Dear Mr. Haynes:

We purchased a home south of Bonners Ferry in January of this year and would like to have the water rights transferred to our names. Since we are not sure how to accomplish this, we have enclosed copies of the previous owners' water right license and application for permit. Also enclosed is a copy of the warranty deed showing our purchase of the property.

Please send us the necessary forms to make the transfer, or let us know if you need further information. Also, what permission is needed to make improvements on the spring? We would like to make the conditions more sanitary by putting some sort of housing around the spring source. Because of its location in a bar ditch near the highway, the water from the spring runs over a large amount of littered trash and garbage, and tests out with a high amount of bacteria. Please tell us how we can go about getting permission to make an improvement there.

We really appreciate your help.

Dear Mr. & Mrs. Burlingame:

One of the conditions of approval of your water Permit No. 98-7092 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before December 1, 1974. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.
