Dear Mr. Wallen:

We acknowledge receipt of the corrected depositions in proof of beneficial use under Permit No. 19553, also affidavit of publication in the Bonners Ferry Herald.

This completes your proof but before final action is taken in the matter, the law requires that a field examination be made by a field engineer from this department.

We cannot say just when this examination will be made as this department has but one field engineer who makes examinations all over the State.

However, he will try to contact you at the time the examination is made so that arrangements may be made to show him over the grounds.

Dear Mr. Wallen:

We return depositions of yourself and two witnesses offered in proof of beneficial use under Permit No. 19553 for the following corrections:

1. Question 4 of the depositions of your two witnesses should give the location of the point of diversion.
2. Question 6 of your deposition and Question 7 of the depositions of your two witnesses should give the legal description of the land that has been irrigated.

The affidavit of publication should accompany the proofs, and if the Bonners Ferry Herald has not sent you the affidavit, we suggest you take the matter up with them as this affidavit is a necessary part of this proof.

Dear Sir:

We acknowledge receipt of your letter of October 20, 1949, enclosing Affidavit in Proof of Completion of Works, also money order for the \$5.00 fee.

The Affidavit is returned for the following corrections:

1. The number of the permit is not given anywhere and should be shown at the top of the sheet and also under the first question. According to our records, this is 19553.

2. The Application and Permit describe a dam as part of the diversion works, which you do not mention under question six. If the dam was built, it should be stated and also the dimensions.

3. Under question eight, you describe the place of use as one hundred acres in the E $\frac{1}{2}$ of Township 63 North, Range 1 East, whereas your Permit describes the place of use as the W $\frac{1}{2}$ NE $\frac{1}{4}$ and W $\frac{1}{2}$ SE $\frac{1}{4}$ (or W $\frac{1}{2}$ E $\frac{1}{2}$ of this Section).

Please make these corrections and return promptly to this Department.

PROOF OF COMPLETION OF WORKS

Jean E. Wallen

Copeland, Idaho

Boise, Idaho **August 1, 1949**

Dear Sir:-

Under the terms of your permit No. ~~19533~~ ----- you are required to complete your diversion works on or before ~~October 25, 1949~~. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Bonners Ferry, Idaho

Dear Mr. Vernon:

We enclose herewith Permit No. 19553, in the name of
Jean Wallen; also Departmental Receipt # 18679 for the
\$5.25 filing fee.

Your attention is called to the limitations and condi-
tions, as given under the approval of the State Reclamation
Engineer, on the fourth page.

You will note that we have allowed five years for comple-
tion of works, instead of six as called for in the applica-
tion- as five years is the maximum length of time allowed by
the statute. See Section 41-202, Idaho Code Annotated.
Should the war be prolonged, and Mr. Wallen not be able to
complete the work within the five years on that account, it
is possible that some arrangement may be made by a future
legislature to provide for any necessary additional extension.
