Dear Mr. Haynes:

Your letter of November 20, 1975, to Mr. Runyan, has been directed to this office for our attention. We would appreciate receiving a copy of the application filed by Mr. Runyan since he did not keep a copy in his possession.

Also, it appears that a conference would not necessarily be fruitful. We recommend that a hearing be scheduled as soon as possible so that the rights of the parties could be fully determined.

Very truly yours,

Dear Mr. Runyan:

We have enclosed a copy of the protest filed against the issuance of a permit pursuant to your Application No. 98-7153. You should be aware that the following are the principle items we can consider at a conference and/or hearing in either approving or denying an application for permit (Section 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?

The Department cannot allow a permit for irrigation purposes which would entail the use of more than a continuous flow of 0.02 cubic feet per second of water for each acre of land, or an annual amount of 5 acre feet for each acre of land, unless the applicant can show that more is required (Section 42-202, Idaho Code).

A permit issued by this office is subject to all prior water rights and does not in any way convey or establish a right-of-way over private or governmental lands. Any right-of-way or easement must be obtained by the applicant through action outside of the water right proceedings.

You will be notified at a later date as to the time and place set for a conference and/or hearing to discuss the matters of protest. Legal counsel is not mandatory at any proceeding before the Department, although you may desire to employ an attorney in your behalf.

If we may be of any further assistance, feel free to contact us.

Dear Mr. Lyons:

We are in receipt of your letter protesting the issuance of a permit in connection with the above referenced application in behalf of Mr. Ervin Madson. We are enclosing a copy of this application for your use. The charge for this copy is \$1.

There are no forms for protesting an application for permit. A statement of the grounds on which the application is protested are all that is required. Since your letter stated that prior water rights may be injured, we can accept this as a valid protest.

The following are the principle items we can consider at a conference and/or hearing in either approving or denying an application for permit (Section 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?

The Department may reject an application and refuse issuance of a permit, partially approve the permit, approve the permit for a quantity of water less than applied for, or approve the permit subject to special conditions.

A permit issued by this office is subject to all prior water rights and does not in any way convey or establish a right-of-way over private or governmental lands. Any right-of-way or easement must be obtained by the individuals concerned through action outside of the water right proceedings.

Dear Sir:

Be advised that Mr. Ervin E. Madson hereby wishes to protest Pete Runyan's application #98-7153 for a permit to appropriate water.

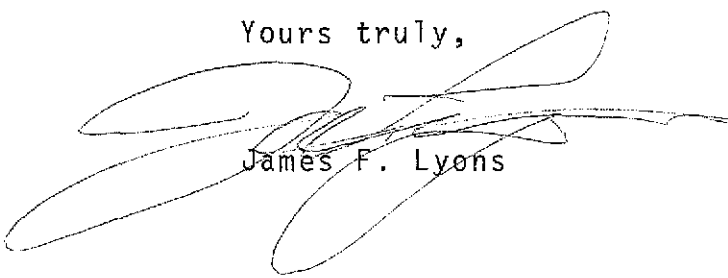

Please send the necessary forms.

Further, Erm Madson demands a hearing on this matter.

Ervin Madson's address is P.O. Box 719, Bonners Ferry, Idaho, and he lives in the Paradise Valley area. I am acting as his attorney.

Without a copy of the application we are unable to complete the grounds for the objection, but Mr. Madson's objection is that he has a prior water right on said water and that Mr. Runyan's priority may only run on domestic use and Mr. Madson's on other uses has an equal or earlier priority.

Yours truly,

James F. Lyons

Dear Mr. Runyan:

We are returning your Application for Permit and also your Money Order in the amount of \$15.

The Application appears to be in order; however, the filing fee for 0.20 cubic feet per second of water is \$10 rather than \$15. We checked with our local Post Office and in order to change the Money Order, it should be taken to the Post Office so they may change the amount. This should require only your signature on the back of the Money Order.

Please re-submit the Application and the \$10 filing fee to our office, and we shall begin its processing. We hope this has not caused you any inconvenience, and if there are any questions, feel free to contact us.
