RE: Permit 31327

Mr. Willis C. Wallen
P. O. Box 12
Copeland, Idaho

Dear Mr. Wallen:

Your Proof of Application of Water to Beneficial use and Completion of Work has been received by this department. However, upon checking your Permit 31327, we find a difference in location of the source of the water supply. Also the application does not give the location of the place of use. The notice as published in the BONNERS FERRY HERALD has the source and use location as stated on your Permit, or in Section 9. The proofs show Point of Diversion in Section 8.

If you have changed the point of diversion to Section 8, an amendment is necessary.

This requires that the proofs are readvertized which will advance the priority to the application for amendment date.

If the answer to Question 4 is an error, please correct and return the proofs to this office to avoid further delay.

Very truly yours,

RE: Permit 31327

Mr. Willis C. Wallen
P. O. Box 12
Copeland, Idaho

Dear Mr. Wallen:

Your Proof of Application of Water to Beneficial use and Completion of Work has been received by this department. However, upon checking your Permit 31327, we find a difference in location of the source of the water supply. Also the application does not give the location of the place of use. The notice as published in the BONNERS FERRY HERALD has the source and use location as stated on your Permit, or in Section 9. The proofs show Point of Diversion in Section 8.

If you have changed the point of diversion to Section 8, an amendment is necessary.

This requires that the proofs are readvertized which will advance the priority to the application for amendment date.

If the answer to Question 4 is an error, please correct and return the proofs to this office to avoid further delay.

Very truly yours,

CARL E. TAPPAN
