Dear Mr. Wold:

One of the conditions of approval of the above referenced water right permit was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before August 1, 1978. The enclosed affidavit form is the document you must complete and submit as the proof of application of water to beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Mr. Wold:

Enclosed is an application for an extension of time as requested by your June 18, letter. Please complete this form and return it to us before August 1, 1973, so that it can be determined if an extension is justified. An extension can be granted only if work on the project has proceeded with diligence.

Your permit does mention that a pond will be constructed as a part of the diverting works, but if you actually intend to construct a storage facility a new application should be filed. Perhaps before requesting a new permit you should request an extension on your existing permit and wait until a determination is made on the extension.

Our Northern District Office at 401 Front Street in Coeur d'Alene might be able to assist you in locating someone familiar with your type of project.

If you have any questions about these matters, please contact us.

Sincerely,

BOBBY D. FLEENOR
Assistant Director

Re: Permit No. 98-7011

State of Idaho
Department of Water Administration
Boise, Idaho

Dear Sir:

I would like to apply for an extension of time on water Permit No. 98-7011.

This property was just purchased in April and the water project is not completed. An extension of time is needed in order to complete the project.

In the permit there are no figures regarding a storage dam. I feel that a dam is necessary. Must I apply to amend the permit to include the development of a dam?

I certainly would appreciate the name of someone in this area that is familiar with this type project as I have numerous questions regarding proper completion of this water project.

Thank you so much.

Sincerely,

Roy Wold

Dear Mr. Wold:

We are in receipt of the assignment conveying the above referenced permit to you. The assignment has been recorded and the Department's records changed.

One of the conditions of approval of your water Permit No. 98-7011 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before August 1, 1973. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Director
