**NOTICE OF PROOF APPLICATION
OF WATER TO BENEFICIAL
USE.**

Notice is hereby given that 10:00 A. M. on the 28th day of July, 1950, at Snead's Accounting, Bonners Ferry, County of Boundary, State of Idaho, before Tracie W. Snead, Notary, proof will be submitted of the application to beneficial use of 0.25 cubic foot per second of the waters of Cedar creek in accordance with the terms and conditions of Permit No. 21160 and of the application to beneficial use of 0.25 cubic foot per second of the waters of an unnamed stream, tributary to Brown creek, in accordance with the terms and conditions of Permit No. 21448, heretofore issued by the Department of Reclamation of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are Paradise Valley Water Association, Inc., Bonners Ferry, Idaho.

The use to which said water has been applied is domestic, stock, and irrigation of small gardens and lawns.

The amount applied to beneficial use is .50 cubic foot per second.

The place where said water is used is Farmsteads in Sections 2, 3, 10, 11, 12, 13, 14, 15, 16, 17, 19, 20, 21, 22, 23, 24, 29, and 30, Twp. 61 North, Range 1 East, B. M. and Sections 34 and 35, Twp. 62 North, Range 1 East, B. M.

The right to take water from such works is based upon Permit Nos. 21160 and 21448.

The source of supply from which such water is diverted is Cedar creek and an unnamed stream tributary of Brown creek.

The dates of priority which said user is prepared to establish are June 23, 1949 on Permit No. 21160 and April 6, 1950, on Permit No. 21448.

Re: Permits Nos. 21160 and 21448

Mr. C. W. Elliott, Secretary
Paradise Valley Water Association, Inc.
Naples, Idaho

Dear Mr. Elliott:

We enclose Certificates of Completion of Works issued under Permits Nos. 21160 for 0.25 of a second foot of water from Cedar Creek and 21448 for 0.25 of a second foot of water from an unnamed creek tributary to Brown Creek, both for domestic, stock and small garden irrigation in the Sections mentioned therein.

We also enclose Departmental Receipt No. 22369 for the \$10.00 fees paid in connection with these two permits.

Very truly yours,

APPLICATION FOR PERMIT
To Appropriate the Public Waters of the State of Idaho

APPLICATION No. 29137
PERMIT No. 21448
DISTRICT No.

1. Name of Applicant: PARADISE VALLEY WATER ASSOCIATION, INC.

Postoffice address: Bonners Ferry

County: Boundary

State: Idaho

I. If applicant is a corporation, give:

(a) Date and place of incorporation:

(b) Amount of capital stock: None

(c) Amount paid in: None

(d) Names and addresses of directors: Winston Cook, President, Bonners Ferry; Homer Lineback, Vice-President, Naples; G. W. Elliott, Secretary, Naples; Edgar Wells, Bonners Ferry; Emery Girton, Naples; all in Idaho.

II. The financial resources of the applicant are:

(a) Cash on hand:

(b) Treasury stock: None

(c) Bonds to be issued: None

(d) Other resources: Completed works.

2. Quantity of water claimed: 0.25

cubic feet per second.

3. Source of water supply: Unnamed creek

which is a tributary of Brown Creek; thence Deep Creek;
thence Kootenai River

4. Location of point of diversion:

feet distant from the

corner of Section , T. , R. , B. M., and is in the SE $\frac{1}{4}$ NW $\frac{1}{4}$

of Section 24 , T. 61 N. , R. 1 E. , B.M., County of Boundary

5. Water is to be used for Domestic, stock and small gardens

6. If for mining, milling, power or manufacturing purposes, give:

(a) Point of use of water: feet distant from corner of Section

T. , R. , B.M., in the of Section , T. , R. , B.M.

(b) Amount of power generated: H.P., under feet head.

(c) Water is to be returned to at a point feet

distant from the corner of Section , T. , R. , B.M., in the
of Section , T. , R. , B.M.

7. Estimated cost of works: \$ 68,000.00

8. Kind of works: Collection gallery, 25,000 gallon concrete tank, 80,000 ft. of pipe line

9. Height of dam feet; length of dam at top feet; length of dam at bottom

feet; material used in dam:

10. Size of headgate: Width feet; height feet.

11. Ditch: Width at bottom feet; width at water line feet; depth of water feet;

dimensions of flume:

Diameter of pipe 4" to 1 $\frac{1}{2}$ " inches; length of conduit 15 miles.

Average grade per mile Average pressure on / main-50# feet.

12. The time required for the completion of such work is One (1) years.

13. The time required for the complete application of the water to the proposed use is Six (6) additional years.

14. The land to be irrigated is described in the following tabulation: See remarks.

15. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are:

16. (a) Is reservoir to be used? If so, fill in (b) and (c) below:
(b) Name of Reservoir and number of Storage Permit:
(c) Date of filing of Application for Storage Permit and Name of Applicant:

BE IT KNOWN THAT The undersigned hereby makes application for permit to appropriate the public water of the State of Idaho as herein set forth.

PARADISE VALLEY WATER ASSOCIATION Applicant.

By J. D. "CY" PRICE

Secretary of State.

REMARKS: Water to be diverted from the stream bed by means of a concrete cut-off across the stream bed. Above the cut-off perforated pipe is laid in a prepared bed of gravel. Collected water is stored in a 25,000 gallon concrete storage tank, with float valve to stop diversion at all times that the tank is full. Water will be conveyed from the storage tank through 80,000 feet of metal pipe ranging in size from 4" to 1 1/2" to an estimated 75 users living in Paradise Valley. Limited irrigation of small gardens will be permitted as well as water for domestic and stock use. Members of the Association have furnished about \$14,000 in labor and have borrowed \$52,000 to complete the project. (Continued below)

Twp.	Range	Sec.	NE ¹ / ₄				NW ¹ / ₄				SW ¹ / ₄				SE ¹ / ₄				Totals

Marie M. Allen
Rt. 1, Box 466
Bonners Ferry, ID 83805

Dear Ms. Allen:

This office has reviewed your letter dated May 20, 1988 which posed several questions in connection with the Paradise Valley Water Association, Inc. (PVWA) near Bonners Ferry, Idaho.

Research of the water right files shows that two (2) water rights identified as licenses 98-2088 and 98-2092 were issued in October 1951. The department's examination of the water system at that time showed there were 50 users each with a 3/4 inch outlet using the water. Storage capacity at that time consisted of two storage tanks, one of 35,000 gallon capacity and the other of a 30,000 gallon capacity.

In June 1973, PVWA filed application 98-7074 which proposed the service expansion to 85 families. The proposed source was an unnamed stream tributary to Cow Creek. The permit lapsed for failure to submit the required proof of beneficial use.

In August 1976, PVWA filed application 98-7178 which proposed a development similar to lapsed permit 98-7074. This permit also lapsed for failure to submit proof of beneficial use.

As far as the department can determine, PVWA is a private water organization which is likely governed under by-laws enacted by the association. The department does not have authority over the by-laws of PVWA, but does have authority over the appropriation of the public waters of the state.

I did contact the Farmer's Home Administration office in Sandpoint and determined that loans are available to water associations and to individuals for construction and updating of water supply facilities. For more information on loans which may be available, you can contact Mac Cavasar, Farmer's Home Administration, 1500 Highway 2, Sandpoint, ID 83864 or by calling 263-7556 in Sandpoint.

May 20- 1988

Water Resources, State House

Boise, Idaho

Dear Sir;

With regard to the Paradise Valley Water Association Inc. herein-
after knowr as PVWA, a small water authority near Bonners Ferry, Idaho
which was developed and financed with the help of a U.S. Farmers
Home Administration Loan (FHA) and which is believed to be using
water originating on Federal land and using public land for storage
and transmission lines.

This water authority serves about half of the approximately 200
households in the area, and contends that it cannot serve all of the
households due to water shortage.

The privileged people of the area (the people served), as a mat-
ter of course, use many thousands of cu.ft. of water to irrigate lawns
and gardens, and for livestock while the non privileged people who
have been refused service, are denied any water.

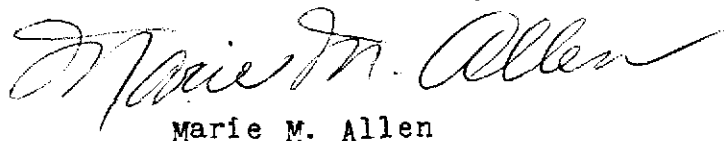

When we appeal to the PVWA we are told that it has no responsibil-
ity or duty to supply water to us in an equitable manner, and that we
may be able to find water from other sources in the area and in effect
we should build our own water system, we believe this is ambiguous
and inconsistent in that they plead shortage, and suggest alternate
sources at the same time.

We believe based on the bylaws of the PVWA, and its agreement
with the FHA, and its use of public land and water, that it is not
a private entity, with a mandate to serve in this inequitable manner,
and to ignore the needs of about half of the people in the area.

In as much as this is not an area of rich people, we cannot
pursue this matter in the courts, due to prohibitive legal costs.

In conclusion we ask that you endeavour to have carried out a
complete, impartial investigation into this matter, and that appro-
priate action be taken to insure equity.

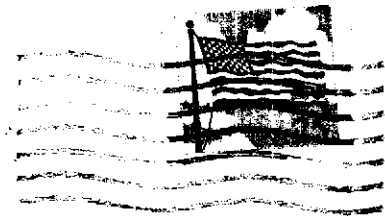

Sincerely

Marie M. Allen

Re: License Nos. 98-2088
98-2092

Mrs. William Riley
6626 San Miguel
Paramount, California 90723

Dear Mrs. Riley:

Pursuant to your letter of September 24, 1971, we have checked our records and find two water licenses in the name of Paradise Valley Water Association, Inc. We are enclosing copies of these licenses for your reference.

In further checking our records, we fail to find any new permit applications for Paradise Valley Water Association, Incorporated. Therefore, before the Association could supply any more water to any new users, they would first of all be required to obtain a permit through this Department. Any other individual wishing to use water from the stream or springs in the area, would have the same option of filing for permit and applying the water to a beneficial use, subject of course, to any existing water rights on the same source.

We are enclosing the Department's application for permit form with instructions for your use if you should choose to make this filing.

If you should have any further questions in reference to this matter, please feel free to contact this office.

Very truly yours,

Dorian Clay

RECEIVED

SEP 29 1971

Idaho Dept. of Water Administration
Statehouse
Boise, Idaho 83707

Dear Sir:

Department of Water Administration

I am writing to you in hopes you can give us some information regarding the water situation in Paradise Valley, Boundary County, Idaho.

Two years ago we bought some property there and found out after we bought it that there was no water right with the property (you see it was advertised with water.) We put our trust in the realator and the man who sold it to us, this was in June - 1969.

Then they said it was just a matter of a few month, to sign up with Paradise Valley water association, Bonners Ferry, Idaho, and we would just have to wait a short time, and could buy in for \$500.00. So we signed and waited.

11-14
61N-1E
In July - 1970 the board of Paradise Valley water association met said they were dickering to get another creek and still did not have a water share to sell (the price had gone up to \$ 700.00 or more by now.) But we were informed our name was at the top of the list and would be the first to buy a share. (Seems there are at least 30 more names on the list all wanting water, or more water.)

To make this short, my husband can retire in 1½ years and we wanted to start improvement on our property, you see we fell in love with it up in Idaho, but would never have bought up there if we had known about the water shortage.

Could you give us any enlightenment on the water situation or to whom we could contact. Would there be city water available to us in the near future?

Any information would be received gladly, and hopefully, without causing you too much inconvenience to hear from you shortly.

Sincerely,

Mr. & Mrs. Wm. Riley

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO
REPORT OF ENGINEER

Permit No. 21448

SEE Permit No. 21160

This proof is for Beneficial use

In Water District No. _____

1. Name of applicant Paradise Valley Water Association, Inc., G. W. Elliott, Sec'y., Naples, Idaho
2. Source of water supply: An unnamed stream tributary to Brown Creek.
3. Location of point of diversion: Is in the SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 24
T. 61 N. R. 1 E. County of Boundary
4. Describe works as they exist, giving dimensions and capacities of same: This is the second source of supply for the water system belonging to the Paradise Valley Water Association. At this time of year the source is actually a spring located as indicated on the map. There is a small diversion dam across the channel of the stream. The dam is approximately 30 ft. long and 8 in. thick with an overflow section in the center of the dam, 1 ft. high by 10 ft. long. The total height of the dam is approximately 3 to 4 ft. This is located approximately 246 yds. south of the storage tank. The storage tank is a 25,000 gal. capacity concrete tank, underground with the cover extending slightly above the surface of the ground. The cover is 37 in. by 39 in., 22 in. above the inside of the tank cover. The cover is wood covered with galvanized sheeting. There is an overflow from this tank, a 4 in. pipe approximately 60 ft. long leading to the NW. The height of this tank is 27 in. lower than the other storage tank on Cedar Creek. There is a concrete standpipe or
5. Water is used for: Domestic, stock and small garden irrigation.
6. State whether or not water has been turned into works of diversion: Yes

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

Small farmsteads in Secs. 2, 3, 10, 11, 12, 13, 14, 15, 16, 17, 19, 20, 21, 22, 23, 24, 29 and 30, Twp. 61 N., Range 1 E., B.M. and Sections 34 and 35, Twp. 62 N., Range 1 E., B.M.

50 users on this system.

(cont.) breather in the intake at the dam which is 39 in. by 48 in. by 26 in. high all made of concrete. This is a duplicate of the structure on Cedar Creek. This dam leaks on the West, and if not repaired, will eventually become badly washed. The water from this spring and storage tank connects to the regular system through a 4 in. pipe. The point of diversion is in the SE $\frac{1}{4}$ NW $\frac{1}{4}$ Section 24, Twp. 61 N. Range 1 E. B.M.

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? Brown's Creek to Deep Creek to Kootenai River.

Remarks: The Cedar Creek supply was insufficient, so this installation was made to supplement the Cedar Creek supply. An additional filing is being made for another source and water from it will be tied into the system, and the system extended to more users. Well water in this region is reported to be very hard.

This examination was made on the 28th day of August, 19 51

(Signed)

E. H. Humphrey
Examiner.

21448

Total users = 50 families

WATER " = 4 " not living in place yet.

Water pressure at

Mayer's is 96 # per sq. in.

Present allowance is

approx. 1 gal per min. per family
or 1/2 of an inch per family.

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

Re: Permits Nos. 21160 and 21448

Paradise Valley Water Association, Inc.
Mr. G. W. Elliott, Secretary
Naples, Idaho

Gentlemen:

I intend to be in North Idaho on inspections during the week beginning August 27.

I intend to make inspections, as required by law, in connection with your Permits Nos. 21160 and 21448, on Monday, August 27.

Please make arrangements for someone from the Paradise Valley Water Association, Inc. to accompany me on the inspection. They should be able to answer any questions pertaining your water system.

Very truly yours,

MARK R. KULP
State Reclamation Engineer
By

E. N. Humphrey
Deputy State Reclamation Engineer

21448

July 21, 1951

Re: Permits Nos. 21448 and 21160

To Whom It May Concern:

The records in this Department show that the Paradise Valley Water Association is the holder of two Permits, as follows:

Permit No. 21160 for the diversion of 0.25 cubic foot per second of the waters of an unnamed stream tributary to Brown Creek.

Permit No. 21448 for the diversion of 0.25 cubic foot per second of the waters of Cedar Creek.

The statutory Proofs of Completion of Works and Beneficial Use have been made on both these Permits, but final action by this Department has not yet been taken, awaiting inspection and report by a field engineer.

Re: Permits Nos. 21448 and 21160

Mr. G. W. Elliott, Secretary
Paradise Valley Water Association, Inc.
Naples, Idaho

Dear Mr. Elliott:

We acknowledge receipt of your letter in reply to our letter of August 2, and have corrected the description in your depositions on Permit No. 21148 accordingly.

Before final action is taken in the matter, the law requires that a field examination be made by an Engineer from this Department.

We are unable to say just when this examination will be made as this Department has but one Field Engineer who makes examinations all over the State.

However, the Field Engineer for this Department will try and contact you or some member of the Association at the time he makes the examination in order that arrangements may be made to show him over the grounds.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Re: Permit No. 21448 and 21160

RECEIVED
AUG 8 1950
Department of Reclamation

Mr. G. W. Elliott
Naples, Idaho

Dear Mr. Elliott:

We acknowledge receipt of the depositions of yourself and two witnesses, also Affidavit of Publication in the Bonners Ferry Herald, all submitted in Proof of Beneficial Use under Permits Nos. 21448 and 21160.

In the depositions on Permit No. 21448, the point of diversion is described as the NE $\frac{1}{4}$ NW $\frac{1}{4}$ Section 24, Township 61 North, Range 1 East, B.M. However, the Permit describes it in the SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 24.

Please advise if there has been a change in the point of diversion or if this is a typographical error in the proofs.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

BOISE, IDAHO

Permit No. 21448

Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. G. W. Elliott Naples, Idaho Farmer

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf. Secretary,

Ans. The Paradise Valley Water Association, Incorporated - Bonners Ferry, Idaho

Ques. 3 State number and date of permit, and date of priority you propose to establish under the permit.

Ans. #21448 April 25, 1950 April 6, 1950

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. An unnamed tributary of Brown Creek - S.E. 1/4 - N.W. 1/4 Section 24, Twp. 61 North,
Range 1 East, B.M.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined.

Ans. Collection gallery. - .25 cu. ft. per second - Conducted by pipe line to place
of use. 25,000 gallon concrete tank

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Domestic use - stock, small gardens and lawns.

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. Domestic purposes.

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. _____

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. _____

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. Since August 9, 1949 - by pipe line - to full extent of pipe line which is .25 cu. ft. per second.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. None

(Sign) G. W. Elliott Sec.

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in Bonnors Ferry, County of Boundary, State of Idaho, on this 28 day of July, A. INSTRUCTIONS

PROOF OF BENEFICIAL USE OF WATER

BOISE, IDAHO, July 18, 1950

Re: Permits Nos. 21160 and 21148
Paradise Valley Water Ass'n.

Mr. Tracy W. Snead
C/o Snead's Accounting
Bonners Ferry, Idaho

DEAR SIR:

I enclose herewith the following forms to be used in connection with proof of beneficial use of water under Permit Nos. 21160 and 21148

DEPOSITION OF PERMIT HOLDER,
DEPOSITIONS OF TWO WITNESSES.

In submitting this proof the following instructions should be CAREFULLY followed out, since failure to do so may result in the loss of rights:

1. On.....July 28, 1950....., the date set for proof, the enclosed forms (one for permit holder and one each for two disinterested witnesses) should be filled out and sworn to, at.....
Bonners Ferry, Idaho.....before Tracy W. Snead, Notary Public,.....

2. When the depositions have been taken they should be mailed to this office, together with affidavit of publication of notice.

When these have been received, together with report of the examining engineer, if everything is properly executed, you will be further advised as to fees due, etc., before certificate is issued.

Yours truly.

MARK R. KULP

Re: Permits Nos. 21160 and 21448

Mr. G. W. Elliott, Secretary
Paradise Valley Water Association, Inc.
Naples, Idaho

Dear Mr. Elliott:

We note from your letter of May 19, 1950, that you are prepared to make Proof of Beneficial Use under the above numbered Permits.

Since the water is to be used for the same purpose and on the same land, they may be combined in one notice and we enclose a form herewith. Please complete this form by inserting the date on which the proof is to be made and the name of the Notary Public, and return both copies to this Department, together with Form 11 which is authorization for us to have the notice published at your expense in the designated county newspaper.

We shall then send a copy of the notice to the newspaper with instructions in regard to publishing.

Very truly yours,

MARK R. KULP
