Dear Mr Fairbrother,

I have enclosed a Water Users Handbook and a memorandum concerning stock waters. The memorandum should be used as a guide only. The handbook should answer most of your questions, but not all. I will endeavor to answer those questions here.

You may file on as many sources as is necessary to divert the quantity of water you require. Each source must have a separate filing. If the source is on Federal land, an easement permit must be procured from the appropriate Federal agency. If a dam over 10 feet high is constructed, a dam construction permit must be applied for through this office. There is no fee required for the dam permit, but a fee is required for a Water Right permit.

If we may be of any further assistance, please do not hesitate to contact us.
