RE: Water Right License No. 98-7072

Vala Nestle
6270 Aldrich Rd.
Ferndale, WA 98248

Dear Mrs. Nestle:

Pursuant to a telephone conversation with your daughter this afternoon, enclosed please find a copy of the water right license that we have listed in your name. In reviewing the water right file, I find that we have corresponded with Mr. James F. Lyons in regard to a sale of the water right license and Claim No. 98-4014 (copy also enclosed) to Thomas & Mary Mackey and Jack W. & Judith E. Gustavel. We have received a copy of an "Amended Mortgage" in which you have sold these water rights to the above mentioned parties. However, since the water rights include a "License" and a "Claim" we have not changed our records to show the current owners. Water rights of the above nature are appurtenant to the land for which they were issued and whomever owns the lands, owns the water rights, unless they were specifically withheld during the sale of the property. In this case, you included the water rights in the sale of the property so they are actually the property of the Mackeys and Gustavels at this time.

If you have any questions in regard to this matter, please feel free to contact either our office, or our regional office in Coeur d'Alene.

Sincerely,

KAY WALKER

Dear Ladies & Gentlemen:

We acknowledge receipt of a copy of Warranty Deed and Amended Mortgage involving the above referenced water rights.

In reviewing these files, we find that they are in good standing with our Department. In Idaho, water right claims and licenses are considered real property and are acquired when the property to which they are appurtenant is purchased. Proof of owning the property is proof of owning these types of water rights.

Therefore, we have put copies of the Warranty Deed and Amended Mortgage into the files for future reference only and no other action will be taken. We have enclosed copies of the water rights for your records.

If you have any questions, please feel free to contact our office.

Re: 98-4014 and 98-7072

Dear Mr. Lyons:

This Department does not confirm "Constitutional" water rights which are evidenced by the filing of a claim. It is not necessary, therefore, that the claim be proven within a certain time frame, as is the case with a permit. A claim is, however, an assertion to a water right which is open to challenge, so the claimant, or his successor in interest, should provide additional evidence in support of the claim. This evidence, to be of any value, must be of such a nature as to be admissible in court.

The statutes do not provide the Department with a means to change the name on either a license or a claim, since the rights evidenced by these filings are real property and appertinent to the lands described thereon. These rights are transferred with the sale of said property, unless specifically withheld by the grantor. We do, of course, keep a record of all correspondence concerning these rights in their respective files.

I hope with this letter I have clarified the status of the claim and license. If I can be of further assistance, please do not hesitate to contact me at this office.

Sincerely,

Dear Ms. Martin:

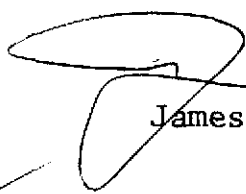

Thank you for your letter of October 19. I am extremely concerned that Water Resources be put on written notice of the transfer of the license and the claim.

I believe that a letter from Jack should take care of this.

The claim could well be ready to expire unless the work to prove it is completed.

By this letter, I am requesting that Water Resources notify both of us as to the expiration date for completion of the claim.
