STATE OF IDAHO
DEPARTMENT OF RECLAMATION
CLAIM TO A WATER RIGHT

Established by Diversion and Application to Beneficial Use

Under the provisions of Section 42-225a, Idaho Code, a person may file a claim to a right to use water which has been established by diversion and application to beneficial use. **The filing of this claim does not confirm the water right but will serve for information purposes only.** It may, however, become the basis for future adjudication of the water right by the Court.

(Please refer to the instructions on the back of this form)

1. Name of claimant Leslie R. Wyman
post office address Naples, Idaho
2. The point of diversion is in SE $\frac{1}{4}$ of NE $\frac{1}{4}$ Section 9 Township 60 N.
Range 1 W B.M. located on Fall Creek
(name of source)
tributary to Deep Creek in Boundary County.

3. Dates of priority claimed: list the priority for each separate quantity that you claim. Priority dates should be based upon the earliest diversion of the water which has resulted in continued beneficial use since that time. If there has been an interval of five years or greater when the water was not beneficially used for the same purpose as originally appropriated, the priority that you claim should date from the time that the water was again beneficially applied following the period of non-use.

a. Date of priority claimed:

May 13, 1910 amount 24 c.f.s. or _____ acre feet
_____ amount: _____ c.f.s. or _____ acre feet
_____ amount: _____ c.f.s. or _____ acre feet
Total claimed _____ c.f.s. or _____ acre feet.

- b. Explain the purpose for which the water has been used and the time during the year when you have used the right claimed: irrigation

use domestic & period of use from June 1 to Nov. 15 (both dates inclusive)
use stock water period of use from Jan. 1 to Dec. 31 (both dates inclusive)
use _____ period of use from _____ to _____ (both dates inclusive)
use _____ period of use from _____ to _____ (both dates inclusive).

4. Description of diverting works:

a. Surface water diversion dam and/or headgate: material is composed of Steel
headgate 14' diameter; length is _____ feet; height is _____ feet;
width at bottom is _____ feet; with at top is _____ feet; explain any increase in diversion capacity since structure was first built, giving dates and estimated capacities if known _____
No dam, original dam washed out.

b. Underground water diverting works: is well flowing or pumped _____; depth of well is _____ feet; diameter of well is _____ inches; type of pump is _____
capacity of pump is _____ g.p.m.; name and address of well driller is _____

Where water is used for irrigation, describe area irrigated by 40-acre subdivisions and give total acres:

[illegible]

65 Total number of acres to be irrigated

Explain any significant increase in area irrigated since first use, give dates and acreages if known.

b. Do you get water through a ditch owned by several users? complete ownership If yes, give the name of the ditch complete ownership. The other users and their respective interests in the ditch are (if known) _____

6. Where water is used for stock watering, give number of each kind of stock watered 165 head

7. Where water is used for domestic or municipal purposes give number of families served two families
name of town supplied _____

8. Where water is used for other purposes not above enumerated, give the nature of use, the extent of use, and any details regarding the initiation of the right or subsequent later expansion. Be as specific as possible, giving dates and quantities Fishing, swimming and recreation in stock water pond described above.

9. Remarks: please explain any details of your claim which you feel need clarification or additional explanation
An application for water permit was made by the Kootenai Orchards Company on May 13, 1910 for 24 c.f.s. The Kootenai Orchards Co. at that time owned all of the tracts of land shown on the attached map. The land was divided into mostly 10 acre tracts and the plat was recorded in Boundary Co. as
Plats at p. 65. Certain extensions were

No. 9 - Remarks (continued)

creek to obtain about 6' additional fall. The old ditch and pipe line on the ranch have been in continuous use since that time. I also built a stock pond in 1950 covering an area of approximately 5 acres and have used it continuously since that time. I have developed this ranch mainly as a hay and cattle ranch and have been running up to 165 head of cattle. It is my intention to make proof on the water that I have been using, consisting of approximately 2 second feet, and then make application for approximately 4 additional feet to irrigate. Most of the plated area with sprinkler irrigation since the land is such that it is not practical to irrigate by flooding.

Kootenai Orchards, in Book 1 of Plats at p. 65. Certain extensions were granted by the St. of Idaho and the Koot. Orchard Co. made Proof of Completion of Work in 1922. The original diversion system consisted of a diversion dam at the present location on Fall Creek with several miles of ditch and flume. I bought a portion of this land in 1925 and have gradually increased my holdings until at the present time I own the entire Koot. Orch. tract, together with other adjoining land. When I moved onto this land I tried irrigation and used the old flume and ditch which was in very poor condition. I used the water for stock water and irrigated about 15 acres. In 1930 about 335 acres of this land was owned by the Fed. Land Bank; 100 acres was owned by Z.A. MacArthur; 60 acres owned by the State Land Dept., which I had under lease at that time. We got together and built a new flume, 30" wide and 24" deep. The water was divided 1/3 for Sects. 16 and 21 and 2/3 on the E. side of the County Road in Sects. 15 and 22. The water was used to fill ponds on the place for stock water, irrigation and for flood irrigation of about 65 acres. In 1950 the flume from the diversion was again replaced with about 550' of 12' pipe reduced to 600' of 10" pipe. The pipe was extended about 100' up the

INSTRUCTIONS

Your claim should set forth all necessary information to describe your claimed right. Failure to give enough information may make your claim of little value. Some of the items in the form may not apply to your situation. Please use additional sheets if space provided is not sufficient to fully answer the questions.

Paragraph No.

1. Give full name and post office address of person or company making the claim.
2. Describe the point of diversion by 40-acre subdivision. Give the name of the source, the drainage to which it is tributary if surface water, and the county in which the point of diversion is located. If there is more than one point of diversion, list others in the remarks section.
3. Give the priority dates and the quantities of water that you claim. You should accurately list the dates that you initiated each new use of the water. List separately the dates and amounts of water involved in each enlargement of the diversion. (Example: if you diverted 0.8 c.f.s. of water for irrigation on May 18, 1871, for the first time for use on 40 acres of land, and then later you enlarged the diversion by diverting an additional 0.4 c.f.s. of water to irrigate an additional 20 acres of land on June 1, 1901, your right should be described as follows:

Date of priority claimed:		May 18, 1871	amount:	0.8 c.f.s. or	acre feet
		June 1, 1901	amount:	0.4 c.f.s. or	acre feet
Total claimed:		1.2 c.f.s. or			acre feet

Since the water was used for irrigation between April 1 and October 31 on that particular farm, part b. would be completed as follows:

use irrigation period of use from April 1 to October 31 (both dates inclusive). If the water had been used for any other purpose, you would have described the priority date, amount, use, and period of use in a similar manner.

4. Describe the diversion works and explain any changes since the right was first initiated.
5. If the water is used for irrigation, give the total acreage and list the lands irrigated by 40-acre subdivisions and complete the other questions.
- 6, 7, & 8. Describe any other uses of water.
9. In the remarks section, give any information or details that you feel are not fully covered or that need clarifying. You might explain your operation, where the water is returned to if for an industrial or non-consumptive right, the condition and temperature of the returned water, and any other information to help explain your claim.

You may wish to include as a part of your claim, affidavits of witnesses who are familiar with your right and who have a personal knowledge of the circumstances which you have described in your claim. You may submit maps, drawings, certified copies of posted notices which may have been filed in the county courthouse, water measurement records, or any other document which you feel will support your claim.

Your claim will be advertised in a county newspaper for two weeks. Exceptions to your claim which dispute the water right that you have described may be received by the Department of Reclamation and you will be provided a copy of such exceptions.

The fee for filing this claim with the Department of Reclamation, Room 107, Statehouse, Boise, Idaho 83701, is \$10.00.

Re: 98-04001 Exception

Dear Mr. Bace:

I have received your correspondence of October 9, 1991 and will place your letter in the above referenced file. For your letter to be considered as an exception you must follow the steps I outlined on the telephone.

An exception must be filed in accordance with Idaho State Code 42-244. Which states in part "... At any time after the filing of a claim under the previous section, any person who disagrees that a right has been established as set forth in said claim may file an exception thereto in duplicate, in affidavit form, accompanied by such proof as said person deems as appropriate. An exception filed shall be made a part of the file of the claim in the department of water resources and shall be considered the same as other evidence in said file. A copy of an exception filed shall be forwarded to the claimant by the department of water resources. Such claims may be corrected by the claimant only by filing of an amended claim in the same form as the original, which shall be recorded and numbered by the department the same as the original, and for which no additional filing fees shall be required."

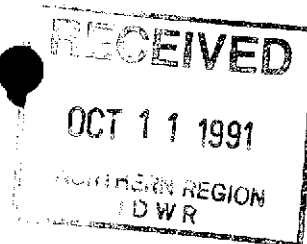

If you have any questions or if I can be of any assistance please feel free to contact me at this office.

Sincerely,

Tom D. King
Sr. Water Resource Agent

RE: Protest of Claim To A Water Right #98-4001 (SE 1/4, NE 1/4, Sec 9, T60N, R1W)

Dear Mr. King:

I would like to protest the above water claim to a water right on the following grounds:

1. Wyman did not have complete ownership of lands crossed as stated in claim.
2. There is total inconsistency in water usage as per same document dated 1968.
3. Waters have not been used for purpose described nor have volumes been used.
4. There is nothing of record to prove the claim.
5. There are many people that would be affected should waters be removed from this stream and not returned to Fall Creek.
6. It could have a severe ecological impact on the Fall Creek stream if such a permit were allowed or approved.

I would appreciate this letter being filed as a protest and hopefully voiding the above claim due to false statements as well as waters, volumes or any part used for the purpose described in said claim.

I would appreciate your review of this matter and would like to be advised of your conclusions, since I am a land owner on the lands being affected.

Sincerely,

Jim L. Bace
