Dear Mr. Bailey:

One of the conditions of approval of your water Permit No. _____ (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before _____. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

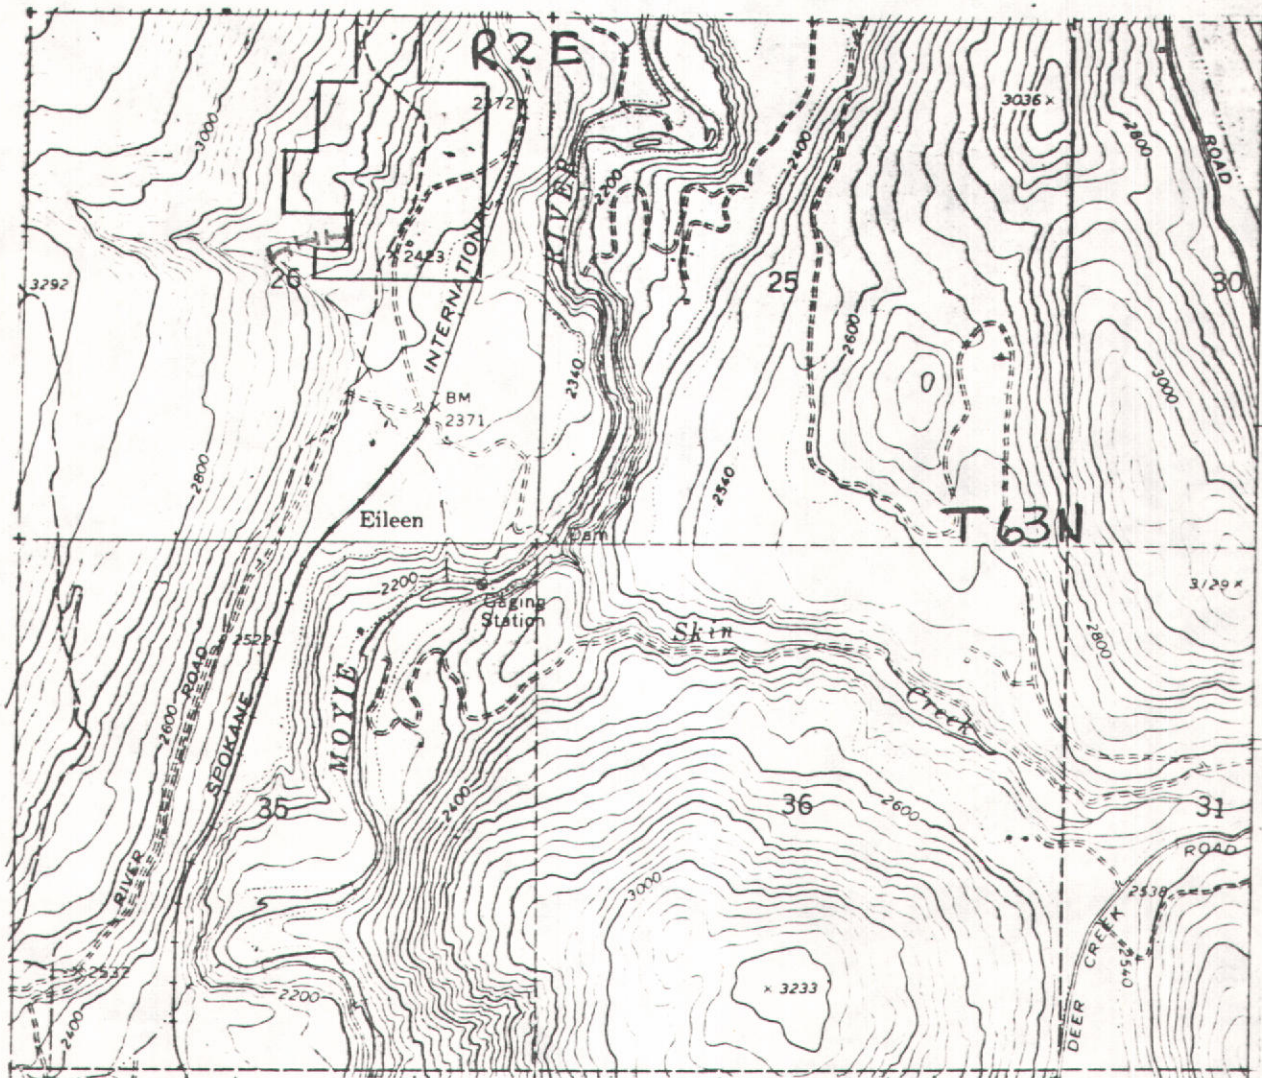

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise, the permit will lapse and be of no further force or effect.

Dear Mr Bailey,

Your check #92-95 and Application for Permit are being returned to you for additional information. I have taken the liberty of changing item 8a1 to read Range 2E to conform with the Public Land Survey System.

Under item 9a, you state the USFS owns the land from which you wish to remove water. Idaho State Law does not allow water rights to be developed in trespass. You must, therefore, make some arrangement with the USFS for access to the water. The type of arrangement must be listed under Item 9c.

If we may be of any further assistance, please do not hesitate to contact us.

Sincerely,

TOM KING

This is a petition to reinstate my permit that lapsed on Feb 1, 1979 and apply for an extension of time in which to complete my project.

I failed to make proof of beneficial use on Feb 1, 1979 because for some reason I had it in my mind that the date was Feb 15th. I discovered this today Feb 2, and am immediately submitting my petition.

I am also applying for an extension of time in which to complete my **MICROFILMED** project. I have approximately 2,000 ft.

of line to lay. My project
is more than half done
but, it has been a much
bigger job than I anticipated.
The cat and backhoe
required for clearing and digging
were close to two months
behind schedual on their appointment.
The early freeze and frost
depth also ended my
project earlier than normal.

I sincerely hope
you consides my petition

this project this year.

Dear Mr Bailey,

Your check #92-95 and Application for Permit are being returned to you for additional information. I have taken the liberty of changing item 8a1 to read Range 2E to conform with the Public Land Survey System.

Under item 9a, you state the USFS owns the land from which you wish to remove water. Idaho State Law does not allow water rights to be developed in trespass. You must, therefore, make some arrangement with the USFS for access to the water. The type of arrangement must be listed under Item 9c.

If we may be of any further assistance, please do not hesitate to contact us.

Sincerely,

TOM KING

Dear Mr. Bailey:

Pursuant to your letter of February 3, 1977, enclosed is an Application for Permit form and instructions for your use. Since May 20, 1971, a permit must be obtained from our Department to appropriate any new surface water. The enclosed application should be completed and returned to our office along with the required filing fee.

Should you wish to have your water tested for purity, a sample of the water should be taken to the Panhandle Health District. The Health District's laboratory in Coeur d'Alene is located at 2195 Ironwood Court (P.O. Box 608).

If we may be of any further assistance, please do not hesitate to contact us.

Very truly yours,

ROBERT G. HAYNES, P.E.
