Permit No. 98-7194

(name) (address)

State of Idaho, being first duly sworn, upon his oath deposes and says:

That he is the holder, or the duly authorized agent of the holder *, of Permit to
Appropriate the Public Waters of the State of Idaho No. 98-7194.

That under the terms and conditions of said permit, work thereunder was required
to be completed on or before July 1, 1978.

That he has heretofore performed the following work described under said permit:

Constructed a farm pond of dredged earth with an
stand pipe and drain facility located in the dam.
This pond also has a spillway meeting requirements,
also a drainage splash-pool. Costing \$ 6,500.00

That he is unable to complete the remainder of the work within the required time for
the following reasons, to-wit: Design differences between S.C.S
& State Dept. for drain plugs vs. gate valve. Gate valve
will take more time and expense. Also because
of large cost overrun, stock pond & irrigation facilities will be delayed.

Wherefore, he asks that the Department of Water Resources extend the time for the
completion of obligations under said permit to July 1, 1983.

Dear Mr Howat,

Please find enclosed an Application for Extension of Time. Please fill this form in and return it to this office for processing.

As for the modifications of the water right based on the modifications of the dam, these can be handled at the time of the examination of your system. It would probably be best to wait until the system was completed. Waiting would simplify the paperwork and avoid having to redo it.

If we may be of any further assistance, please do not hesitate to contact us.

Sincerely,

ALEA BEITO

App. for Permit

Dear Sir, R.E. # 98-7194

I would like to request
an extension on my
"completion - proposed beneficial
use", time allotment from
1 year to 5 years.

This request is necessary because
of the modified designs in the
dam and future
design requirements to be
fulfilled this summer.

I would like to know
if I could receive another
form for application for a permit
as the original one may need
a few minor changes, with
the finish of the dam structure.

We have begun processing your Application for Permit; however, since your proposed dam appears to be more than 10 feet in height, the enclosed "Small Dam Application" must be completed and returned to our office. Any dam 10 feet or more in height must be inspected by our department periodically to insure safety of the structure.
