ATTENTION: Richard J. Call, Acting District Ranger

Dear Mr. Call:

Pursuant to your letter of April 10, 1972, we have researched our records and find the following information.

We do not find any rights listed as being from Rock Creek or Cedar Creek. There are a number of water rights from other sources in the area as listed on your letter.

Most of these rights are old and are probably held by persons other than those indicated on our License form. The rights are listed as follows:

98-2028, Licensed in the name of R. M. Howell of Bonners Ferry, Idaho
98-2058, Licensed in the name of Jacob E. Strohl of Bonners Ferry, Idaho
98-2066, Licensed in the name of C. A. Groeneveld of Bonners Ferry, Idaho
98-2087, Licensed in the name of The Deer Park Water Association of Bonners Ferry

If we may be of any further assistance to you in this, or any other matter, please do not hesitate to contact this Department.

PROOF OF COMPLETION OF WORKS

Mr. C. A. Groeneweld

Boise, Idaho September 1, 1949

Donners Ferry, Idaho

Dear Sir:-

Under the terms of your permit No. 19558-----you are required to complete your diversion works on or before November 13, 1949. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.
