Dear Mr. Hopkins:

Our office acknowledges receipt of Assignment of Permit for the above referenced water right. However, in reviewing the file I find that the Permit has been licensed.

In Idaho, a licensed water right is considered real property and is acquired when the property to which it is appurtenant to is purchased. Proof to owning the property is proof of owning the water right license.

Therefore, I have put the Assignment of Permit into the file for future reference only and no other action will be taken. I have also enclosed a copy of the license for your records.

If you have any questions please feel free to contact our office.

Dear Mr. Guthrie:

One of the conditions of approval of your water Permit No. 98-7048 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before April 1, 1973. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Mr. Guthrie:

Enclosed please find our Department's Beneficial Use form. If you have completed construction of your water system and are putting the water to a beneficial use, then you should submit the enclosed form.

Upon receipt of the Beneficial Use form, an examination will be typed, and a field examiner will make the required inspection of your system. A Water License will then be issued which will record your water right.

We do not know when the inspection will be made, but our examiner will try to contact you at the time he makes the examination so that you may show him the system. Please notify our office if we should contact another party. The inspection will probably be made next year. This will in no way affect the priority of your water right.

If you should have any further questions, please feel free to contact this office.

Dear Sirs,

I am writing to you
in regard to my applica-
tion for permit.

I placed my pump by
creek, which is my source of
water for watering lawn &
garden

I used $\frac{3}{4}$ " plastic hose
to carry water from pump
to sprinkler.

I have recently drained
the pump & covered it so

the cold weather will not damage it. I will start using it again this Spring.

I have enclosed two photos to show use + operation of pump.

What other steps are needed for gaining water rights?
