License of Water Right No. 98-7122 Priority Oct. 4, 1974 Amount 0.04 cfs

THIS IS TO CERTIFY, that STEVEN G. THOMPSON
of Naples, Idaho, has complied with the terms and conditions of Permit
No. 98-7122 issued pursuant to Application for Permit dated October 4, 1974,
and has submitted proof to the Department of Water Resources on November 28, 1975,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 0.04 cfs of water from a ground water source,
tributary to _____, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume

Dear Mr. Thompson:

One of the conditions of approval of your water Permit No. 98-7122 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before January 1, 1976. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

SUBJECT: Protests Against Issuance of a Permit

We received protests against issuing Permit No. 98-7122 from Peter B. Wilson, Attorney for Moyie Springs, Inc., City of Moyie Springs, and Parker Water Association, on November 11, 1974. However, these protests did not state the reasons for objecting, so they were returned.

On November 26, 1974, I called Mr. Wilson to see why the protests had not been returned to our office, and he stated that the protests had been withdrawn and there were no objections to our issuing the permit.

Dear Mr. Wilson:

We are returning the protests you submitted in behalf of the City of Moyie Springs, Moyie, Inc., and Parker Water Association, Inc., in connection with the above referenced applications. Section 42-203 of the Idaho Code states that any person, firm, association, or corporation may file a written protest against the approval of a permit to appropriate the public waters of the State of Idaho. This protest shall state the name and address of the protestant and shall be signed by him or his agent and shall clearly set forth his objections to the approval of such application.

The protests you submitted do not indicate the reasons for objecting to the issuance of these permits. The following are the principle items we can consider at a conference and/or hearing in either approving or denying an application for permit:

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?

Dear Mr. Thompson:

We have begun processing the Application for Permit you submitted to our office; however, the amount of water you listed to supply one family was excessive. We have reduced the amount from 0.2 cubic feet per second to 0.04 cubic feet per second which is equivalent to approximately 18 gallons per minute.

If you have any questions in this matter, feel free to contact our office.

Very truly yours,

FRED EISENBARTH
Northern District Manager
