RE: Water Permit Number 98-7101
Water Permit Number 98-7102✓

Dear Mr. Haynes:

We would like to apply for a one year extension for filing our Proof of Construction and application of water to beneficial use on the TWO above Water Permits.

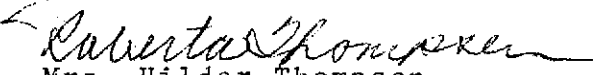

Here is the reason for our request for extension:

Hilder entered the hospital the end of August with a heart disturbance. He was in the hospital for two weeks and then spent the following six weeks with limited activity. He still isn't able to go back to heavy work. We had planned to finish up the work on our water permits this summer and fall, but with his heart condition we were not able to do so. To date we have completed the domestic water systems for two households and they are both being used. We have also completed the water system to the barn and corrals and are using them. We have part of the irrigation system in. If we could have a one year extension we could get the rest of our system completed during next summer.

Also, will you please send us two of the forms we are to file for Proof of Construction of works and application of water to beneficial use.

Thank you.

Very truly yours,

Mrs. Hilder Thompson

Dear Mr. Thompson:

We acknowledge receipt of your statement of completion of water development and use for the above-referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We do not know at this time when he will be able to conduct the examination; however, the examiner will try to contact you at the time he makes the examination so that you may show him the system. Your permit will remain valid until the examination is made.
