Dear Mr. and Mrs. Fayant:

We have received your letter of protest against approval of the above referenced application; however, we are unable to accept the protest for the reasons you have listed. The following are the principle items we can consider in either approving or denying an application for permit:

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?

If you feel as though your water rights will be injured due to one of the above reasons, please re-submit your protest within ten days from the date of this letter.

Very truly yours,

Dear Sir:

We do not feel Mr. Robert Lenker should be issued a water permit as he has and is using the powers and privileges of his office as bank president to obtain real estate for himself and has betrayed the confidence, respect and interests of his clients for his own self serving purposes and interests. All of which are not fitting someone of this position besides being a highly objectionable and questionable practice and making it virtually impossible for the average person to compete or obtain real estate especially if they happen to do their business with his bank.
