

**NOTICE OF EXISTING
WATER PERMIT**

Notice is hereby given that Skin Creek Water Assn., Box 368, Bonners Ferry, Idaho, has received an approved Permit No. 32327/98-2128 issued by the Idaho Department of Water Administration authorizing the diversion of 0.06 cubic feet per second of water from Skin Creek, tributary to the Moyie River. The priority to be established under this permit is April 11, 1966 and the permit was approved April 12, 1966.

Water is to be diverted by pipeline from a point near the line common to NW $\frac{1}{4}$ NW $\frac{1}{4}$ Sec. 32 and SW $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 29, T. 63N, R. 3E, B. M., Boundary County, to be used for domestic purposes.

Proof of the application of the water to beneficial use is to be submitted to the Department on or before April 12, 1972. Any protests against the issuance of the license for the above referenced permit should be filed with the Idaho Department of Water Administration within ten (10) days of the last date of publication of this notice or prior to the licensing of the permit. Licensing may commence prior to the date beneficial use proof is due without further notice.

D. DIVERSION AND FILTERING

Water will be diverted from Skin Creek by a permanent diversion structure and piped to a streamside filter. The filter shall consist of a concrete or masonry, gravity-type, slow sand filter with integral storage reservoir designed to help reduce the filter size and provide standby water supply during cleaning operations. The structure shall be covered. It is tentatively proposed to pipe the water by gravity from the filter to the first service connection a distance of approximately $2\frac{1}{2}$ miles at which point chlorination equipment would be installed.

E. DISTRIBUTION SYSTEM

The distribution system shall consist of cement asbestos or P.V.C. Rigid Plastic pipe lines, or a combination of both. The vast variation of elevation between the points to be served makes the design of this system very critical. There are several residences which are marginal due to location. In one case auxilliary pumping will be required to provide service. In this case it will be assumed that the system will deliver water to a small reservoir by gravity and leave the responsibility for booster pumping to the owner if interested.

Pressure regulating devices will be required at several locations to reduce excessive static pressures. / 1

IN THE MATTER OF PERMIT NO. 32827/98-2128)
in the name of SKIN CREEK WATER)
ASSOCIATION)

ORDER MODIFYING REQUIREMENTS
FOR COMPLETION OF PERMIT TO
APPROPRIATE WATER

WHEREAS, the 39th Idaho Legislature made certain amendments to the Idaho Water Law; and,

WHEREAS, these changes raised questions as to the procedures to be followed by holders of permits issued prior to the effective date of the amendments, May 31, 1967; and,

WHEREAS, on August 1, 1968, the Department of Water Administration adopted Rules of Practice and Procedure for the processing of such permits issued prior to May 31, 1967; and,

WHEREAS, Permit No. 32827 was issued previous to that date;

NOW THEREFORE, the requirements for completion of the above numbered permit are hereby modified to conform to the adopted Rules of Practice and Procedure as follows:

1. The above numbered permit will be completed under the terms of Title 42, Chapter 2, Idaho Code, as amended by the 39th Idaho Legislature.
2. The conditions of the above numbered permit are modified as follows:
 - a. Notice of the issuance of the permit will be published at the permit holders expense for two weekly issues in the official newspaper of the county in which the point of diversion lies.
 - b. The permittee will not be required to submit proof of completion of works as originally specified, but will be required to submit proof to the Department of Water Administration of the application of the water to beneficial use on or before April 12, 1972. The permit holder should be aware that failure to complete one-fifth (1/5) of the works within one-half (1/2) of the time originally set for completion of works may be grounds for cancellation at the instance of the Department.

Dated this 3 day of November, 1970.

Dear Mr. Ballou:

I am answering herewith your letter of September 25, 1972, to the Skin Creek Water Association, Inc., of Moyie Springs, Idaho all in reference to a map of the boundaries of said association.

While the Association itself does not have definite established boundaries, we have sketched on the enclosed application forms the approximate location of water lines, diversion, storage tank etc., and have also indicated a boundary line which would encompass all facilities owned and operated by the Skin Creek Water Association.

This is strictly a domestic water system. However, there is undoubtedly a considerable amount of property enclosed within the indicated boundaries which are not actually served by the system. At present the Association has approximately 50 members receiving water for household and small yard and garden irrigation.

I hope this will provide sufficient information for the purpose of your letter request. If more is required, please advise this office.

Very truly yours,

K. A. DURTSCHI, P. E.

Gentlemen:

Before we can complete the field examination and issue a water license, we will need the following information:

1. A map showing the boundaries of the Water Association district.
2. A list by quarter of the number of acres within the boundaries.

If you do not have this information available, we have enclosed blank forms for your use. If you should have any questions, please feel free to contact this office.

Re Permit #32827/95-2128

Dear Sirs:

Will you please send us
the form which we are to fill in
regarding the amount of water our
association uses from our source
(Skin Creek) in the year 1971. You
sent me one before but sorry
I have misplaced it.

Thank you
Yours truly

Skin Creek Water Association
F. T. Struble, Sec-Treas.
Moyie Springs, Idaho 83845

Gentlemen:

In answer to your letter of January 25th, please find enclosed a proof of application of water to beneficial use affidavit.

Proof of beneficial use is not required for the above referenced permit until April 12, 1972; however, you may submit proof at anytime prior to that date.

If we may be of further assistance, please contact us.

Very truly yours,

Donald W. McEldowney
Appropriation Supervisor

ATTN: E. M. Billingsley, Pres.

Dear Mr. Billingsley:

We acknowledge receipt of the affidavit of publication submitted in connection with the above referenced permit.

Since proof of beneficial use of the water is not required until April 12, 1972, the Department will notify you sixty days in advance of this date as to further requirements. We wish to advise you, however, that if you have fulfilled the requirements under the permit you may submit proof any time prior to the above date.

Very truly yours,

Donald W. McEldowney
Appropriation Supervisor

The Bonners Ferry Herald
212 Main Street
Bonners Ferry, Idaho 83805

Gentlemen:

Enclosed is a legal notice which we wish to have published for two consecutive weekly issues of your newspaper. We have inserted the publication dates, allowing ample time for you to submit to us a galley proof for our review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted, assuming the notice is correct. If we have any corrections, we will notify you before the first publication date. If you cannot publish the notice on the proposed dates, please contact the Department of Water Administration immediately.

The expense of the publication is to be paid by E. M. Billingsley, Moyie Springs, Idaho, to whom you should furnish an affidavit of publication.

Very truly yours,

Donald W. McEldowney
Appropriation Supervisor

NOTICE OF EXISTING WATER PERMIT

Notice is hereby given that Skin Creek Water Assn., Box 368, Bonners Ferry, Idaho, has received an approved Permit No. 32827/98-2128 issued by the Idaho Department of Water Administration authorizing the diversion ~~storage~~ of 0.06 cubic feet per second ~~at the head~~ ~~per/minute~~ of water from Skin Creek, tributary to the Moyie River. The priority to be established under this permit is April 11, 1966 and the permit was approved April 12, 1966.

Water is to be diverted by pipeline from a point ~~within the~~ near the line common to NW $\frac{1}{4}$ NW $\frac{1}{4}$ Sec. 32 and SW $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 29, T. 63N, R. 3E, B.M., Boundary County, to be used for domestic purposes. in the

Proof of the application of the water to beneficial use is to be submitted to the Department on or before April 12, 1972. Any protests against the issuance of the license for the above referenced permit should be filed with the Idaho Department of Water Administration within ten (10) days of the last date of publication of this notice or prior to the licensing of the permit. Licensing may commence prior to the date beneficial use proof is due without further notice.

R. KEITH HIGGINSON, Director
Idaho Dept. of Water Administration
STATEHOUSE, Boise, Idaho

Published in the Bonnors Ferry Herald, Bonners Ferry, Idaho, on December 3, and December 10, 1970.

Permit No. 98-2128

Director:

You are hereby authorized to have the above notice published at ~~my~~ ^{our} expense in the Bonnors Ferry Herald of Bonnors Ferry, Idaho; published in the county in which the works are situated.

Re: Permit No. 32827 (New No. 98-2128)
Skin Creek Water Association

Nixon and Nixon
P.O. Box 368
Bonners Ferry, Idaho 83805

Gentlemen:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department; previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply them upon request at any time.

Very truly yours,

Donald W. McEldowney
Appropriation Supervisor

D. DIVERSION AND FILTERING

Water will be diverted from Skin Creek by a permanent diversion structure and piped to a streamside filter. The filter shall consist of a concrete or masonry, gravity-type, slow sand filter with integral storage reservoir designed to help reduce the filter size and provide standby water supply during cleaning operations. The structure shall be covered. It is tentatively proposed to pipe the water by gravity from the filter to the first service connection a distance of approximately $2\frac{1}{2}$ miles at which point chlorination equipment would be installed.

E. DISTRIBUTION SYSTEM

The distribution system shall consist of cement asbestos or P.V.C. Rigid Plastic pipe lines, or a combination of both. The vast variation of elevation between the points to be served makes the design of this system very critical. There are several residences which are marginal due to location. In one case auxilliary pumping will be required to provide service. In this case it will be assumed that the system will deliver water to a small reservoir by gravity and leave the responsibility for booster pumping to the owner if interested. Pressure regulating devices will be required at several locations to reduce excessive static pressures. / 1
