Route #1, Box 526
Bonners Ferry, ID 83805

Dear Mr. Holdeman:

An Application for Permit must be filed to develop a legal water right on any water diverted from a ground water source after March 25, 1963 (excepting a well drilled for a single household). Any surface water diverted after May 20, 1971, must also be preceded by an approved permit from this Department. The above includes proposed new systems and enlargements of existing systems for development of larger quantities of water (Section 42-201 through Section 42-229, Idaho Code).

Existing water rights developed through diversion and application of water to a beneficial use prior to the above dates, may be recorded by filing a Claim to a Water Right with our Department; however, it is not mandatory to do so (Section 42-225b, Idaho Code).

We have enclosed an Application for Permit form and also a Claim to a Water Right form for your use. Please complete the necessary form and return it to our office along with the required filing fee.

If we may be of any further assistance, feel free to contact us.

Dept. of Water Administration
Dear Sirs,

We are advised that we should fill out forms obtainable from your office in order to be sure of our rights to continue to use water from these springs. We have purchased this land from Park River Properties Inc. There is an agreement about us having the right to use these springs & it reads as follows: "There is also conveyed herewith to the purchasers the right to use spring waters arising on land retained by the sellers as the same now exist and are being used for domestic purposes of the home site located on the above described land, and an easement for repair & maintenance of said existing water lines." The description of the property is "All that part of Govt Unit 27 in the West half of Section 33, Township 62 North, Range 2 East of the Boise Meridian, less Tract No. 1".

We are buying 60 acres with the home site & buildings plus an option on the rest of the farming land.

These springs were developed by Ray Gibbons, the former owner, for his use at this home site. Douglas Christenson owns a piece of the property & has a right to use spring waters from one spring source. ~~The other~~ ^{the other} spring source is joined to the ~~spring~~ line connected with the spring Doug Christenson has a right to & then the line ^{that} comes to our buildings. The owner developed

the springs no doubt had first right to use the spring water but sold the property to Park River & then Park River conveyed the rights to us.

Please advise us & send us the proper forms. We enclose a self-addressed stamped envelope for reply. Thank You
very much

Sincerely

Laurence & Ruth Holdeman
