License of Water Right No. 98-7010 Priority May 29, 1968 Amount 0.13 cfs

THIS IS TO CERTIFY, that JAMES B. FARBER
of Bonnors Ferry, Idaho, has complied with the terms and conditions of Permit
No. 98-7010 issued pursuant to Application for Permit dated May 29, 1968,
and has submitted proof to the Department of Water Resources on July 14, 1969,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 0.13 cfs of water from a drain ditch,
tributary to the Kootenai River, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
<u>Irrigation</u>	from <u>May 1</u> to <u>Oct. 15</u>	at <u>0.13</u> cfs and	<u>33 acre feet or</u> <u>3.0 af per acre</u>
	from _____ to _____	at _____ cfs and	
	from _____ to _____	at _____ cfs and	

(both dates inclusive)

Subject, however, to the condition that no more than 0.13 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
33 acre feet per year, said waters to be diverted within the NW $\frac{1}{4}$ SW $\frac{1}{4}$ of Sec. 23,

Re: License No. 98-7010

Mr. Edward Jennings
Box 245 - 127 West Madison
Bonners Ferry, Idaho 83805

Dear Mr. Jennings:

On August 22, 1975, this office received an assignment of permit No. 98-7010 executed by Mr. & Mrs. James B. Farber. As the assignment was not received in time for recording prior to issuance of the license, the license was issued in the name of James B. Farber.

We wish to advise you that the Department has no procedure for changing the records of ownership once a permit has been licensed. When a license is issued, it becomes appurtenant to the land and ownership is automatically conveyed with the land unless it is specifically withheld in the sale transaction.

We will, however, place the assignment in our file for future reference as to present ownership. Enclosed is a copy of the license and assignment for your records.

Sincerely,

D. Darlene Reich
Water Rights Supervisor

Mr. James B. Farber
Box 548, Route 1
Bonners Ferry, Idaho 83805

Dear Mr. Farber:

A representative of this Department has made an examination of the works covered by your Permit No. 98-7010 and has found the following:

Quantity of water diverted: 0.13 cfs Source: drain ditch

Amount of water that can be recognized as beneficially used under
Idaho law: 0.13 cfs

The maximum quantity diverted shall not exceed 33 acre feet per year.

Point of diversion: NW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 23, Twp. 62 N, Rge. 1 E, B. M.

Beneficial use: Irrigation of 11 acres within the NE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 23,
Twp. 62 N, Rge. 1 E, B. M.

Priority date established: May 29, 1968

If you do not concur with these findings please contact us within 15 days, otherwise a water license will be issued as set forth above.

We have taken the liberty of enclosing an assignment form in the event you wish to assign this permit to the new owner before the license is issued. If this is the case, please complete and return the assignment to this office within the 15-day period.

Dear Mr. Farber:

Enclosed please find an order removing the requirement of a measuring device for the above referenced permit.

We acknowledge receipt of your affidavit submitted as proof of beneficial use for permit 98-7010.

Before a license can be issued a field examination must be made by a representative from this Department.

We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the examination so that you may show him the system. If someone other than yourself should be contacted by the examiner, please advise.

Very truly yours,

C. STEPHEN ALLRED, Assistant

BEFORE THE STATE RECLAMATION ENGINEER
OF THE
STATE OF IDAHO

IN THE MATTER OF REMOVAL OF THE MEASURING)
DEVICE REQUIREMENT FOR PERMIT NO. 98-7010) ORDER
in the name of JAMES B. FARBER)

WHEREAS, on May 29, 1968, James B. Farber applied to the Department of Reclamation for a permit to appropriate .15 cubic feet per second of water from an unnamed drain, tributary of Kootenai River, to be diverted in the NW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 23, T. 62N, R. 1E, B.M., Boundary County, State of Idaho, to be used for irrigation from May 1 to October 15 in the NE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 23, T. 62N, R. 1E, B.M.; and,

WHEREAS, on July 23, 1968, the Department of Reclamation approved said application and issued Permit No. 98-7010 with the requirements that proof of construction of works and application of the water to beneficial use be submitted to the Department of Reclamation on or before August 1, 1969, and the applicant permanently install a measuring device of a type approved by the Department of Reclamation as part of the diverting works; and,

WHEREAS, on July 14, 1969, the Department of Reclamation received the required proof of construction of works and application of the water to beneficial use; and,

WHEREAS, on August 13, 1969, the Department of Reclamation was requested to remove the requirement of a permanently installed measuring device; and,

WHEREAS, it has been demonstrated to the satisfaction of the Department of Reclamation that a measuring device is not required for the purpose under this application at this time;

THEREFORE, IT IS HEREBY ORDERED that the condition of approval that the applicant shall permanently install a measuring device of a type approved by the Department of Reclamation as part of the diverting works is hereby REMOVED from Permit No. 98-7010.

Dated this 27th day of Aug., 1969.

R.E. Permit # 98-

RECEIVED

AUG 13 1969

Department of Reclamation

Dear Sirs:

I don't feel that the measuring device is necessary on my system and I would like to petition the State Reclamation Engineer for the removal of that requirement from the permit. My reasons for making this petition are as follows.

- 1) My land is on the edge of a drainage area called district #2. In this district the water is pumped from the drainage ditch over the dyke and had into the river. This all costs money and the costs are shared by everyone in the district. Since my pump has been in operation the district pumps have been used only during high water.

98-7010

2) At **all** times of the ^{year} except during high water, my pump pumps faster than the ditch fills! About every six days the pump shuts itself off and remains off for 24 hours, so that the ditch can refill. In other words we use all the water and if we didn't use it the ditch would have to pump it into the river or risk flooding their fields. The measuring device would be an extra expense for me and I don't think it would serve any purpose in this situation.

Thank you,
Jim Farber

Dear Mr. Farber:

Thank you for your letter of July 27, 1969, regarding a measuring device under Permit No. 98-7010. The requirement of a measuring device was placed upon your permit at the time of approval, and the only way that we can license the permit is if all the requirements of the permit have been satisfied. This would mean that you would have to install a permanent measuring device of a type approved by the department.

In the event that you feel that one is not needed on your system due to your particular circumstances, you could petition the State Reclamation Engineer for the removal of that requirement from the permit. This petition should set forth specific reasons why you feel such a device is not needed and any other pertinent information which you feel would warrant the removal of the measuring device condition.

Very truly yours,

Dear Sir;

Your letter of July 15 asked what would be the best way to measure the flow of water from the Sprinkler system. For me, the easiest method is to use a 55 gallon still drum with an open head, divert the flow from the pipe into the barrell and use a stopwatch for timing the seconds it takes to fill. Then, compute it to gallons per minute.

Would this method be satisfactory with you?

Thank you

Dear Mr. Barber:

This office is in receipt of your affidavit setting forth proof of application of water to beneficial use under Permit No. 98-7010. You have stated that you have not installed a measuring device as required under your permit. As you may be aware, before we can issue a license, we are required by law to conduct an inspection to determine the amount of beneficial use that has been made under the permit. To accomplish this, we would require the use of the measuring device set forth under the terms of your permit.

In the event that we were to make the inspection, and the measuring device was not installed, our probable course would be to deny the proof of application of water to beneficial use and the permit would lapse.

I would appreciate hearing from you as soon as possible as to your intentions regarding the installation of a measuring device. Please indicate what type and when you intend to install that device.

If you have any questions, please contact this office.

Very truly yours,

Dear Mr. Farber:

One of the conditions of the approval of your permit
98-7010 was that proof of application of the water to
beneficial use be submitted to this office on or before _____
August 1, 1969.

Enclosed is an affidavit form which must be used to submit
this proof. You may request an extension of time provided the
delay is for reasonable cause as indicated in Section 42-204, ICA.

Either the proof or a request for extension must be received
by this department on or before the above mentioned date, otherwise
the permit will lapse and be of no further force or effect.
