Dear Mr. Teer:

We have received from Judge E. B. Schlette the depositions of yourself and two witnesses, and also the affidavit of publication in the Bonners Ferry Herald, all in proof of beneficial use under your Permit No. 19740.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot say just when this examination will be made, since this department has but one field engineer, who makes examinations all over the state.

However, Mr. Tolman, Field Engineer for this department, will try and contact you at the time he makes the examination, so that you may arrange to show him over the grounds.
