Dear Mr. and Mrs. Plato:

One of the conditions of approval of your water Permit No. 98-7185 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before May 1, 1979. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise, the permit will lapse and be of no further force or effect.

Dear Mr. & Mrs. Plato:

We received your letter requesting an extension of time on the above referenced permit. In looking over the file it was noted that the letter sent to you on February 28, 1978 was in error as proof of beneficial use of water is not due until May 1, 1979, instead of May 1, 1978 as stated in the letter of February 28.

We are sorry for this error and any inconvenience it might have caused you. After you have your system completely installed you may submit proof of beneficial use of water before the May 1, 1979 date.

If you have any further questions, please contact us.

Dear Sir:

In February of 1977, we applied for a water permit. At the time, we were raising alfalfa hay and planned to use the water for irrigating alfalfa ground. Since that time, we have decided to go into raising nursery stock. We have held off finishing the irrigation system while we have studied the market for nursery stock, and decided what type of an operation we will have.

Soil Conservation Service technician Ray Bott checked the area for a pond and water source and has checked the area to be irrigated. He is now designing a system suitable for a nursery operation. We have also taken soil samples and done some preliminary digging for a pond.

We plan on having the irrigation system in operation this summer.

We would like a six months extension of time to finish the system and get it into operation.

Thank you for your consideration of our request for an extension of time.
