Gentlemen:

Pursuant to your request, enclosed please find a copy of Water Right License No. 21897 (new number 98-2096) filed in the name of Mr. Robert Schrader.

Please be advised that a water right license is part of the real property and is automatically transferred to the new owners unless it is specifically withheld in the deed. Also, a water right can be lost through five (5) consecutive years of non-use. It would then be considered abandoned.

If you have any other questions or if we can be of any further assistance, please feel free to contact this office.

Sincerely,

Dear Mr. Schrader:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the Bonners Ferry Herald, all submitted in proof of completion of works and beneficial use on Permit No.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Dear Mr. Schrader:

This acknowledges the Notice of Proof of ~~Completion of Works and~~ Application of Water to Beneficial Use under Permit No. 21897. The proofs are to be made at 10:00 o'clock A.M., on the 31st day of January, 1962, before Royden Zenier, Bonners Ferry, Idaho, Notary Public.

As of this date we have mailed the Notice to the Bonners Ferry Herald, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

GEO. N. CARTER

Re: Permit No. 21897

Date: Dec. 1, 1961

Robert Schrader
Bonners Ferry, Idaho

Dear Mr. Schrader:

The date for proof of application of water to beneficial use, as set out under the terms of Permit No. 21897 is due not later than February 2, 1962. If by this date you are not prepared to make this proof, you may make it at a later date, however, your priority will be advanced the same length of time for which the proof is late.

Before this proof can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county.

We enclose Form 10, in duplicate, which is to be filled in and returned to this department at least forty (40) days before the above mentioned date and/or before the time you intend to make proof. This form, in duplicate, is to include the time of day, the date, the name of the town, the address of the Notary Public before whom you will appear to make the depositions of proof (this may be at any place that is convenient for you and your two witnesses), the quantity of water, for what purpose it is used, the point or points of diversion and the location of use or lands which are irrigated - by legal land description. Descriptions should be taken from your Permit, including any amendments thereto, as recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your notice is published.

Also enclosed is Form 11, which is the authorization for us to have the notice published in the designated county newspaper, at your expense. This is to be returned with Forms 10.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set and at the place named, before the Notary Public, as advertised in the publication notice.

The amount of water allowed in a license cannot be more than is actually produced and measured and put to beneficial use, and cannot be more than the statutory amount allowable per acre of land actually found by field inspection to have been irrigated at the time of proof.

Very truly yours,

GEO. N. CARTER

Dear Mr. Kulp:

In order to comply with your letter of December 1 concerning the filing of a proof of completion of work on my permit No. 21897 I need some assistance.

This work was completed in the spring of 1955 according to the specifications contained in the permit. I have made a thorough search of all papers and am unable to find my copy of said permit. As this work is at the present time under from three to five feet of snow, it is impossible for me to make the measurements which are required on the proof of completion.

As stated previously, this work was completed last spring and specifications on the permit were checked at the time of completion to make certain they were right. In order that the proof of completion coincide with the permit, would it be possible for you to send me the following information: (1) The description given in the permit for the point of diversion of said water; (2) The width required in the permit for the bottom of the ditch, width of the ditch at water line, depth of water, and length of ditch; (3) Number of second feet of water applied for; (4) Number of acres of land stated in permit on which water would be used.

Thank you very much for any consideration you can give me in submitting the above information.

Very truly yours,

INSTRUCTIONS

PROOF OF COMPLETION OF WORKS

Mr. Robert Schrader
Bonners Ferry
Idaho

Boise, Idaho

Dear Sir:-

Under the terms of your permit No. 21897 you are required to complete your diversion works on or before February 2, 1956. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

MARK R. KULP
