Dear Mr. Hauck:

Enclosed you will find that we are returning your check #112 in the amount of \$5.00.

Please find enclosed a copy of the order which was forwarded to you on July 1st of this year which relieves the requirement of submitting proof of completion of works. You will note that proof of beneficial use is not due until September 8, 1975; however, we are enclosing a proof form for your use in case you wish to submit proof of beneficial use at this time.

As of this date we have not yet received the affidavit of publication to be submitted in connection with the above referenced permit. As many newspapers do not keep copies of these advertisements in their files, we recommend that you obtain this affidavit from the Bonners Ferry Herald, Bonners Ferry, Idaho, and submit it to the Department as soon as possible. This insures that when you are ready to submit proof of beneficial use there will be no unnecessary delay or added expense.

Very truly yours,

Donald W. McEldowney

Re: Permit No. 32049

Hall Mountain Water Association, Inc.
Copeland,
Idaho

Gentlemen:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department, stating that you have been issued a permit ~~which is subject to the provisions of the Idaho Water Code~~. Previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply it upon request at any time.

Very truly yours,

Donald W. McEldowney

Dear Mr. Houck:

Returned herewith is the application for permit to divert water from a spring which was received without the \$5.00 filing fee, see page 4 .

I have enclosed two sketch maps showing the old system and made a few changes or additions.

We must have the spring location under 4 showing the 40 acre subdivision. Also complete the two sketch maps showing location of the spring and connection to the old system.

I hope this spring will furnish the water you need, without failure in the future. Best wishes to you and all the rest of the gang.
