Gentlemen:

One of the conditions of approval of the above referenced water right permit was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before

August 1, 1978. The enclosed affidavit form is the document you must complete and submit as the proof of application of water to beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Mr. Stanton:

In reviewing your application, we noticed that you have listed 50 head of cattle under Item 8a(3). If you wish to have stockwater included under the permit, you should list 0.02 cubic feet per second of water for stockwatering purposes under Item 4, and change the total amount of water to 1.05 c.f.s. under Item 5a.

We also need to know the place of use for the stockwater and domestic uses under Item 8a(1).

The rest of the application is in proper order, and as soon as you complete the above items and return the application to our office, we will begin its processing.

Please contact us if you should have any questions.
