of the former owner of the water right and/or adjudication claim at **Item 3**.
4. The name, mailing address, and telephone number of the new owner(s) is entered at **Item 4**. Please indicate the relationship between multiple owners by using the connector 'and', 'or', or 'and/or'. If an 'and' is used, all parties must sign this form. If an 'and/or' or 'or' is used, all parties may sign. However, only one of the named parties is required to sign.
5. At **Item 5**, please provide the date the property in question was acquired. This may be the date of "closing" in the case of a real estate transaction or the date of court order for other types of ownership changes.
6. You may be purchasing only a portion of the total water right held by the seller. This means the water right held by the seller may be "split" to provide your share of the right in question. Be sure to include a description of the portion of the water right you have purchased at **Item 6**.

Please provide as much detail as possible concerning your portion of the water right: include the number of homes you acquired, number of acres irrigated with your portion of the right, if it is more than 1/2 acre, type and number of stock if your portion of the right includes stockwater, etc. In the absence of information to the contrary, IDWR will assume the intent is to split the rights *proportionately*.

8. There is no filing fee. When complete, you should retain a copy and return the original of the form to the IDWR office nearest you:

RE: Change of Ownership for Water Right 98-7315

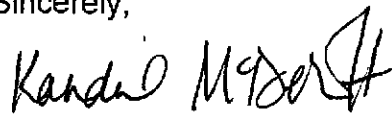

Dear Water Right Holder(s):

The department acknowledges receipt of correspondence changing ownership of the above referenced water right to you. The department has modified its records to reflect the change in ownership and has enclosed a computer-generated report for your records.

Please note that as of July 1, 1996, water right owners are required to report any change of water right ownership and any change of mailing address of the owner of a water right to the department. Notice of the change must be provided to the department within 120 days of the change. Change reporting forms are available from any office of the department.

Please feel free to contact this office if you have any questions regarding this matter.

Dear Ms. McDermott:

As requested in your letter of June 13th, 2005, please find enclosed a copy of the quitclaim deed which signs joint ownership of the property originally owned by Wesley and me over to just me. As part of this quitclaim deed is the legal description of the property. Please let me know if there is anything else you need in order to expedite this transfer of ownership.

Just a side note: I found it very ironic that in your letter I was told that I must have this information back to you **within 30 days** or my notice would not be processed, yet it has taken you five full years to even acknowledge the original request. Sound like a double standard? Also, I am hoping that the original request will suffice for the "report any change in water right ownership...within 120 days" requirement, because it comes to my attention that five years is a bit past that rule. Sorry, but I wash my hands of any responsibility in that matter and refuse to pay any \$100 late filing fee.

Have an enjoyable day.

Sincerely,

Randa Portrey

RE: Change in Ownership for Water Right No. 98-7315

Dear Ms Portrey:

The Department of Water Resources acknowledges receipt of your Notice of Change in Water Right Ownership filed in June 2000. Our review of your notice indicates that additional information is required before we can process the change. The information required is indicated below:

- ☒ **Evidence of Water Right Ownership:** copy of Warranty Deed, Title Policy, Contract of Sale, or other legal document indicating your ownership of the property and/or water rights in question
- ☒ **Legal Description of Property**

You have requested that the name of Wesley Portrey be removed from ownership on the water right in question. In order to do so, we will require a legal document showing this change in ownership, including a legal description of the property. I have enclosed a computer report of the water right for your reference.

Because the Department cannot process the ownership change without proper documentation, we will hold any action on your notice pending receipt of the necessary information. If we do not receive the necessary information **within 30 days** we will return your notice and all attachments and your notice will not be processed.

Please note that water right owners are required to report any change in water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage (<http://www.idwr.state.id.us>) on the Internet to obtain the proper forms and instructions.

If you have questions, please contact Kari Lynn Townsend at 208-287-4952.

Dear Mr. & Mrs. Portrey,

RE: Permit No. 98-7315

We received your letter in response to our pre-license letter of May 15, 1981.

I assume you know that we are not attempting to cause you any undue hardship. I have requested Mr. King to provide additional information which would aid in further identifying the exact location of your property.

He prepared the attached map with your property located on it. As you can see your land lies mostly within the SW $\frac{1}{4}$ NE $\frac{1}{4}$ and a small portion in the SE $\frac{1}{4}$ NW $\frac{1}{4}$, of Section 5.

Your permit had located your property in the SW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 5. This location is about $\frac{1}{4}$ of a mile west of where your property is actually located.

It is unfortunant that the correct location was not originally used. The only way that a permit can be corrected is by filing for an Amendment of a Permit. The \$20.00 filing fee is to pay for the processing of the amendment. We cannot accept the amendment without the filing fee.

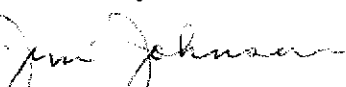

The Water Right License when issued is appurtant to the land and is non-expiring as long as you continue to use the water. It is a permanent record of your use and can protect you from someone injuring your right to use the water.

It is your decision whether or not to pay the amendment filing fee.

If we have not heard from you by July 15, 1981, the Idaho Code requires that we begin the proceedure to cancel your permit.

If I can be of assistance or answer any questions that you may have please call me at 334-4162.

Sincerely,

JIM JOHNSON

Dear Mr. King,

A few days ago I received a letter from Jim Johnson concerning our application for a water right permit #98-7315. The letter states that an amendment to the application and \$20.00 more was necessary before a liscence could be issued. Being completely confused, I called your office in Boise. The lady, who was very kind and courteous, explained that the reason for the amendment was a mistake in the point of diversion--our saying NW $\frac{1}{4}$, Jim Johnson saying it should be NE $\frac{1}{4}$. In order to correct that one letter "mistake" it was going to cost us another \$20.00! (Now isn't that a bit ridiculous?) Anyway, I was still confused about the so-called mistake; you see, that part of our application was filled out by a clerk at the county courthouse. In order to clear up this confusion my husband called the county assessors office and talked to Wayne Young. He checked our land deed which doesn't give all of this NW, SW lingo. Then he checked the map and found that the NW-NE line runs straight down the middle of our property. Since our property is both NE and NW what difference in the world does it make which the permit reads? As far as I'm concerned, I'm not paying you \$20.00 for something that absurd. As Mr. Young stated to my husband, it looks like someone is trying to split a hair with a fine tooth comb in order for the state to get a little extra money. Well, you better look somewhere else for the money because you're not getting mine. In case you still think an amendment is necessary I'm enclosing the paper all filled out, but believe me, that's all you're getting.

Sincerely,

Mrs. Wesley Portrey

Dear Mr. & Mrs. Portrey,

A representative of this Department made an examination of the works covered by your Permit No. 98-7315 on April 9, 1981, and has found the following:

Amount of water that can be recognized as beneficially used under
Idaho law: .04 cfs Source: groundwater

The maximum quantity diverted shall not exceed 1.2 acre feet
per year.

Point of diversion: SW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 5, Twp. 60N, Rge. 1E, B.M.

Beneficial use: Domestic use for 1 unit within the SW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 5, Twp. 60N,
Rge. 1E.

Priority date established: August 17th 1979

In order for the Department to issue the above license, it will be necessary for you to amend the permit to correspond with the findings of the field examiner. We are enclosing a partially completed amendment form for your use in this matter.

Please sign the amendment application and return it to this office along with a \$20.00 filing fee within 30 days in order that we might issue your license as set forth above. If you do not concur with these findings or have any questions, please contact us within the 30-day period.
