CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.

That under the terms and conditions of said permit, work thereunder was required to be completed on or before Feb 1, 1984, 19

That he has heretofore performed the following work described under said permit: A storage tank, not a well has been almost completed. (This must be filled out! If no work has been completed put none.) It is constructed of 4 concrete casings, three feet long, by 30" wide. A pump was installed here to pump the water approximately 150' up an embankment to the house. The trench was dug by hand since the bank was too steep for the use of heavy equipment. Our Son Harry lived there and due to the breaking up of their family, the receipts for the work done is unavailable. To the best of our ability we believe the costs to be as follows: Labor 550.00 materials 300.00 Costings \$ 850.00

That he is unable to complete the remainder of the work within the required time for the following reasons, to-wit: I had a stroke in April of 1983 and have not fully recovered, this is also the reason for your questioning of the signature--They are both my signatures, my handwriting has been effected by the Stroke. Our plans are for us to move back up to the property this spring, if I continue to improve. For further information concerning my medical condition, please feel free to contact Dr Paul Mayberry, Moab Medical Center, Moab, Utah 84532.

Wherefore, he asks that the Department of Water Resources extend the time for the completion of obligations under said permit to March 15, 19 89

RE: Water Right Permit No. 98-07293

Dear Mr. Reed:

The Application for Permit No. 98-07293 provides for the diversion of water from one spring. When I was conducting the Field Examination for this permit, you showed me two springs. Since you have split the ownership of the property, and the permit provides for only one spring to be diverted, it is necessary that you file for a separate water right for the spring that supplies your home. The spring that supplies water for your mother's home will be covered under Permit No. 98-07293, and that paperwork is being processed now.

I have enclosed the necessary forms for you to begin the process of obtaining a Water Right for your home. If you have any questions, please feel free to call or write this office.

Re: 98-7293

Dear Mrs. Reed:

We acknowledge receipt of your statement of completion of water development use for the above-referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We do not know at this time when he will be able to conduct the examination; however, the examiner will try to contact you prior to the time the examination is made so that you may demonstrate the system. If you will not be available to show the system, please provide this office with the name and address of someone who will be able to do so. Your permit will remain valid until the examination is made.

If you have any questions concerning the field examination, please contact this office. Please be sure to use the above-referenced permit number in all future correspondence concerning this examination.

Dear Sir:

Enclosed are papers for proof of beneficial use and also guardianship papers for Jake T. Reed. Jake took care of all of our business and I have been at a loss of what to do about some of the things I need to do. Jake is now in a E.F.C. nursing home. He has Alzheimers disease.

I ask around Bonners Ferry and was unable to find anyone that knew anything about it or that could inspect it for me. I recieved this address from the USDA office Idaho Dept. of Water Resources, 4055 Government Way, Coeur d'Alene, ID 83814. I am sending them a copy and asking them if they can inspect it for me.

RE: PERMIT NO. 98-07293

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced water permit has lapsed. This office did not receive either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time. You were provided the proper form in our proof due notice to you dated November 30, 1988.

Your permit cannot be reinstated unless you submit proof of beneficial use or submit an extension of time request showing reasonable cause for delay. Either the completed proof of beneficial use submittal (including the examination fee or a completed field examination report) or the extension request form together with the \$15 fee must be received by this department within sixty days of the date of mailing of this lapse notice or the permit will no longer be of any force or effect.

A proof of beneficial use form and a request for extension of time form are again enclosed for your use. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a governmental agency or by litigation which might bring title to the water in question.

PROOF DUE NOTICE

RE: PERMIT NO. 98-07293

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before February 1, 1989. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

Re: Application for Permit

I am returning your Money Order #23-1 in the amount of \$20.00 and your Application for Permit for additional information.

The Idaho Code limits the irrigation diversion rate to 0.02 cfs/acre, unless the necessity for a greater amount can be shown to the Director of the Department of Water Resources.

I am uncertain where and how many acres you plan to irrigate. You specify 2 acres within the NENE Sec 30, under Item 8(b), however you indicate 16 acres within the NESE Sec 30 on the map.

Please complete Item 6(c), insure Item 8(c) is correct and return the application and money order to this Department.

Dear Mr. Reed:

Re: Permit No. 98-7293

The Department received the request for extension of time submitted for above-referenced permit. Before action will be taken, further information is needed.

The Department must review the amount of work completed toward the development of a water right to determine if the permit holder has proceeded with due diligence in the completion of the project. All work toward the development of this project is necessary information when requesting an extension of time. On the enclosed extension form, indicate any and all such work that you or your son have done toward this project. This would include purchases made, preparation of the diversion site, clearing of land for crops, etc. Also, indicate the amount of money invested in the project.

Please note, however, that the source of water for this permit is an unnamed spring not a ground water source (well) as indicated on the extension request received on January 12, 1984. I've enclosed a copy of the permit for your information.

A water right permit is personal property. Only the permit holder or an authorized personal representative may take action it. I have compared the signature on the extension request with the signature on the permit and the signatures do not appear to be the same. Please have the permit holder of record sign the extension request before returning it.

The Department will hold action on this permit until March 29, 1984. If no additional information is received, the department will take action on the present extension request. Please note that upon receipt of the new extension, the fee received from the first extension will be applied to the second.

Gentlemen:

Enclosed you will find a legal notice which we wish to have published on the dates indicated (once a week for two consecutive weekly issues) in your newspaper. We have allowed ample time for you to submit a galley proof to this office for review before the first publication date. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department along with the publication bill. Your cooperation is appreciated.

Please send the affidavit of publication and publication billing to this office before FEBRUARY 19, 1979.

Yours truly,

Patricia M. Styra
Secretary
