Dear Mr. Tappan:

When I received the enclosed notice of proof of completion of works as published in the Bonners Ferry Herald I noted that the legal discription is in error. The No. 5 the place where said water is used ~~is~~ should read SE $\frac{1}{4}$ NW $\frac{1}{4}$ and the SW $\frac{1}{4}$ of Section 33, Twp. 62 N, Range w E.B.M., The point of diversion is correct.

Please advise if this change can be made.

Sincerely yours,

Dear Mr. Gibbons:

We received your Notice for publication in the Bonner's Ferry Herald for making proofs under subject permit.

However upon checking our records we find that the original application was for 1.0 c.f.s. for irrigation on 68 acres in the SE $\frac{1}{4}$ NW $\frac{1}{4}$ and SW $\frac{1}{4}$, Section 34, T62N-R2EBM. In the proof notice you claim water for additional land in Unit #27 of Rural Subdivision of Drainage District #15, making a total of 850 acres. We believe that 1.0 c.f.s. of water, which is the amount specified in the original permit application, is entirely too small a water supply to economically irrigate 850 acres. Should not this figure be 85.0 acres?

In case you wish to include the land in Unit #27 you must make application for an amendment to the land list. We enclose amendment forms for this purpose. The fee for recording an amendment is \$1.00 which should be attached to the papers when returned to this office.

Please correct the notice and return promptly.
