License of Water Right No. 98-2111 Priority December 9, 1962 Amount 1.98 cfs

THIS IS TO CERTIFY, that ROBERT C. MYERS
of Bonnors Ferry, Idaho, has complied with the terms and conditions of Permit
No. 98-2111 issued pursuant to Application for Permit dated Aug. 16, 1962
and has submitted proof to the Department of Water Resources on December 18, 1967,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 1.98 cfs of water from Mission Creek,
tributary to Kootenai River, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume

Dear Mr. Myers:

We acknowledge receipt of the depositions and affidavit of publication in the
Bonners Ferry Herald submitted as proof of completion of works and beneficial use on Permit 30615.

Before a certificate and license of water right can be issued, a field examination must be made by a representative from this department. We cannot tell just when this examination will be made, but our field examiner will try to contact you at the time he makes the examination so that you may show him the system.

Very truly yours,

Dear Mr. Myers:

It appearing to the State Reclamation Engineer that the terms and conditions of Permit 30615 to appropriate the public waters of the State of Idaho, have not been complied with as to failure to submit proof of completion of works and beneficial use due August 16, 1962, you are hereby notified that under the provisions of Section 42-311, Idaho Code, as amended, said permit is hereby held for cancellation, and you are required to show cause before the State Reclamation Engineer on or before November 6, 1967 why said permit should not be cancelled.

Permit 30615 claims the use of 14.5 cubic feet per second of water. The point of diversion was to be located on ^{SW} 1/4 line between SW 1/4 & SE 1/4, Sec. 18, T. 64 N., R. 1 E., Boundary Co., and the permit was approved August 16, 1962.

Re: Permit No. 30615

Mr. Robert C. Myers
Star Route #1
Bonniers Ferry, Idaho

Dear Mr. Myerx:

Under the terms of your Permit No. 30615 you are required to make proofs of completion of works and application of water to beneficial use on or before **August 21, 1967**

Before this proof can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper in the county.

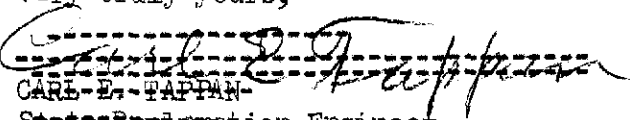

We enclose Form 36-A in duplicate, which is to be filled in and returned to this department at least forty (40) days before the above mentioned date and/or before the time you intend to make proof (this may be at any place that is convenient for you and your two witnesses), the quantity of water, for what purpose it is used, the point or points of diversion and the location of use, or lands which are irrigated - - by legal description. Descriptions should be taken from your Permit, including any amendments thereto, as recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your notice is published, or you may have to readvertise and complete another set of proof forms.

Also enclosed is Form 11, which is the authorization for us to have the notice published in the designated county newspaper, at your expense. This is to be returned with Forms 36-A

At the time we send the notice to the newspaper we will send you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, and at the place named, before the Notary Public as advertised in the publication notice.

The amount of water allowed in a license cannot be more than is actually produced and measured and put to beneficial use, and cannot be more than the statutory amount allowable per acre of land actually found by the field inspection to have been irrigated at the time of proof.

Very truly yours,

Dear Mr. Myers:

Your application for permit has been received without the filing fee, which is \$8.50 for 14.5 cubic feet per second.

The point of diversion is not clear. You show the point in NW 1/4 Sec. 18, which is probably the location of the proposed dam. Your map also shows an arrow about a quarter of a mile south where you state the water enters the drainage system, which is apparently the point of diversion of the water on to the land. You show that there will not be a headgate under 18, on page 1. It would seem that a headgate would be necessary to stop flow of water when necessary.

You must enclose the filing fee and also sign the application on page 3.

Kindly correct and complete the application before returning.
