

State of Idaho
License and Certificate of Water Right

Water License No. 19270

Amount 0.1 second foot

Water District No.

Priority March 24, 1942

THIS IS TO CERTIFY that TROW CREEK WATER ASSOCIATION, INC.,
of Perthill, Idaho, made application for a permit to appropriate the
public waters of the State of Idaho, dated March 24, 1942; that Permit No. 19270
was issued under said application; that Certificate of Completion of works, with a carrying capacity of
0.1 second foot, was issued thereunder on May 12, 1947, showing that said works
were completed on the 28th day of March, 1947; and that on the 9th
day of February, 1951,

TROW CREEK WATER ASSOCIATION, INC.,
of Perthill, State of Idaho, made proof to the satisfaction of the
State Reclamation Engineer of Idaho, of the right to use the waters of Bath's
Springs, ~~xxxxxxxxxxxx~~ the head of Trow Creek for the purpose of domestic, stock and irrigation
uses, under Use Permit No. 19270 of the Department of Reclamation
and that said right to the use of said waters has been perfected in accordance with the laws of Idaho,
and is hereby confirmed by the State Reclamation Engineer of Idaho and entered of record in Volume
8 of Licenses at page 4840, on the 31st day of October, 1951;
The right hereby confirmed dates from March 24, 1942;

The Point of Diversion is located
in the SW 1/4 SE 1/4 Sec. 11, Tp. 6S N., R. 1 W., B. M. Boundary County
That the amount of water to which such right is entitled and hereby confirmed, for the purposes
aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall
not exceed 0.1 cubic feet per second.

Description and location of use:

Twp.	Range	Sec.	Forty-acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated
6S N.	1 W.		Home of fifteen families in Sections 8, 9, 10, 11, 14, 15, and 17.		

The right to the use of the water aforesaid hereby confirmed is restricted to the lands or place
of use herein described, as provided by the laws of Idaho.

WITNESS the seal and signature of the State Reclamation Engineer, affixed at Boise, Idaho, this
31st day of October, 1951.

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

NOTICE FOR PUBLICATION

NOTICE OF PROOF APPLICATION OF WATER TO BENEFICIAL USE.

Notice is hereby given that at 11:00 A. M. on the 9th day of February, 1951, at Bonners Ferry, County of Boundary, State of Idaho, before M. D. Pace, Notary Public, proof will be submitted of the application to beneficial use of 0.1 cubic foot per second of the waters of Rath's springs, at the head of Trow Creek in accordance with the terms and conditions of Permit No. 19270 heretofore issued by the Department of Reclamation of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are Trow Creek Water Association, Inc., Porthill, Idaho.

The use to which said water has been applied is domestic, stock and incidental irrigation.

The amount applied to beneficial use is 0.1 cubic foot per second.

The water is to be used by 35 families at their homes in Sections 8, 9, 10, 11, 14, 15 and 17, Twp. 65 North, Range 1 West B. M.

The name of the canal or ditch or other works by which said water is conducted to such place of use is Trow Creek Water Association pipe line.

The right to take water from such works is based upon Permit No. 19270.

The source of supply from which such water is diverted is Rath's springs at the head of Trow Creek, tributary of Kootenai River.

The date of priority which said user is prepared to establish is March 24, 1942.

State Reclamation Engineer.

APPLICATION FOR PERMIT TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF IDAHO

98-2061

Application No. 26759
Permit No. 19270
District No.

1. Name of Applicant: TROW CREEK WATER ASSOCIATION, INCORP.
Postoffice address: Porthill County: Boundary State: Idaho
 I. If applicant is a corporation, give:
 - (a) Date and place of incorporation: Febr. 24, 1942, Bonners Ferry, Idaho
 - (b) Amount of capital stock: Percy Kelson, J. A. May, Harold Eubanks, A. M. Kramer of Porthill
 - (c) Amount paid in: Paul Wood, Copland, Idaho
 - (d) Names and addresses of directors:
- II. The financial resources of the applicant are:
 - (a) Cash on hand:
 - (b) Treasury stock:
 - (c) Bonds to be issued:
 - (d) Other resources: loan from U. S. Dept. of Agriculture
2. Quantity of water claimed: 0.1 cubic feet per second.
3. Source of water supply: All springs at the source of Trow/ which is a tributary of Kootenai River
Creek in the W $\frac{1}{2}$ SE $\frac{1}{4}$, Sec. 11
4. Location of point of diversion: N 32° 30' E; 1460 feet distant from the South Quarter corner of Section 11, T. 65 N, R. 1 W, B. M., and is the SW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 11, T. 65 N, R. 1 W, B. M., County of Boundary
5. Water is to be used for: domestic, stock, and incidental irrigation
6. If for mining, milling, power or manufacturing purposes, give:
 - (a) Point of use of water: feet distant from corner of Section
T. , R. , B. M., in the of Section , T. , R. , B. M.
 - (b) Amount of power generated: H. P., under feet head.
 - (c) Water is to be returned to at a point feet
distant from the corner of Section , T. , R. , B. M., in the
of Section , T. , R. , B. M.
7. Estimated cost of works: \$ 14,000.00
8. Kind of works: spring development; 2-1200 gal. concrete tanks, 4 1/2 miles of district pipe
9. Height of dam feet; length of dam at top feet; length of dam at bottom
feet; material used in dam:
10. Size of headgate: Width feet; height feet.
11. Ditch: Width at bottom feet; width at water line feet; depth of water
feet; dimensions of flume:
Diameter of pipe 4" to 2" inches; length of conduit 4 miles.
Average grade per mile 140 feet.
12. The time required for the completion of such work is 5 years.
13. The time required for the complete application of the water to the proposed use is 6 additional years.
14. The land to be irrigated is described in the following tabulation: See remarks.

15. (a) Is reservoir to be used? If so, fill in (b) and (c) below.
 (b) Name of Reservoir and number of Storage Permit:
 (c) Date of filing of Application for Storage Permit and Name of Applicant:

BE IT KNOWN THAT The undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.

Trow Creek Water Association, Inc.
Applicant.

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO
REPORT OF ENGINEER

Permit No. 19270This proof is for Beneficial use In Water District No. _____1. Name of applicant Trow Creek Water Association, W. R. Snider, Secretary, Porthill, Idaho2. Source of water supply: Rath's Springs, at head of Trow Creek3. Location of point of diversion: Is in the SW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 11T. 65 N. R. 1 W. County of Boundary

4. Describe works as they exist, giving dimensions and capacities of same: This is a Municipal water system for residents in and about Porthill, Idaho. There is a concrete collecting tank in the spring, size 30 in. by 30 in. by 48 in. high. There are 2 gathering pipes, one to NE approximately 300 ft. long by 4 in. in diameter, and one to the SE approximately 200 ft. long by 4 in. diameter. The outlet for this tank is approximately 12 in. from the bottom extending toward the SW. Outlet pipe is 3 $\frac{1}{2}$ in. diameter. There is an overflow pipe to the NW. Tank No. 1 is a concrete tank, 14000 gal. capacity, ~~tank cover~~. Opening is 30 in. by 31 in. by 21 in. high. The cover is wood covered with sheet metal. It has an overflow of 2 $\frac{1}{2}$ in. by approximately 200 ft. long. 3 $\frac{1}{2}$ in. pipe line leads into the tank and 3 in. pipe leads out. The tank is in an enclosure 50 ft. by 50 ft. fenced with netting.

5. Water is used for: Domestic, stock and incidental irrigation by 35 families

6. State whether or not water has been turned into works of diversion: _____

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

Homes of 35 families in Sections 8, 9, 10, 11, 14, 15 and 17, Twp. 65 N., Range 1 W., B.M.

The second tank sits on the south side of the road approximately $\frac{3}{4}$ mi. from Porthill. It is also in a fenced enclosure, somewhat smaller than No. 1, and the tank is only approximately $\frac{1}{2}$ below the surface of the ground, the top portion being covered over with soil. Tank No. 3 is 14000 gal. capacity, concrete tank located approximately $\frac{1}{2}$ mi. from Porthill and on the No. side of the road. The third tank is approximately a duplicate of the first tank and is in a fenced in enclosure approximately 30 ft. by 36 ft. The first portion of the pipe line from spring to the tank is 3 $\frac{1}{2}$ in. diameter pipe. This reduced to 3 inch pipe approximately $\frac{1}{3}$ the distance to Porthill, then reduced again to 2 $\frac{1}{2}$ in. pipe, and finally to 2 in. pipe onto the second and third tank. One of the main purposes of the third tank is to reduce the pressure on the Porthill section of the system. There are 42 users, each allowed to irrigate $\frac{1}{4}$ acre of garden. There is 65 lbs. of pressure at Wood's house.

8. What large stream would the water here appropriated finally reach? Neetena River

Remarks: _____

Use is for domestic and gardens.

This examination was made on the 28th day of August, 1957(Signed) E. M. Humphrey Examiner.

Re: Permit No. 19270

Trow Creek Water Association
Mr. W. R. Snider, Secretary
Port Hill, Idaho

Gentlemen:

I intend to be in North Idaho on regular inspections during the week of August 27, and intend to call on you to make inspection, as required by law, in connection with your Permit No. 19270, sometime after the middle of the week, probably on Thursday.

Please be prepared to have someone familiar with the situation accompany me on this inspection.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Re: Permit No. 19270

Mr. W. R. Snider, Secretary
Trow Creek Water Association
Porthill, Idaho

Dear Mr. Snider:

We are this morning in receipt of Affidavit of Publication in the Bonners Ferry Herald, in connection with Beneficial Use Proof on Permit No. 19270.

This completes the proof, but before final action is taken in the matter, the law requires that a field examination be made by an Engineer from this Department.

We cannot say just when this examination will be made as this Department has but one Field Engineer who makes examinations all over the State.

However, he will try to contact you at the time the examination is made so that arrangements may be made to show him over the grounds.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

NOTICE FOR PUBLICATION
NOTICE OF PROOF APPLICATION OF WATER TO BENEFICIAL USE.

Notice is hereby given that at 11:00 A. M. on the 9th day of February, 1951, at Bonners Ferry, County of Boundary, State of Idaho, before M. D. Pace, Notary Public, proof will be submitted of the application to beneficial use of 0.1 cubic foot per second of the waters of Rath's springs, at the head of Trow Creek in accordance with the terms and conditions of Permit No. 19270 heretofore issued by the Department of Reclamation of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are Trow Creek Water Association, Inc., Porthill, Idaho.

The use to which said water has been applied is domestic, stock and incidental irrigation.

The amount applied to beneficial use is 0.1 cubic foot per second.

The water is to be used by 35 families at their homes in Sections 8, 9, 10, 11, 14, 15 and 17, Twp. 6S North, Range 1 West B. M.

The name of the canal or ditch or other works by which said water is conducted to such place of use is Trow Creek Water Association pipe line.

The right to take water from such works is based upon Permit No. 19270.

The source of supply from which such water is diverted is Rath's springs at the head of Trow Creek, tributary of Kootenai River.

The date of priority which said user is prepared to establish is March 24, 1942.

State Reclamation Engineer.

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

Permit No. 19270

Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Trow Creek Water Association, Inc., Porthill, Idaho
W. R. Snider, Porthill, Idaho, farmer, Secretary-treasurer

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. Trow Creek Water Association, Inc., Porthill, Idaho, Secretary-treasurer

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Permit no. 19270, date of priority March 24, 1942.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Rath's Springs, head of Trow Creek, Tributary of Kootenai River, SW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec 11, Township 65 N, Range 1 W Boise Meridian.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined.

Ans. Source of water is 5 springs located in two areas, all utilizing a buried tile field collection system. Water is collected into one common collection box and flows by gravity through a 3" transite pipe to the upper reservoir. There are three reservoirs all told having a combined storage of 37,000 gallons. The reservoirs are all concrete and covered. Distribution system is mostly 2 inch galvanized pipe. Springs are about 4 miles east of Porthill, Idaho. Amount of water capable of conveying is 64,800 gallons daily.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is for the use of 35 families located in Sections 8, 9, 10, 11, 14, 15 and 17, Township 65 North, Range 1 West, B. M.

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. None

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. 64,800 gallons daily

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. —

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. Water used Jan 1, 1945 to date: 64,800 gallons daily by 35-43 families.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. None.

(Sign) W. R. Snider Sec. Treas.

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in Bonnors Ferry, County of Boundary, State of Idaho, on this 30th day of January, A. D. 1951.

BOISE, IDAHO

Permit No. 19270

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Dale Olsen, age 38, farmer, Copeland, Idaho

Ques. 2. Are you acquainted with Trow Creek Water Association, Inc., the holder of Permit No. 19270? How long have you known him and where does he reside?

Ans. Yes. I have known about this development since Jan. 1, 1945.

Ques. 3. Have you read or heard read said Permit No. 19270, and are you familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Rath's Springs, head of Trow Creek, tributary of Kootenai River, SW $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 11, Township 65N, Range 1 W, B. M. Source of water is 5 springs located in two areas, all utilizing a buried tile field collection system. Water is collected into one common collection box and flows by gravity through a 3" transite pipe to the upper reservoir. There are three reservoirs having a combined storage of 37,000 gallons. The reservoirs are concrete and covered. Distribution system is mostly 2" galvanized pipe. Springs are about 4 miles east of Porthill.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. .1 second feet

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. none

19270

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Purpose water is used--domestic, located in Sections 8, 9, 10, 11, 14, 15 and 17, Township 65 North, Range 1 West, B. M.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. none

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. none

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. no

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. Since Jan. 1, 1945, I have seen it used for domestic purposes in various homes.

(Signed) Dale Olsen

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Bonnors Ferry, County of Boundary, State of Idaho, on this 30th day of January, A. December 26, 1950

Re: Permit No. 19270

Mr. W. R. Snider, Secretary-Treasurer
Trow Creek Water Association, Inc.
Porthill, Idaho

Dear Mr. Snider:

This morning's mail brings us an air mail envelope postmarked December 22, 1950, containing the following instruments:

Duplicate Notice of Beneficial Use Proof to be made under Permit No. 19270 on December 22, 1950, before M. D. Pace, Notary Public, together with authorization for us to have the notice published in the Bonners Ferry Herald;

The following duplicate proofs of Beneficial Use on said Permit:

1. Deposition of holder, signed by yourself on November 22, 1950.
2. Deposition of Marvin O. Housk, signed November 22, 1950.
3. Deposition of Dale Olsen, signed December 4, 1950.

We do not quite understand this, as obviously the proofs can not be made until after the statutory four weeks publication, and also obviously the date for such proof must be set at least a month in advance of the present time instead of December 22.

If you wish to set a later date, we will send a copy of the notice to the Bonners Ferry Herald with instructions in regard to publishing, and will send other forms for making proof at the time so designated.

Very truly yours,

INSTRUCTIONS

PROOF OF COMPLETION OF WORKS

Trow Creek Water Ass'n., Inc.
C/o A. M. Kramer, President
Porthill, Idaho

Boise, Idaho January 2, 1947

Dear Sir:-

Under the terms of your permit No. 19270 you are required to complete your diversion works on or before March 27, 1947. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

MARK H. KULP

State Reclamation Engineer

Mr. H. C. Haight
Associate Civil Engineer
Farm Security Administration
444 Yates Building
Boise, Idaho

Dear Mr. Haight:

Pursuant to your request concerning the requirements of this Office in approving the water facility development of the Trow Creek Water Association, I will advise as follows:

It is not necessary to get approval of the plans and specifications in connection with this type of project but it will be necessary for the Association to comply with all requirements of Permit No. 19270, which was approved by this Department on March 22, 1942, for one-tenth cubic foot per second of water from certain springs on Trow Creek to be used for domestic use, stock, and incidental irrigation.

Very truly yours,

James Spofford
State Reclamation Engineer.

Re: Permit No. 19270

Mr. C. H. Haight
State WF Engineer
Farm Security Administration
No. 444 Yates Bldg.
Boise, Idaho

Dear Mr. Haight:

In reply to your inquiry in regard to permit issued to the Trow Creek Water Association, Inc., wish to advise that our records show the following:

Permit No. 19270 was issued to the Trow Creek Water Association, Inc., on March 27, 1942, with priority date of March 24, 1942, for one-tenth (0.1) second foot of water from all springs at the source of Trow Creek (which is a tributary of Kootenai River), in the W $\frac{1}{2}$ 32 $\frac{1}{2}$ Section 11, Township 65 North, Range 1 West, B. M., Boundary County.

The water is to be used for domestic, stock and incidental irrigation, on eight acres located in Sections 8, 9, 10, 11, 14, 15 and 17, Township 65 North, Range 1 West, B.M.

This is a use permit, and in order to complete same and secure a license, proof of completion of works is due on or before March 27, 1947, and proof of beneficial use on or before March 27, 1952.

We trust that the above is the information which you require.

Very truly yours,

JAMES SPOTTORD
State Reclamation Engineer

NOTICE FOR PUBLICATION
NOTICE OF PROOF APPLICATION OF WATER TO BENEFICIAL USE.

Notice is hereby given that at 11:00 A. M. on the 9th day of February, 1951, at Bonners Ferry, County of Boundary, State of Idaho, before M. D. Pace, Notary Public, proof will be submitted of the application to beneficial use of 0.1 cubic foot per second of the waters of Rath's springs, at the head of Trow Creek in accordance with the terms and conditions of Permit No. 19270 heretofore issued by the Department of Reclamation of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are Trow Creek Water Association, Inc., Porthill, Idaho.

The use to which said water has been applied is domestic, stock and incidental irrigation.

The amount applied to beneficial use is 0.1 cubic foot per second.

The water is to be used by 35 families at their homes in Sections 8, 9, 10, 11, 14, 15 and 17, Twp. 65 North, Range 1 West B. M.

The name of the canal or ditch or other works by which said water is conducted to such place of use is Trow Creek Water Association pipe line.

The right to take water from such works is based upon Permit No. 19270.

The source of supply from which such water is diverted is Rath's

springs at the head of Trow Creek, tributary of Kootenai River.

The date of priority which said user is prepared to establish is March 24, 1942.

State Reclamation Engineer.
