Dear Mr. Christenson:

We acknowledge receipt of the affidavit submitted as proof of beneficial use of water for the above referenced permit. Enclosed is an Order which removes the measuring device requirement on this permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell during which part of the irrigation season this examination will be made, however, our examiner will try to contact you at the time he makes the exam so that you may show him the system.

If you have any questions concerning the field exam, please contact our District Office in Coeur d'Alene.

Gentlemen:

We request that the requirement for a measuring device be deleted from the above referenced permit. At the present time, we have abandoned the project to irrigate 20 acres and we do not feel that the expense for installing a measuring device is justified for the small amount of water we are using.

Very truly yours,

Dear Mr. Christensen:

One of the conditions of approval of your water Permit No. 98-7027 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before September 1, 1975. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

C Dear Mr. Christenson:

We are herewith returning your personal check in the amount of \$10.00, and your application for permit, as in its present state, we cannot accept it.

O Please note under item 4, that the amount appropriated for domestic use should be listed in cfs, not exceeding .02cfs per single domestic dwelling. You have listed .1cfs for domestic purposes, but have failed to list the number of families to be served under item 8a, 4.

P Under item 9a, you have listed the U. S. Forest Service as owning the property at the point of diversion. If this is the case, we will need a copy of your special-use permit.

As soon as you have made these corrections, and re-submitted the application, we will begin its processing.

If we can be of any assistance in this matter, please feel free to contact us.
