RE: Permit No. 27407

John Hugh Hansen
Moyie Springs, Idaho

Dear Mr. Hansen:

Our field engineer's report on his inspection of the application of water to beneficial use under the terms of Permit No. 27407 shows that the works is capable of conveying 50 miner's inches (1.0 c.f.s.) of water for irrigation of 60 acres.

Upon receipt of the statutory fee, \$6.00 at the rate of \$2.00 for each 40-acre subdivision, we will issue the License and Certificate of Water Right, confirming the right with priority of May 8, 1958, to the use of 1.0 second foot of water from Curley Creek, a tributary of the Kootenai River, with point of diversion in Lot 5, Section 27, for irrigation of 60 acres in Lots 4, 5, SW $\frac{1}{4}$ NE $\frac{1}{4}$, NW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 27, Township 62N., Range 3E.B.M.

Record of permit shows the point of diversion to be in the East, West center line of the NE $\frac{1}{4}$ of Section 27. Complete the enclosed amendment to the point of diversion and return it with the above-mentioned fee.

Dear Mr. Hansen:

Statutes requires a field inspection in connection with the proofs on Permit # 27407 before license and certificate of water right can be issued.

Such inspection and report on same is required for any and all permits being brought to license within this State.

An inspecting Engineer from this Department requests that you or someone familiar with the terms of the permit and representing you be prepared to accompany him on the inspection, on Thursday, in the morning of July 30, 1959.

If he cannot get in touch with you by phone or otherwise he will drive to the well location or point of diversion given in the permit.

Dear Mrs. Rutledge:

Enclosed please find the Affidavit of Publication, Deposition Holder, and Depositions of two witnesses in the above matter.

Note should also be made of the fact that Mr. Herb Sanderson of the firm McNaughton and Sanderson, Attorneys at Law, Wiggett Building, Coeur d' Alene, Idaho appeared on behalf of Mr. Joseph Rosenkrans who also appeared personally, with his wife and through their attorney and personally objected to the method of diversion on the grounds that it artificially raised the creek level to Rosenkrans injury. Mr. Rosenkrans is the immediate adjacent upstream landowner. The claim was denied by the permit holder. Mr. Sanderson specifically requested that a record of his objection be made which is done by this letter.

Dear Mr. Wilson:

This acknowledges the Notice of Proof of Application of Water to Beneficial Use under Permit No. 27407, in the name of John Hugh Hansen. Final proof is to be made before you, as Notary, on the 5th day of November, 1958, at Bonners Ferry, Idaho.

As of this date we have mailed the Notice to the Bonners Ferry Herald, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then to mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by the permit holder and his two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the time, on the date and before you, as Notary, as stated in the publication notice. It is very important and necessary that each question be answered in detail.

In returning the depositions to the office, be sure that all copies have been signed, that your Notary's seal has been placed on each and that all depositions (Holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Dear Mr. Wilson:

Enclosed is the Certificate of Completion of Works issued under Permit No. 27407 for the diversion of 1 second foot of water from Curley Creek, with point of diversion in the NE $\frac{1}{4}$ of Section 27, for irrigation of 143.45 acres in the SW $\frac{1}{4}$ NE $\frac{1}{4}$, NW $\frac{1}{4}$ SE $\frac{1}{4}$, Lots 4, 5, and 10, Section 27, Township 62 North, Range 3 East of Boise Meridian.

Note that although the permit was approved to include the land in Montana, said land is not included under land proposed to be irrigated in the Certificate of Completion of Works. When beneficial use proof is made it will be necessary to only prove proof of beneficial use in Idaho, as the State of Idaho, Department of Reclamation does not have authority to license water rights for use upon lands in Montana.

Enclosed also is departmental receipt #29272 for \$5.00, issued as receipt of fee for the Certificate of Completion of Works.

Attention: Peter B. Wilson

Dear Mr. Wilson:

This will acknowledge receipt of your letter of July 31, 1958, requesting forms for making Proof of Completion of Works and Application of Water to Beneficial Use, under Permit No. 27407, in the name of John Hugh Hansen.

We enclose Form 6 to be filled in and sworn to by the permit holder before a Notary Public, and returned to this department. Upon receipt of this affidavit, provided same shows the completion of works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion of Works will be issued.

We enclose Form 10, in duplicate, which is to be filled in and returned to this department. This form, in duplicate, is to include the time of day, the date (allowing for four weeks publication), the name of the town, the address of the Notary Public before whom he will appear to make the depositions of proof (this may be any place that is convenient for him and his two witnesses), the quantity of water, for what purpose it is used, the point or points of diversion and the location of use or lands which are irrigated -- by 40 acre legal land description. Descriptions should be taken from the permit, including any amendments thereto, as recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before the Notice is published.

Also enclosed is Form 11, which is the authorization for us to have the Notice published in the designated county newspaper, at your expense. This is to be returned with Forms 10.

At the time we send the notice to the newspaper, we will send to you the forms for the deposition of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set and at the place named, before the Notary Public, as advertised in the publication notice.

Very truly yours,

GEO. N. CARTER

Attention: Mr. Peter B. Wilson

Dear Mr. Wilson:

We are returning herewith, Application for Permit, received with your letter of May 7, 1958, Applicant - John Hugh Hansen, for correction.

It is not clear to us as to the number of acres and legal description of same to which the applicant wishes to apply the water from Curley Creek. Under Question (14) you state Lot 4 and 5 and 10. We wish that you would show on the sketch-map the location of these lots, also the total acreage to be irrigated under each lot or any other designated parcel of land.

This department can fill out Question (14) providing you show on the sketch-map, by legal land description, the land to be irrigated. Please correct and return to this department.

We are returning Marjorie C. Guthrie's check to the amount of \$5.00, which can be returned with the corrected application.

Very truly yours,

MARK R. KULP
