Dear Miss Peterson:

Before the Department of Reclamation can take final action on your application for permit, the department will need some additional information.

Inasmuch as you have requested water in excess of the maximum allowable under the Idaho Code, the department requests that you supply a letter requesting water in excess of 1/50 cubic foot per second per irrigated acre, as it would be difficult to irrigate the eleven acres in question with water less than the 0.25 c.f.s. requested in your application.

Your prompt attention to this matter is appreciated.
