Dear Mrs. Fleck,

Concerning my application of proof which you sent me the 1st of Oct. 1978, there are a couple of questions I cannot answer. Question 5 (a) and question 7 (b), both concern measurement of flow of water. I have no device to measure the flow. The water I get is for household use by my family of four. At the point of diversion is a pump house, a $\frac{1}{2}$ horse electric pump and (2) 200 gallon holding tank. From this system 3 families derive their household water, this includes my family. The other two families already have permits for 0.04 cfs which is what I'm applying for. I questioned one of the other families holding a permit and they never had to have the water flow measured.

Please tell me what must be done in this case and, if necessary, ~~and~~ an extension on my Dec. 1, 1978 closing date.

When I originally applied for a water permit last year, I explained the situation of three families using same pump etc. and my need for a private permit in case I want to sell property at latter date.

I contacted
Mr Carthcart by
phone on 11/20/78
to discuss the
proof of b/a.

Dear Mr. Cathcart:

One of the conditions of approval of your water Permit No. 98-7218 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before December 1, 1978. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise, the permit will lapse and be of no further force or effect.
