NOTICE FOR PUBLICATION
NOTICE OF PROOF APPLICATION OF WATER TO BENEFICIAL USE.

Notice is hereby given that at 10 a. m. on the 19th day of February, 1951, at Bonners Ferry, County of Boundary, State of Idaho, before Mrs. Tracie W. Snead, Notary Public, proof will be submitted of the application to beneficial use of 20 gallons per minute of the waters of Leslie Springs in accordance with the terms and conditions of Permit 21417, heretofore issued by the Department of Reclamation of the State of Idaho.

The name and postoffice of the person or corporation holding said permit are Leslie Springs Water Company, Inc. of Bonners Ferry, Idaho.

The use to which said water has been applied is domestic and stock water for 10 farms.

The amount applied to beneficial use is 20 g.p.m.

The place where said water is used on 10 farms in Section 33, 34 and 35, Twp. 63 N. Rge. 1, E. B. M.

The name of the canal or ditch or other works by which said water is conducted to such place of use is pipeline.

The right to take water from such works is based upon Permit No. 21417.

The source of supply from which such water is diverted is Leslie Springs—tributary of Baines Creek—tributary to Kootenai River.

The date of priority which said user is prepared to establish is March 20, 1950.

MARK R. KULP,

State Reclamation Engineer.

First publication Jan. 25, 1951.

Last publication Feb. 15, 1951.

Re: Permit No. 21417

Bonnors Ferry Herald

Bonnors Ferry, Idaho

Gentlemen:

Enclosed you will find notice for publication once a week for four consecutive weeks prior to February 19, 1951 the date set for proof, the expense of the publication to be paid by the applicant, **Co., C/o Rex Sunderland, Secretary-Treasurer** **Leslie Springs Water / of Bonnors Ferry,** **Idaho**, to whom you should furnish proof of publication on or prior to the date set for proof.

Please acknowledge receipt of this notice, and furnish this office with a copy of the first publication.

Very truly yours,

MARK R. KULP

State Reclamation Engineer

Re: Permit No. 21417

Mr. Rex Sunderland, Secretary-Treasurer
Leslie Springs Water Company, Inc.
Bonners Ferry, Idaho

Dear Mr. Sunderland:

We return your Proof of Completion of Works under Permit No. 21417 in order that you may sign it and have it acknowledged before a Notary Public.

We note that you are prepared to submit the final or Beneficial Use Proof. The law requires publication once a week for four consecutive weeks prior to the date set for making proof. The notice should be made in duplicate on Form 10 enclosed, setting the time and place and naming the Notary Public before whom the proof is to be made. The place may be anywhere convenient for yourself and two witnesses, and the time should be set sufficiently far ahead to allow for the statutory four weeks publication.

Both copies of Form 10 are to be returned to this Department, together with Form 11 which is your authorization for us to have the notice published at Permit Holder's expense in the designated county newspaper.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

APPLICATION FOR PERMIT

To Appropriate the Public Waters of the State of Idaho

APPLICATION No. 29111
PERMIT No. 21417
DISTRICT No.

1. Name of Applicant: LESLIE SPRINGS WATER COMPANY, INC.

Postoffice address: Bonners Ferry

County: Boundary

State: Idaho

I. If applicant is a corporation, give:

(a) Date and place of incorporation: Feb. 19, 1941 Bonners Ferry, Idaho

(b) Amount of capital stock: None

(c) Amount paid in: None

(d) Names and addresses of directors: H. C. Levig, President; Rex Sunderland, Secretary; Lee Holmes, Vice President; Roy Perry, Harry Davidson; All of Bonners Ferry, Idaho

II. The financial resources of the applicant are:

(b) Treasury stock: None

(d) Other resources: Completed works

(a) Cash on hand: \$500.00

(c) Bonds to be issued: None

2. Quantity of water claimed: 0.03

cubic feet per second.

3. Source of water supply: Springs

which is a tributary of Banas Creek, tributary to Kootenai River

4. Location of point of diversion: N. 47°46' W. 1402

feet distant from the S. E.

corner of Section 35, T. 63 N., R. 1 E., B. M., and is in the SE $\frac{1}{4}$ SE $\frac{1}{4}$

of Section 35, T. 63 N., R. 1 E., B. M., County of Boundary

5. Water is to be used for Domestic, stock and small gardens

6. If for mining, milling, power or manufacturing purposes, give:

(a) Point of use of water: feet distant from corner of Section

T. , R. , B. M., in the Sections 33, of Section 34 & 35, T. 63 N., R. 1 E., B. M.

(b) Amount of power generated: H.P., under feet head.

(c) Water is to be returned to at a point feet

distant from the corner of Section , T. , R. , B. M., in the

of Section , T. , R. , B. M.

7. Estimated cost of works: \$ 7,500.00

8. Kind of works: Tile drains, concrete storage tank, pump, and 10,000 feet of pipe

9. Height of dam feet; length of dam at top feet; length of dam at bottom

feet; material used in dam:

10. Size of headgate: Width feet; height feet.

11. Ditch: Width at bottom feet; width at water line feet; depth of water feet;

dimensions of flume:

Diameter of pipe 2 inches; length of conduit 1.9 miles.

Average grade per mile feet. Pump used to provide pressure.

12. The time required for the completion of such work is One years.

13. The time required for the complete application of the water to the proposed use is One additional years.

14. The land to be irrigated is described in the following tabulation: See remarks.

15. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are:

REPORT OF ENGINEER

Permit No. 21417This proof is for Beneficial use In Water District No. _____

1. Name of applicant Leslie Springs Water Company, Inc., Rex Sunderland, Sec'y, Box 336
Bonnors Ferry, Idaho
2. Source of water supply: Leslie Spring, tributary of Baine Creek, thence Kootenai River
3. Location of point of diversion: Is in the SE¹ SE¹ of Section 35
T. 63 N. R. 1 E. County of Boundary

4. Describe works as they exist, giving dimensions and capacities of same: Springs are piped into a collecting tank from which water is delivered through a pipe system to a group of 10 families. Delivery is accomplished by use of a pump and pressure tanks. The storage tank is a round concrete structure, 10,000 gal. capacity buried approximately flush with the surface of the ground. The pump and pressure tanks are located in a concrete pit west of the tank a very short distance. Pit size is 6 ft. by 6 ft. by 6 1/2 ft. high. The inlet to this pit is 19 in. high. There is a wooden cover, covered with galvanized sheeting. The outlet from this pit to the water system is through a 2 in. diameter galvanized pipe, leaving the pit 26 in. down from the top on the inside. Outlet is to the West. Switches and controls are square D. There are two pressure tanks, size 80 in. by 32 in. The motor is a 2 H.P. Century motor, single phase, 60 cycles, 230 volts, 11.9 amps. 3600 r.p.m. Motor No. 8 U 22929. The system is used by a group of 10 families. The collection for the
5. Water is used for: Domestic and stock water for ten farms in Sections 33, 34 and 35, T. 63 N R. 1 E. B.M.
6. State whether or not water has been turned into works of diversion: Yes

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

Ten farms in Sections 33, 34 and 35, Township 63 North, Range 1 East, B. M.

4. (cont.) one spring is accomplished by using a basin of clay tile 3 ft. by 18 in. in diameter with a wood covering. 3 sections of 4 in. clay tile extend into the bank 3 ft., collecting the spring water. The entrance for the tank is 20 in. high by 3 ft. by 3 ft., wood cover, covered with a galvanized sheeting. The tank is 18 ft. in diameter. The overflow from the tank is a 2 in. pipe, 12 ft. long.

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? _____

Remarks: One spring is 75 ft. North of the storage tank, the other is approximately 100 ft. East of the storage tank.

Dear Mr. Sunderland:

We are in receipt of the corrected depositions of yourself and two witnesses in Proof of Beneficial Use under Permit No. 21417.

Before final action is taken in the matter, the law requires that a field examination be made by an Engineer from this Department.

We cannot say just when this examination will be made as this Department has but one Field Engineer who makes examinations all over the State.

However, he will try to contact you at the time the examination is made so that arrangements may be made to show him over the grounds.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

DEPARTMENT OF RECLAMATION
BOISE, IDAHO

RECEIVED
 FEB 21 1951
 Department of Reclamation

Permit No. 21417

Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. (Leslie Springs Water Company, Inc.) Rex Sunderland, Farmer
Box 336 Bonners Ferry, Idaho

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. Leslie Springs Water Company, Inc. Bonners Ferry, Idaho, Secretary, Treasurer
& Director

Ques. 3 State number and date of permit, and date of priority you propose to establish under the permit. 3-20-

Ans. #21417, 2/19/50 - date of priority Date of Permit - unknown

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Leslie Spring, tributary of Baine Creek, tributary of Kootenai River
SE $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 35, Twp. 63 North, Rge. 1, E.B.M.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined.

Ans. Reservoir furnishing 20 gal. per minute - storage of 10,000 gals.

Pipeline. Spring development using tile drains with water flowing into
concrete spring boxes then picked up in standard steel pipe and conducted to
Reservoir built of reinforced concrete. Water flows by gravity into
a pumping system mounted in a frost proof concrete pump house then put
under pressure and delivered into the distribution main. Pumping system
also consisting of a 3 H.P. elec. motor, 200 gal. pressure tank, etc.
The main pipe line consisting of standard galv. iron pipe of 1 $\frac{1}{2}$ to 2 $\frac{1}{2}$ inches.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Domestic, stock and garden irrigation for 9 farms

33, 34 &
Water to be used in Sections 35, Twp. 63 North, Rge. 1, E.B.M.
in Boundary County, Idaho

21417

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. Taps for domestic use of water

No horsepower generated

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. 20 gals. water per minute

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. -

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. same as above

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. none other diverted

Re: Permit No. 21417

Mr. Rex Sunderland, Secretary
Leslie Springs Water Company, Inc.
Box 336
Bonners Ferry, Idaho

Dear Mr. Sunderland:

We acknowledge receipt of the depositions of yourself and two witnesses, also Affidavit of Publication in the Bonners Ferry Herald, all submitted in Proof of Beneficial Use under Permit No. 21417.

However, these depositions are incomplete in a few particulars, and we return them for the following corrections:

Question 5 of your own deposition should describe the works, which in the Permit include a tile drain, storage tank, pump and pipe line. If these have been completed, please describe same under Question 5.

Question 6 of your deposition and Question 7 of the depositions of the two witnesses should give the legal description of where the water is to be used, as to Section, Township and Range.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Leslie Springs Water Company, Inc.
Bonners Ferry, Idaho

Dear Mr. Sunderland:

We return your Proof of Completion of Works under
Permit No. 21417 in order that you may sign it and have it
acknowledged before a Notary Public.

We note that you are prepared to submit the final
or Beneficial Use Proof. The law requires publication once
a week for four consecutive weeks prior to the date set for
making proof. The notice should be made in duplicate on
Form 10 enclosed, setting the time and place and naming the
Notary Public before whom the proof is to be made. The place
may be anywhere convenient for yourself and two witnesses, and
the time should be set sufficiently far ahead to allow for the
statutory four weeks publication.

Both copies of Form 10 are to be returned to this
Department, together with Form 11 which is your authorization
for us to have the notice published at Permit Holder's expense
in the designated county newspaper.

Very truly yours,

INSTRUCTIONS

PROOF OF COMPLETION OF WORKS

Leslie Springs Water Co., Inc.
C/o H. C. Long
Bonnere Ferry, Idaho

Boise, Idaho

January 2, 1951

Dear Sir:-

Under the terms of your permit No. ~~21417~~----- you are required to complete your diversion works on or before ~~March 28, 1951~~----- I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

MARK R. KULP
