WATER RIGHT LICENSE

License of Water Right No. 98-7068 Priority Feb. 28, 1973 Amount 0.04 cfs

THIS IS TO CERTIFY, that Nelson M. Warner &/or Denise B. Warner
of Naples, Idaho, has complied with the terms and conditions of Permit
No. 98-7068 issued pursuant to Application for Permit dated February 28, 1973,
and has submitted proof to the Department of Water Resources on April 25, 1975,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 0.04 cfs of water from an unnamed creek,
tributary to Deep Creek, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
<u>Domestic</u>	from <u>Jan. 1</u> to <u>Dec. 31</u>	at <u>0.04</u> cfs and	<u>1.2 acre feet</u>
	from _____ to _____	at _____ cfs and	
	from _____ to _____	at _____ cfs and	

(both dates inclusive)

Subject, however, to the condition that no more than 0.04 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
1.2 acre feet per year, said waters to be diverted within the SW $\frac{1}{4}$ SE $\frac{1}{4}$ of Sec. 24,

Dear Mr. & Mrs. Warner:

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell during which part of the irrigation season this examination will be made, but our examiner will try to contact you at the time he makes the exam so that you may show him the system.

Please be advised that a measuring device is not required for this permit, and therefore, the removal of that requirement is not necessary.

If you have any questions concerning the field exam, please contact our Northern District Office in Coeur d'Alene.

10. Remarks: The Coeur d'Alene office advised me that I could request an exception to the requirement for water measuring devices due to the "relatively" small amount of water involved. Mr. Parrish has advised me that my system for domestic use could divert 0.2 CFS , however, I couldn't possibly use that amount 24 hours a day. I do not intend to request a right for water beyond reasonable requirements. My temporary and movable irrigation system can deliver 0.1 cfs and will meet my requirements. There is no competitive use for water "above" me. Therefore request an exception be granted requiring a measuring device. Spring washouts destroy any temporary diversion dams set up for irrigation water.
The above information is a true statement of the extent to which the above numbered permit has been developed.

Dear Mr. & Mrs. Warner:

One of the conditions of approval of your water Permit No. 98-7068 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before May 1, 1975. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Gentlemen:

RE: Permit No. 98-7025-Harry E. Dudley
Application of New Water Right (Enclosed)

Attached as Enclosure 1 is a completed assignment of permit for permit NO 98-7025. Mr. McElowney's letter of October 27, 1972 advised me that said permit provides for .30 cubic feet per second for irrigation from June 1 to September 30. Please file the assignment with the application.

Work and proof of completion on said permit must be submitted on or before July 1, 1975. In a telephone conversation with Mr. Fred Eisenbarth, he said that I could apply for an amendment of said permit, should I find the authorized allowance to be excessive to my needs. I intend to make this evaluation during this year and in 1974. Should I submit such an amendment, then he said that I could also ask to be relieved of the special requirement for the installation of an approved water meter. However, request that I be furnished with the list of approved water meters.

Attached as Enclosure 2 is an application for a new water right. The source of water would be the same, however, the primary purpose is to provide domestic water for my household as well as a few head of cattle. I have also applied for an extension of the period for irrigation use to provide irrigation water 2 months before and 15 days after that authorized in permit 98-7025.

Attached as Enclosure 3 is a check for \$10.00, filing fee.

Sincerely,

Nelson M. Warner
